# USE HELPS REBELS

## Rebels See Coup by Almazan

### Advancing Federal Army. Expected by One Pass, Comes by Another

#### Battle of Pulpito Defile Reported in Progress; Nogales Bombed

BOSTON, April 24.—(To the Editor of The Times.) Well, Tammany had their election. They wouldn't listen to Al Smith. Al wanted 'em to stay clean up, not only during the campaign but all the time, but the boys was just anxious to revert to type. In this controversy there, in the long run, I am betting on Smith. You can't keep class down. He would always have it on 'em, he can look 'em in the face and say: "Boys, did my name handicap your organization progress, like your organization's name has handicapped mine, answer me, again I ask you?" Say the kid that broke the record today was a chorus girl in this (Fred Stone's) show last year. I have known her father for years, he is a comedian and a good one. He flies, too. Yours, WILL.

# ONE PLANT MAY HEAT ALL PARIS

## Warm Waves Broadcast to Every Part of City from Eiffel Tower Envisaged

PARIS, April 24. (Exclusive)—The prospect of the entire city of Paris being heated by heat waves broadcast from the Eiffel Tower is considered reasonable by Jacques Risler, Parisian scientist. M. Risler has been impressed particularly by an apparatus which broadcasts short-wave lengths of two or three meters with a power varying between 400 and 500 volts. When a specially prepared vacuum filament is placed within the radius of the waves it immediately becomes red hot. By perfecting such an instrument and increasing its power, M. Risler says that an entire office or apartment building could be heated by means of receivers in the rooms. The Eiffel tower is being equipped with a heat broadcasting apparatus in the basement. By developing this system still further, he is convinced that a whole city such as Paris could be heated from a central plant which could be installed on the Eiffel tower, thus eliminating the care of furnaces, the dangers of coal shortage and the uncertainty of present heating systems.

# FLAPPER BREAKS AIR MARK

## Elinor Smith Remains Aloft Twenty-six Hours to Beat Endurance Record of Mrs. Thaden

ROOSEVELT FIELD (N. Y.) April 24. (P)—Elinor Smith, 17-year-old flying flapper of Long Island, won a victory today in the four-sided battle being waged against two women from the eastern seaboard by two from the West for the woman's solo endurance flight. She brought her plane down at 2:02:16 p.m., after 26 hours, 21 minutes and 32 seconds in the air, beating the record of 22 hours, 3 minutes and 12 seconds established by Louise McPhetridge Thaden of California by 4 hours, 18 minutes, 12 seconds.

# AUTO MOTOR HAS SIXTEEN CYLINDERS

## Mystery Car Shown With Padlocks Holding Hood; Production Rumored

DETROIT, April 24. (Exclusive)—A sixteen-cylinder pleasure car is to be on the market in the late summer, it was learned today. An experimental model of the new car with a body on it making it a widely known make has been seen here in tests with its hood securely padlocked on both sides and its doors blocked up so as to prevent any view of the engine with the car. The car is expected to start a number of the rival plants building new engines of the multiple cylinder type.

# ARMED BURGLARY PRISON MINIMUM RAISED BY BILL

## SACRAMENTO, April 24. (P)—The way of armed burglary was made considerably rougher with the passage by the Assembly today of the bill introduced by Assemblyman Woolwine of Los Angeles, fixing a minimum sentence of ten years instead of one year for those convicted of burglary while carrying a loaded fire arm.

# LINDBERGH TO STICK TO AIR

## No Tapering Off in Flying After Wedding, He Says; Age No Handicap, Colonel Declares

NEW YORK, April 24. (Exclusive)—Col. Charles A. Lindbergh will be flying as long as he can drive an automobile, he told reporters today in answer to the query as to whether he expects to taper off his flying after he marries or as he grows older. In the opinion of America's foremost pilot, an aviator skilled in his youth can fly as long as he can drive a car. Terse, he disposed of the oft-repeated conjecture that he might give up the air as his responsibilities became greater—which caused many persons to think that he will be safer on the ground. "I can see no reason why I should be the best obtainable personnel to make it the safest airline in the country, Lindbergh said. For two weeks prior to the actual inauguration of service pilots will fly the route to acquaint themselves thoroughly with the conditions to be encountered. Chief pilots all will have had at least 1000 hours of flying, with a considerable portion of it on trimotored ships. The T.A.T. will use trimotored Fords with Pratt & Whitney Wasp engines. All planes will be able to fly on two of the three motors with the maximum load to be carried.

# FLOOD'S VICTIMS RESCUED

## Twenty Persons Marooned by Sudden Break of Dike on Mississippi River Saved by Boat

QUINCY (Ill.) April 24. (P)—Twenty persons, marooned on a levee along the South Quincy Gardens today by flood waters of the Mississippi River, were rescued later in the day by a boat sent from Keokuk, Iowa. They were marooned following a break in the South Quincy wall of the river at 7 o'clock this morning. The Mississippi hurled a telling blow at a place that had been considered sound. Farther south in the district workers had struggled all day and night piling sandbags against soft places and seepage pools at 7 o'clock this morning, the levee broke. The water was rushing through at the extreme north end. A torrent came through a gap sixty feet wide, which soon crumbled and made a hole about 150 feet across. The alarm quickly was spread to residents who hurriedly moved out and the section soon became a scene of a hasty exodus, with women

# WILL ROGERS REMARKS

## Will Rogers today on a trip in the Editor of The Times: Well, Tammany had their election. They wouldn't listen to Al Smith. Al wanted 'em to stay clean up, not only during the campaign but all the time, but the boys was just anxious to revert to type. In this controversy there, in the long run, I am betting on Smith. You can't keep class down. He would always have it on 'em, he can look 'em in the face and say: "Boys, did my name handicap your organization progress, like your organization's name has handicapped mine, answer me, again I ask you?" Say the kid that broke the record today was a chorus girl in this (Fred Stone's) show last year. I have known her father for years, he is a comedian and a good one. He flies, too. Yours, WILL.

# REBELS PROTEST

## Gen. J. Trevino, who was in Agua Prieta today on a trip inspecting the rebel lines, has asked the American government to see that Almazan's troops are not allowed to use the road on the American side.

# REBELS PROTEST

## Gen. J. Trevino, who was in Agua Prieta today on a trip inspecting the rebel lines, has asked the American government to see that Almazan's troops are not allowed to use the road on the American side.

## TESTIMONY IN TRIAL FINISHED

Mrs. McPherson Quizzed in Hardy Case Finale

Each Side Allowed Three Hours to Sum Up Today

Evangelist Tells Nothing of Value on Stand

(Continued from First Page)

Pherson and read a question and answer where Judge Hardy admitted that he had hired the detectives both for the Long Beach and Carmel investigations.

His activities in connection with McKinley he termed as "independent investigation," and denied that he was acting as the agent of Mrs. Kennedy.

Out came the old transcript of the trial and Hornblower read Judge Hardy's statement that McKinley reported to him and he reported to Mrs. Kennedy.

LETTERS SHOWN

"That's correct," Judge Hardy admitted. Mr. Hornblower then read into the record a number of letters passing between the judge and McKinley, in which the jurist appears to be directing the work of the lawyer, who was paid \$1000 by Mrs. Kennedy.

On two points he contradicted the deposition of Mrs. Kennedy, who consistently has expressed herself as favorable to him. Mrs. Kennedy said she was suspicious of Mrs. Stelfox and that the woman was evasive when she came to the temple with her story of inducing the Carmel woman to come forward.

Thereafter she asked Judge Hardy to talk to the woman and check her story. Judge Hardy said Mrs. Stelfox was not evasive and he was not suspicious of her.

He also contradicted Mrs. Kennedy in regard to a conference the temple shortly before Mrs. McPherson went before the grand jury.

MEMORY DIM

Mrs. Kennedy said Judge Hardy advised going before the grand jury which she herself opposed but Judge Hardy could not recall this conference, although he said he previously had so advised them.

Judge Hardy said that he was active in the investigation because he wanted the truth to come out and to obtain all the facts, which should be given effect of the law in investigating it. In answer to a question by Mr. Hornblower, however, he was forced to admit that he never gave the District Attorney any of

## FEVER TOUR HORRORS TOLD

Passengers on African Trip Disembark With Four Missing Due to Deaths from Malaria

PARIS, April 24. (AP)—Bringing a story of fever and death, passengers who cruised the coast of South America and Africa for several months in the steamship Duchess of Athol were divided between London and Paris tonight.

Four of their original number are missing, victims of malignant malaria which some of the tourists contracted in overland tours to Victoria Falls and Kruger National Park. Those who died were Henry Norweb, 68 years of age, of Roslyn Heights, N. Y., on March 28; Dr. Edward Hardenbrook, 52, of Rochester, N. Y., on March 28; Luther Fahey, 71, of Kingston, Jamaica, on March 30; and Mrs. Alice M. Erckel, 48, of Hollywood, Cal., on April 1.

DEATH MARS VOYAGE

The four deaths saddened the passengers. Many told of the oppressive heat, saying that it was from 98 to 100 in the shade at times and as high as 135 in the sun. It was in this heat and presumably because of being bitten by insects in the interior of Africa that seven passengers were stricken by malignant malaria. The three who recovered, after lengthy illness, are Miss Wilhelmina H. Comstock of Ottawa; William John Mills of Toronto and George A. Chandler of Hartford, Ct.

Three of those who died and two of the other three who recovered were members of a party of forty odd who were marooned by the

voluntourists reports submitted to him by the detective agencies.

"Did you believe that Mrs. McPherson had been kidnapped?" Hornblower asked.

"There was no evidence to the contrary," Judge Hardy replied.

The transcript of the Municipal Court case shows that Judge Hardy testified that he believed the story. Hornblower asked him if he still believed it, but an objection was sustained and it went unanswered.

Yesterday Judge Hardy termed it the "alleged kidnapping."

SENATORS RESTLESS

Judge Hardy all the way through has testified that it was his understanding that the District Attorney had dropped the McPherson investigation early in August, and that therefore the \$2500 "love offering," the check being dated August 12, was not in payment of legal services in the case. He based his information, he said, on a newspaper story quoting former Dist. Atty. Keyes.

He was shown a copy of The Times of the following day, in which the grand jury was reported as ordering Keyes to continue. He denied ever having seen or heard either of the article or the story.

Mrs. Stelfox today made a partial identification of J. I. Woolley of Oakland, a witness, as the "Martin" to whom she was sent by R. Woolley, according to Assemblyman Cronin. J. I. Woolley has denied knowing her and R. Woolley has denied sending her to Martin.

The Senate exhibited distinct signs of weariness today and everyone is eager to conclude the case. Many Senators wrote letters, some slept and others were absent. According to back-of-the-rail gossip, further evidence is useless, the members already having made up their minds as to their votes.

INTERVIEW WITH MOORE

Practically the entire morning session was occupied by the interrogation of Judge Hardy as to his visit to Santa Barbara and his call on Wallace Moore, newspaper man whom Hardy is charged in the articles of impeachment with attempting to intimidate and to frighten by pointing out the serious consequences which might follow a false identification. Moore is the reporter who stopped an automobile in which Kenneth G. Ormiston and a woman companion were traveling on the height of the furor over the Carmel cottage incident. Moore testified here as a prosecution witness and declared that Mrs. McPherson was the woman in the car with the Angelus Temple radio man.

Under questions from Ray Nimmo of his counsel, Judge Hardy entered a general denial to practically every statement made by Moore on the witness stand. He stated that he did not try to intimidate Moore and in fact, it was the newspaper reporter who did all the talking at the interview and all that Hardy did was to answer questions.

Hardy substantiated many portions of Moore's testimony as being the conversation which took place that August evening at Santa Barbara but denied that he was the one to suggest a warning to Moore on the question of wrong identification. He did state, however, that he cautioned Moore on the identification question after Moore asked him for an opinion.

REASON OFFERED

Judge Hardy said he went to call on Moore as the result of reading a newspaper article to the effect that Moore had made or had not made a partial identification of the occupants of the Ormiston car. He was on his way north on a vacation at the time. He stated that Moore produced all the articles he had on the incident in question and there was a general discussion of them. Hardy stated that the night was a warm one, so Attorney Nimmo left that as the reason, by inference, why Moore's forehead is said to have been covered with beads of perspiration after the Hardy interview.

Hardy also stated that he did not know at the time of his talk with Moore that the latter ever would be called as a witness in the case of the People vs. McPherson. He did admit that he talked to Moore of his interest in Angelus Temple, Mrs. McPherson and "Ma" Kennedy.

DENIAL VOICED

He denied that he talked of an asserted friendship between Mrs. McPherson and Ormiston. He said, however, he discussed the "Rose, Steve and Frank reputed kidnappers" yarn with Moore. Hardy said that Moore was much agitated during their interview and sought information on the question of wrong identification.

Hardy said Moore stated that he was unable to identify the woman in the car although Moore since has declared otherwise.

On his return to Los Angeles following his vacation, Hardy testified that he did not direct the activities of any of the attorneys in the McPherson case or consult with them, or with any Superior Court judge regarding the dismissal of the charges against the evangelist and her mother. He said he did discuss some phases of the case with former Dist. Atty. Keyes and with the latter's deputy, E. J. Dennison.

## ALMAZAN COUP ALARMS REBELS

Stolen March Over Little Used Pass Feared

Federals Expected to Take Pulpito Defile

New Troops Rushed Out to Meet Federals

(Continued from First Page)

Calles from San Blas. It reported that Federal aviators had been bombing and machine gunning the rebel positions at Matias. The aviators observed that the rebels are strengthening their trenches. Gen. Calles also said that the Federal gunboat Bravo, at anchor in Guaymas Bay, bombarded several rebel trains as they passed through a junction on the bay shore. The gunboat Progresso is cruising off the coast in order to blockade Port Guaymas.

Bill a third message on Tuesday's date came from Gen. Almazan, in command of the northern Federal army. It said he is en route with 10,000 men from Casas Grandes toward Pulpito Pass and that he expected to camp tonight at a ranch in the entrance of the canyon. By entering Sonora through that pass, it is expected that Almazan will be able to cut the rebels off from the coast.

Gov. Luis Leon of Chihuahua reported the surrender of 500 rebels commanded by Gen. Rosendo Hernandez and Gen. Hernandez. He said the rebels "guaranteed peace and tranquility for the State of Chihuahua."

ONCE AIDE OF VILLA

Nicholas Fernandez was for years one of the right-hand men of Francisco Villa.

The message from Gen. Cardenas respecting the operations directed against Matias stated that he had divided his cavalry into two columns under Gen. Carrillo and Talamantes, which were stationed to the north and the east of the town respectively. A regiment from Talamantes column under Col. Quinolones reached the village of Chio in Northeast Sinaloa. It had been sent there on the report that several hundred rebels had concentrated at the village and the regiment found that the insurgents had gone and it pushed on toward Agua Caliente in the hope of catching them there.

Col. Tapia, chief of the Presidential staff, denied the correctness of reports from the rebel general, Topete, given out through Nogales, to the effect that Gen. Talamantes had suffered a repulse with a loss of 700 killed. "There is nothing to that report," Col. Tapia said.

GOV. RODRIGUEZ PLANS TO REPEL REBEL FORCES

CALEXICO, April 24. (AP)—Gov. Rodriguez of Baja California was maneuvering his troops at San Luis and Sonoyta, Son., to repulse a rebel advance under Gen. Sasse, tomorrow, Gen. Pareyon, his chief of staff, said here tonight.

THREE-DAY BATTLE IN JALISCO ALSO REPORTED

MEXICO CITY, April 24. (AP)—Dispatches to La Prensa from Guadalajara, Jalisco, tonight said a "crucial" battle had been under way for three days between 1000 "Cristobal"—so-called religious rebels—and Federal troops at Tepic, Jalisco.

SMITH DAMNS CURRY WITH FAINT PRAISE

NEW YORK, April 24. (AP)—Former Gov. Smith today made this comment on the election of John P. Curry as head of Tammany Hall.

"I have read of the election of Mr. Curry as leader. I have known him for twenty-five years. He is a man of ability and courage. I wish him success."

BILL APPROVED ON DOGS' TAILS

SACRAMENTO, April 24. (AP)—Fox terriers and alreales stand winners today as the result of a clash between the humanity and the aesthetics of the Senate Committee on Crime Problems.

The committee approved a bill introduced by Senator Mueller of San Diego which would bar further clipping of the ears or tails of animals. The measure had some opposition, three members complaining that an alreale or police dog with a long tail would be a distressing sight.

HOT DOGS HELP ELECT MAYOR FOR DALLAS

DALLAS (Tex.) April 24. (AP)—The lowly "hot dog" has swept J. Waddy Tate, former minor official in a railroad office here, into the office of Mayor of Dallas. Tate, independent candidate, whose third campaign for the Mayoralty was featured by "hot-dog" rallies, at which he served thousands of frankfurter sandwiches to voters, was elected yesterday. He received 12,069 votes to 8557 for Temple Houston Morrow, supported by the United Dallas Association.

SEA FLYER LOSES IN SUIT

SAN FRANCISCO, April 24. (AP)—Harry Lyon, navigator of the moonplane Southern Cross on its trans-Pacific flight to Australia last year, lost a judgment of \$1875 in Superior Court today to H. Ordway, who asserted the aviator failed to fulfill a theatrical contract with him.

## RED CROSS GIVES AID TO HOOVER

Organization Saves Him From Fatigue of Shaking 850 Hands

WASHINGTON, April 24. (AP)—Because they wished to avert the fatigue which the President would feel from shaking hands 850 times, delegates to the eighth annual convention of the Red Cross today declined an offer by President Hoover to shake hands with each of them.

BELL GIVEN FREEDOM IN SMITH CASE

Baltimore Man Exonerated for Blame in Death Due to Fight After Party

NEW YORK, April 24. (AP)—A grand jury today exonerated Samuel E. Bell, Baltimore oil promoter, of any blame for the death of Arthur Morgan Smith, wealthy Cleveland business man he was accused of fatally striking after a fashionable Park-avenue party.

After the grand jury's finding, which is said to have been unanimous, the homicide charge on which Bell has been held in \$10,000 bail was dismissed and he was freed.

Smith died of a fractured skull sustained, according to information gathered by the police, when Bell resisted an intrusion and struck him. Bell had taken Mrs. Robert Brown of Lexington, Ky., to a party at the Park-avenue apartment of Mrs. Robert Schuetz, who inherited a Standard Oil fortune from her first husband, Harry S. Harkness. They met Smith there, a stranger to both.

Police information is that Smith attempted to enter the taxi Bell had called to escort Mrs. Brown to her hotel and that Bell struck him, knocking him to the sidewalk.

OIL CHIEFS FOR FEDERAL PLAN

(Continued from First Page)

stitute's board of directors and one of the country's leading conservationists, declared that the action of the institute is "the only rational one it could take."

REQUA'S OPINION

"In my opinion," Mr. Requa said, "the decision of the institute will have a tremendous effect on the future development of the country. Its influence will affect not only the oil industry, but every phase of American life."

R. C. Holmes, of the Texas Company, chairman of the committee which drew up the institute's conservation program, said that he is "very happy that the oil industry and the government find themselves working side by side toward the same goal—that of properly using one of our great natural resources."

E. B. Reeser, president of the Institute, also declared that he is "highly pleased over the action taken and the fact that the industry and government have found a way to co-operate."

De King Liquor Selling Denied

GENEVA (Ill.) April 24. (AP)—Joseph De King, whose wife was killed a month ago by dry raiders, never sold liquor at his home, the Kane county grand jury was told today.

George Stifford, who operated a gasoline filling station on the De King premises on the outskirts of Aurora, Ill., testified he had never been in the liquor business with De King.

SITE RECOMMENDED FOR GAME REFUGE

SACRAMENTO, April 24. (Exclusive)—Announcement was made today by Fred G. Steverton, the advisory committee named to investigate the location of game refuge in the San Joaquin Valley has recommended a site near Los Banos, Merced county. The site covers 3000 acres and the committee has recommended that the State Fish and Game Commission purchase the land.

## BIRTH CONTROL STIRS UP COURT

Jeering Women Herded Out After Demonstration

Quiz of Medical Experts Brings Bedlam

Even Prosecutor Astounded at Testimony Given

(Continued from First Page)

NEW YORK, April 24. (Exclusive)—More than 200 laughing, jeering women, many of them prominent in the social world, were herded out of a courtroom here this afternoon when they booed at questions put to medical experts at the hearing growing out of the raid ten days ago on Margaret Sanger's birth-control clinic research bureau.

The official dignity of Magistrate Rosenbluth was further ruffled when one of the women kicked open the door and shouldered back into a room emptied of all except reporters, witnesses and court officers.

"Sweet land of liberty, hah—a lot of blundering sheep and cattle."

COME RIGHT BACK

The exile did not last long, for these women were patrons of the birth-control clinic, and immediately appealed to a higher judge. The doors were reopened and the women readmitted to hear the case against two doctors and three nurses arrested on the word of Police Commissioner Anna C. McMann, who said she had given birth-control advice.

At the conclusion of considerable highly spiced testimony Magistrate Rosenbluth asked both sides to submit briefs and announced he will decide on May 5 whether the evidence warrants filing of a complaint.

The crowd was composed largely of intelligent appearing and well-dressed women and physicians of the highest standing, including Dr. Louis I. Harris, former health commissioner.

Dr. Harris's testimony appeared to astonish John Hogan, assistant District Attorney, in more than one instance.

PROSECUTOR AMAZED

"I made a thorough inspection of this city's ten birth-control stations when I was health commissioner," said the doctor, "and found they were operating according to the law."

"Did the doctor mean to say that during his administration city clinics provided birth-control information?" shouted Hogan in amazement.

Dr. Harris carefully explained that the clinics are prenatal clinics and birth-control devices are entirely useless there.

Dr. Max Mayer testified briefly that at the McManis Hospital he does not check up on the marital status of his female patients, and gives birth-control advice whenever he thinks it may aid in preventing disease.

British Capital and Labor Find Common Ground

LONDON, April 24. (AP)—British labor and capital circles generally hailed an era of better feeling between them as the outgrowth of a meeting of representatives of both.

The meeting resolved to consider appointment of a joint committee to examine the best means of industrial co-operation.

The meeting was attended by the British Trade Union Council and two leading capitalist organizations, the National Confederation of Employers' Organizations and the Federation of British Industries—three corporations which represent about \$28,000,000,000 capital and 4,500,000 workers.

The four-hour conference revealed broad grounds of agreement, although not without some criticism. A. C. Cook of the British Miners' Federation, who has been one of the most severe critics of the co-operation proposal, was present and assented to the main resolution.

LOYD STEAMER BURNS

TRIESTE (Italy) April 24. (AP)—The steamship Remo of the Lloyd Triestino line was practically destroyed by fire today while lying in harbor after returning from Japan with a cargo of cotton and sacks.

**SARGON IS POWERFUL INVIGORATING TONIC**  
Scientific Formula Contains Ingredients Which Are Designed to Impart Tone and Strength to Entire System and Which Are Valuable for Their Influence Upon the Appetite and Digestion.  
The instant and phenomenal success of Sargon is easily explained. Its effect is almost immediate. Right from the first people who are suffering from lowered vitality feel its stimulating, tonic effects. Thousands of men, women and children who have taken it feel the most astonishing and gratifying results report seem to pick them right up and put them on their feet.

It is not only a powerful reconstructive tonic designed to impart tone and strength to the entire system, but it is a powerful treatment as well and exerts a tremendous influence upon the processes of assimilation and elimination. It also contains other ingredients of recognized scientific value which are valuable for their influence upon the appetite and digestion.  
The liver is performing its proper functions, the processes of indigestion, assimilation and elimination become deranged, resulting in dyspepsia, gastro-intestinal disorders, auto-intoxication, constipation, hyperacidity and other distressing symptoms which are now so common in this modern age.  
Another basic ingredient in Sargon is designed to build up the richness and vigor of the blood stream by increasing the amount of hemoglobin which the red blood corpuscles contain and thus enable the blood to purify itself.  
Still another principal ingredient in Sargon is designed to purify the all-important secretions of the endocrine glands, which form a network throughout the body and which secrete into the blood stream. Sargon represents some of our latest knowledge in the field of medicine. The work done in originating it can scarcely be measured. It has involved the critical study not only of modern medicine, but also the clinical and research work done with them by leading scientists in some of the greatest laboratories and medical centers of the world.  
A special representative of the Sargon Laboratories can be seen daily at Sixth and Broadway, where he is meeting hundreds of Los Angeles men and women who are anxious to learn more about this remarkable new medicine. Sargon may be obtained at all Owl Drug Stores.—(Advertisement.)

## AIRSHIP BOMB BAN REJECTED

Germany's Proposal Fails at Disarming Conference

Kellogg Pact Held to Make War Rules Superfluous

Heated Debate Grows Out of "Humane" Proposition

GENEVA, April 24. (AP)—Germany's proposal for prohibition of aircraft bombing in war time was rejected today by the Preparatory Commission on Disarmament of the League of Nations. Out of twenty-five national delegations at the conference only five countries supported the project.  
However, in refusing to insert the bomb prohibition clause in the draft treaty which the commission is formulating, the delegations voting against the proposal accepted a subsequent resolution offered by Nicolas Politis of Greece affirming that they have no intention of authorizing the dropping of bombs on civilian populations.

**CARNAGE ENVISAGED**  
Count von Bernstorff in arguing for his proposal said that in a few hours bombing airplanes flying over Paris, Berlin and London could take a toll of half a million victims. The Germans insisted that this method of warfare is permitted war will become not only more horrible but more cowardly.

The combatants themselves, protected by defensive appliances, would be in the safest position, while the real victims would be old people, women and children who hitherto have been protected by all possible means which civilization affords," he said.  
Francis Sokal of Poland said that no one can deny the horrors of such warfare as Count von Bernstorff described, but said the conference has not reached that point and under the Kellogg pact is not likely to reach it. When war has been outlawed, he said, it is illogical to consider these circumstances to begin codifying rules of war.

**RUSSIAN PROTESTS**  
Maxim Litvinoff, soviet spokesman, immediately jumped to his feet and asserted that Poland was among those who rejected the soviet proposals last year for complete abolition of armaments of warfare, he said, and it therefore is possible

## FRENCH LAUNCH NEW CRUISER

Fifth of Its 10,000-Ton Size Vessels Completed as Arms Talk Goes On

PARIS, April 24. (Exclusive)—While the disarmament delegates at Geneva are discussing the limitation of the navies, France's fifth 10,000-ton cruiser, armed with eight eight-inch guns, christened the Foch, was launched today.  
Great Britain already possesses twelve eight-inch gun cruisers in commission and the United States first two, the Pensacola and Salt Lake City, are not yet completed.

The Foch is 575 feet in length, has a sixty-foot beam and twenty-foot draught and has 90,000-horsepower engines, assuring a speed of thirty-three knots, which it is hoped it will surpass.

for war to develop and hence necessary to limit the form of warfare. He added the soviet delegation is prepared to support the German proposal.

Count Massigli, speaking for France, opposed the German amendment, recalling the shelling of Paris by the "Big Bertha" of the German army eleven years ago. He said he regretted the necessity of remarking that the real cause proposed is abolition of the conscription which has been established by particular clauses established by treaties, which is not the task of the commission.  
Count von Bernstorff responded that the prohibition principle has been accepted as regards poison gas and as for long-range guns he intends later to propose their prohibition also. He agreed that the Kellogg pact is the most important event which yet has occurred in the field of disarmament, but said that if this is invoked the nations must do away with armaments entirely.

**WILSON HEARD**  
Hugh R. Wilson, United States Minister to Switzerland, intervened at this point. He refused to say that the time may not come when the nations should take up the problem of the use of aviation against civil populations, or even the possibility of exclusion of aviation altogether from war, but he does not believe that the time has come for the preparatory commission to take up the problem. He voted against the proposal.

The proposal made by Count von Bernstorff banned all use of explosives against civilians. The countries supporting his proposal were Russia, China, Sweden and The Netherlands.

M. Politis of Greece expressed belief that a country violating the Kellogg pact is not likely to obey any rules laid down by the conference.

**CLEVELAND WARRING ON GANGSTERS**  
Bombings and Slayings Cause Police Offensive Against Bootleggers

CLEVELAND, April 24. (AP)—Stirred by the bombing of two policemen's homes and the slaying of a pair of notorious gangsters here today, the Cleveland police department tonight is in the throes of a city-wide offensive against bootleggers and their killer associates.  
Although criminals of all sorts are sought in the clean-up, the center of the campaign is the search for the man who planted the bombs and the gangsters who killed Morris Fuerstman and Isador Shiller.

Although the bomb blasts damaged two houses and gave the occupants a severe shaking-up, no one was injured.  
Bodies of the two slain gangsters were found in a ditch in the outskirts of the city. They had been garroted.

Police of Cleveland and Detroit say the killing indicates a new outbreak of gang warfare, and probably were in retaliation for the killing last week in Detroit of Samuel Abramson, a professional bondsman with a long police record.  
The two policemen who were the objects of the bombings are Capt. William A. Miller and Sgt. Patrick J. Holland.

The bombers left no clues. Police say the explosives probably had been hurled from automobiles. The blame is placed on bootleggers, however, because both of the officers have been unusually active in campaigns against liquor selling.

## Hogan Sues on Ring 'Moniker'

SAN FRANCISCO, April 24. (Exclusive)—As "One-Round Hogan" in the halcyon days of his boxing career, George Hogan punched with pride. But that was fourteen years ago. Now he is married, has three children, and "One-Round Hogan" is a distasteful appellation.  
Hence, contending that continued exploitation of the name by motion-picture companies is interfering with his efforts to make an honest livelihood as a private citizen, Hogan argued a \$250,000 damages suit today, naming as defendants Warner Brothers, Ackerman & Harris and several other firms and individuals.

The case was taken under advisement by Superior Judge Fitzpatrick.

**THEATER SEES CITY'S LOT**  
PHOENIX, April 24. (AP)—West Coast Theaters, Inc., today submitted an offer to the city of Phoenix proposing to pay the city \$14,000 annual rental for fifty years for a portion of the City Hall block on which a theater building would be erected.

## NAVY CUT ALSO ENGLAND'S PLAN

Chamberlain Says Britain Shares America's Hopes

Appreciation Expressed for Gibson's Suggestions

Conciliatory Spirit Will be Shown in Parleys

LONDON, April 24. (AP)—Sir Austen Chamberlain, British Foreign Secretary, told the House of Commons today that the British government fully shares the hopes and wishes of the United States government on disarmament as set forth in Ambassador Gibson's speech at Geneva Monday.

"The government desires me to take this opportunity to express its warm appreciation of the cordial conciliatory spirit shown by the American delegates and give assurance on its behalf that in the same spirit and with the most earnest wish to secure a complete understanding, it will consider the American suggestions," declared Sir Austen.

**REPLIES TO QUESTION**  
Sir Austen made his statement in answer to a question by Commander Joseph Kenworthy, Laborite, whether Ambassador Gibson's speech had been called to his attention and what response His Majesty's government proposed.

"As was at once stated by my noble friend, Lord Cushing, began Sir Austen, 'His Majesty's government shares to the full the hopes and wishes of the government of the United States as therein set forth. His Majesty's government, equally with the government of the United States, desires not merely a limitation but a reduction of naval armaments.'

"They have, indeed, themselves made proposals for such a general reduction and that the reduction should be applied to every class of war vessel. As between ourselves and the United States, such difference as has hitherto existed has not been concerned with these great principles, not with the relative strength of our respective navies, but with the determination of the categories into which ships of war should be divided."

**HELD TO BE IMPORTANT**  
"On this point His Majesty's government has noted with much interest the new criteria suggested by Mr. Gibson. It attaches great importance to the possibilities opened by the greater elasticity given by his suggestion to the adjustment of the agreed naval strength to the different circumstances of the two powers."

The Foreign Secretary then closed with the government's expression of approval and assurance that the American suggestions will be considered with the same spirit, with the earnest wish for complete understanding.

**FRENCH-ITALIAN PARITY MAY BE HARD TO SETTLE**  
GENEVA, April 24. (AP)—The problem of naval parity between France and Italy tonight loomed out as a reef which might imperil the success of any five-power naval conference armaments because Premier Mussolini is represented here as firm as a rock in demanding parity for Italy with France.

On the other hand, while France apparently fails to see the justice of such demands.

France thinks that her communications with her extensive colonial possessions and her mainland open to two oceans are sufficient reasons for her having naval forces superior to Italy.

This problem of satisfying Italy, at least on paper, is worrying delegates to the preparatory disarmament commission. Some are beginning to wonder whether a real advance on the naval problem could not best be made by establishing first of all an understanding between the United States and Great Britain.

**JAPANESE AUTHORITIES RAISE NEW NAVAL POINTS**

TOKIO, April 24. (AP)—Major differences of Japanese naval authorities with disarmament proposals broached at Geneva by Ambassador Hugh S. Gibson developed today.

A consensus of naval writers quoting these authorities said that the Japanese fundamental position included the following points:  
(1) Japan would hedge the limitation of categories of vessels under 10,000 tons with many carefully worked out conditions.  
(2) Japan would not accept the application of capital ship ratio of 5-5-3, decided on at the Washington conference, for auxiliary categories but would insist upon a ratio of 10 for Great Britain, the United States and herself.

(3) This nation would insist that "minor defensive craft" be placed outside any limitation agreement.  
The native papers, however, have given an unqualified welcome to the Ambassador's proposals.

## Forest Highway Fund Disbursed

SACRAMENTO, April 24. (Exclusive)—Allocation of \$1,250,000 of Federal money for the construction of highways in the national forests of California was announced today by the Bureau of Public Roads through the State Department of Public Works.  
Specific allotments of \$616,000 are made and, in addition, the bureau announces the expenditure of \$500,000 for the next year for general roads vital in protecting and administering the forests.

The apportionment by counties is as follows: Santa Barbara county, \$200,000; San Marcos Pass, \$10,000; Riverside county, at Idyllwild, \$25,000; Madera county, Wawona to Auberry, \$25,000; Mono, Coeville to Nevada City, \$100,000; Plumas, Quincy to Beckwith, \$25,000; Sierra, Yuba Pass, \$166,000; Eldorado, Placerville to Lake Tahoe, \$175,000; Tehama, Mineral to Mt. Lassen National Park, \$50,000.

**THEATER SEES CITY'S LOT**  
PHOENIX, April 24. (AP)—West Coast Theaters, Inc., today submitted an offer to the city of Phoenix proposing to pay the city \$14,000 annual rental for fifty years for a portion of the City Hall block on which a theater building would be erected.

## REPARATIONS FIGURES VEX

Two Sets May be Needed at Paris Conference

French and Belgians Not to Slash Claims

Little Animation Shown by Experts at Parley

PARIS, April 24. (AP)—Whether there should be one or two sets of figures in the final report on German reparations of the second Dawes committee was the chief preoccupation of the experts of the committee today.

If there is to be only one, then the creditors must come to an agreement with the Germans. Otherwise, the schedules of annuities proposed by the Allies in their memorandum and those offered by the Germans must be listed separately.

**NO FURTHER CUTS**  
Although there are still some optimists who cling to the hope of finding a way to bring about a compromise, most of the people connected with the conference have concentrated on preparation of the final report. The French and the Belgians remain firm in their determination to make no further reductions.

The headquarters of the conference, the Hotel George V, showed little animation today other than that caused by the influx of the increasing number of tourists arriving for the spring season. Only the secretaries with their stenographers were busy in the rooms of the various delegations.

**FRENCH FESSIMISTIC**  
Emile Moreau, principal French delegate, and Thomas N. Perkins of the American delegation made feeling visits to their offices, but had nothing to say.

If there were any private conferences between any of the chief experts on the main issues remaining to be settled, namely the amounts of annuities, they were sufficiently well concealed to escape notice.

The French press continues pessimistic over the pending private conversations which, it notes significantly, have not yet begun.

## Gen. Dawes on Journey Home

SANTO DOMINGO, April 24. (AP)—Gen. Dawes, newly appointed American Ambassador to Great Britain, was en route to New York today. He had completed his work as chairman of a special financial mission, which visited the Dominican republic on the invitation of the government to make recommendations regarding conduct of the government's business.

The mission sailed last night aboard the steamship San Lorenzo after being voted the gratitude of the Dominican Congress. Gen. Dawes was presented with a gold medal.

## Closing Day Set for Parliament

LONDON, April 24. (AP)—Premier Baldwin today announced in the House of Commons the prorogation and dissolution of Parliament for May 10, nominations for seats in the House of Commons on May 20, and polling on May 30.

## The New route to Europe

## SUGAR TARIFF COURSE FIXED

Beet Industry Organization Will Urge Increases

Foreign and Cuban Imports Included in Program

Curb on Philippine Supply Also to be Sought

WASHINGTON, April 24. (AP)—After hearing reports on the present condition of the American beet-sugar industry, the United States Beet-Sugar Association at its annual meeting today formulated a program of increased duties which it will seek to have incorporated in the tariff bill now being drafted by the House Ways and Means Committee.

The program calls for higher duties on both foreign and Cuban imports and a restriction on Philippine free sugar shipments into this country. The association would have the present 2.20 cents a pound duty on foreign sugar raised to 3 cents; an increase from 1.76 to 2.40 cents in the Cuban preferential tariff, and the limiting of Philippine free imports to 500,000 long tons, with the full 3-cent duty imposed on additional shipments.

**JOINT MEETING CALLED**

The association members will be joined tomorrow by producers of corn and cane sugar from the Middle West, Louisiana, Hawaii and Porto Rico, at a meeting of the Domestic Sugar Producers' Association to discuss the tariff, and also to consider the subjects brought before the recent world sugar conference at Geneva.

Declaring that the beet-sugar industry in this country needs an adequate tariff to survive, Stephen H. Love of Salt Lake City, president of the association, contended that a high duty barrier would be "the consumer's most valuable insurance" against a return of the high prices of 1919 and 1920.

**INDUSTRY'S STAND**

Harry A. Austin, secretary-treasurer, said the American sugar industry should receive first consideration as against any foreign country, arguing that Cuba through the preferential tariff has increased its exports until it is supplying "about 64 per cent of the entire American consumption of sugar."

The association re-elected Mr. Love as its president. W. L. Peterkin of Denver, and A. E. Carlton of Colorado Springs, Colo., were elected vice-presidents. Elisha Gee and W. D. Lippitt, both of Denver, and J. H. Eccles of Ogden, Utah, were among those named members.

## SLIPPERY NEGRO SENT TO JAIL

Elderly Darky Who Lived by Siding on Bananas Makes Bad Slip

CHICAGO, April 24. (Exclusive)—William Hoke, 71 years of age, a negro, who admitted that he had been making a living by slipping on banana peels, was sentenced to serve six months in jail today. Hoke admitted collecting damages from at least forty-five companies as a result of starting suits after slipping on a banana peel. The amounts he accepted as settlements, he said, varied from \$15 to \$850. Hoke was arrested at Kalamazoo, Mich., when he threatened suit against a bus company with the charge that he had frozen his feet at their station in Chicago and later injured himself by slipping on a banana peel.

of the executive committee. The board of trustees includes Frank E. Sullivan of San Francisco, and S. W. Sinsheimer of Denver.

## Roads Spending Many Millions to Bring Safety

INDIANAPOLIS, April 24. (Exclusive)—The railroads of this country in the past nine years have expended annually more than \$40,000,000 directly designed to bring about increased safety in rail transportation. R. H. Ashton, president of the American Railway Association, today told the ninth annual convention of the safety section of that association.

"As a result of these expenditures, together with the united efforts of officers and employees of the rail carriers, safety of travel by railway trains has increased more than 100 per cent in the past five years. In 1926, there was only one fatality as a result of a train accident among passengers out of every 49,000,000 who boarded a railway train. Five years ago the average was one fatality for each 24,000,000 passengers carried. Total fatalities in 1928 among passengers was sixteen compared with ten in 1927, seventy-nine in 1926 and eighty-three in 1925," he said.

## YOUNG VETOES AVIATION BILL

Pedrotti Measure Called Too Inflexible

SACRAMENTO, April 24. (Exclusive)—Gov. Young today vetoed the Pedrotti Senate bill, under which the State would have adopted the Federal aviation regulations as the California code. The executive based his refusal to sign the measure on the ground that the bill does not provide against changes in the Federal law and so commits the State in advance to regulations which might be inapplicable to conditions here. He also objected to the absence of provisions against low and stunt flying.

The Emmitt bill, now pending, the Governor said, covers the points to which he objected in the Pedrotti bill.

## HONOR SYSTEM SUPPORTED

Students at University of California Despise Cheaters, Questionnaire Reveals

BERKELEY, April 24. (AP)—The honor system is a deterrent to cheating, 1094 students out of 1571 in the University of California hold. To determine the reaction to the honor system in effect there, Phi Beta Kappa, national honor fraternity, submitted questionnaires to 1571 students, including their own members, other honor societies, and in classes.

The questionnaire revealed: One hundred and ten students declared they are not opposed to cheating in examinations.

Two hundred and eighty-eight would report cases of cheating to the student affairs committee.

One hundred and ninety-five would report cheating to professors or class instructors.

One thousand three hundred and fifty-nine would lose their respect for students who cheat, but 377 of

## STRIKE CALLED BY ENGRAVERS

Bay District Plants Tied Up by Wage Dispute

SAN FRANCISCO, April 24. (Exclusive)—Approximately 300 photo engravers who walked out because of a controversy over a forty-hour, five-day week, with six days pay, crippled twenty-five engraving plants in the bay district today, most of them in this city and Oakland. Most of the larger plants, facing delivery contracts which were jeopardized by the squabble, made immediate arrangements to send their orders to Los Angeles by airplane.

Employers recently granted a wage increase from a minimum of \$51.50 to \$55 per week, but the union demanded a five-day week.

## Saves Gardens

from these destructive pests!

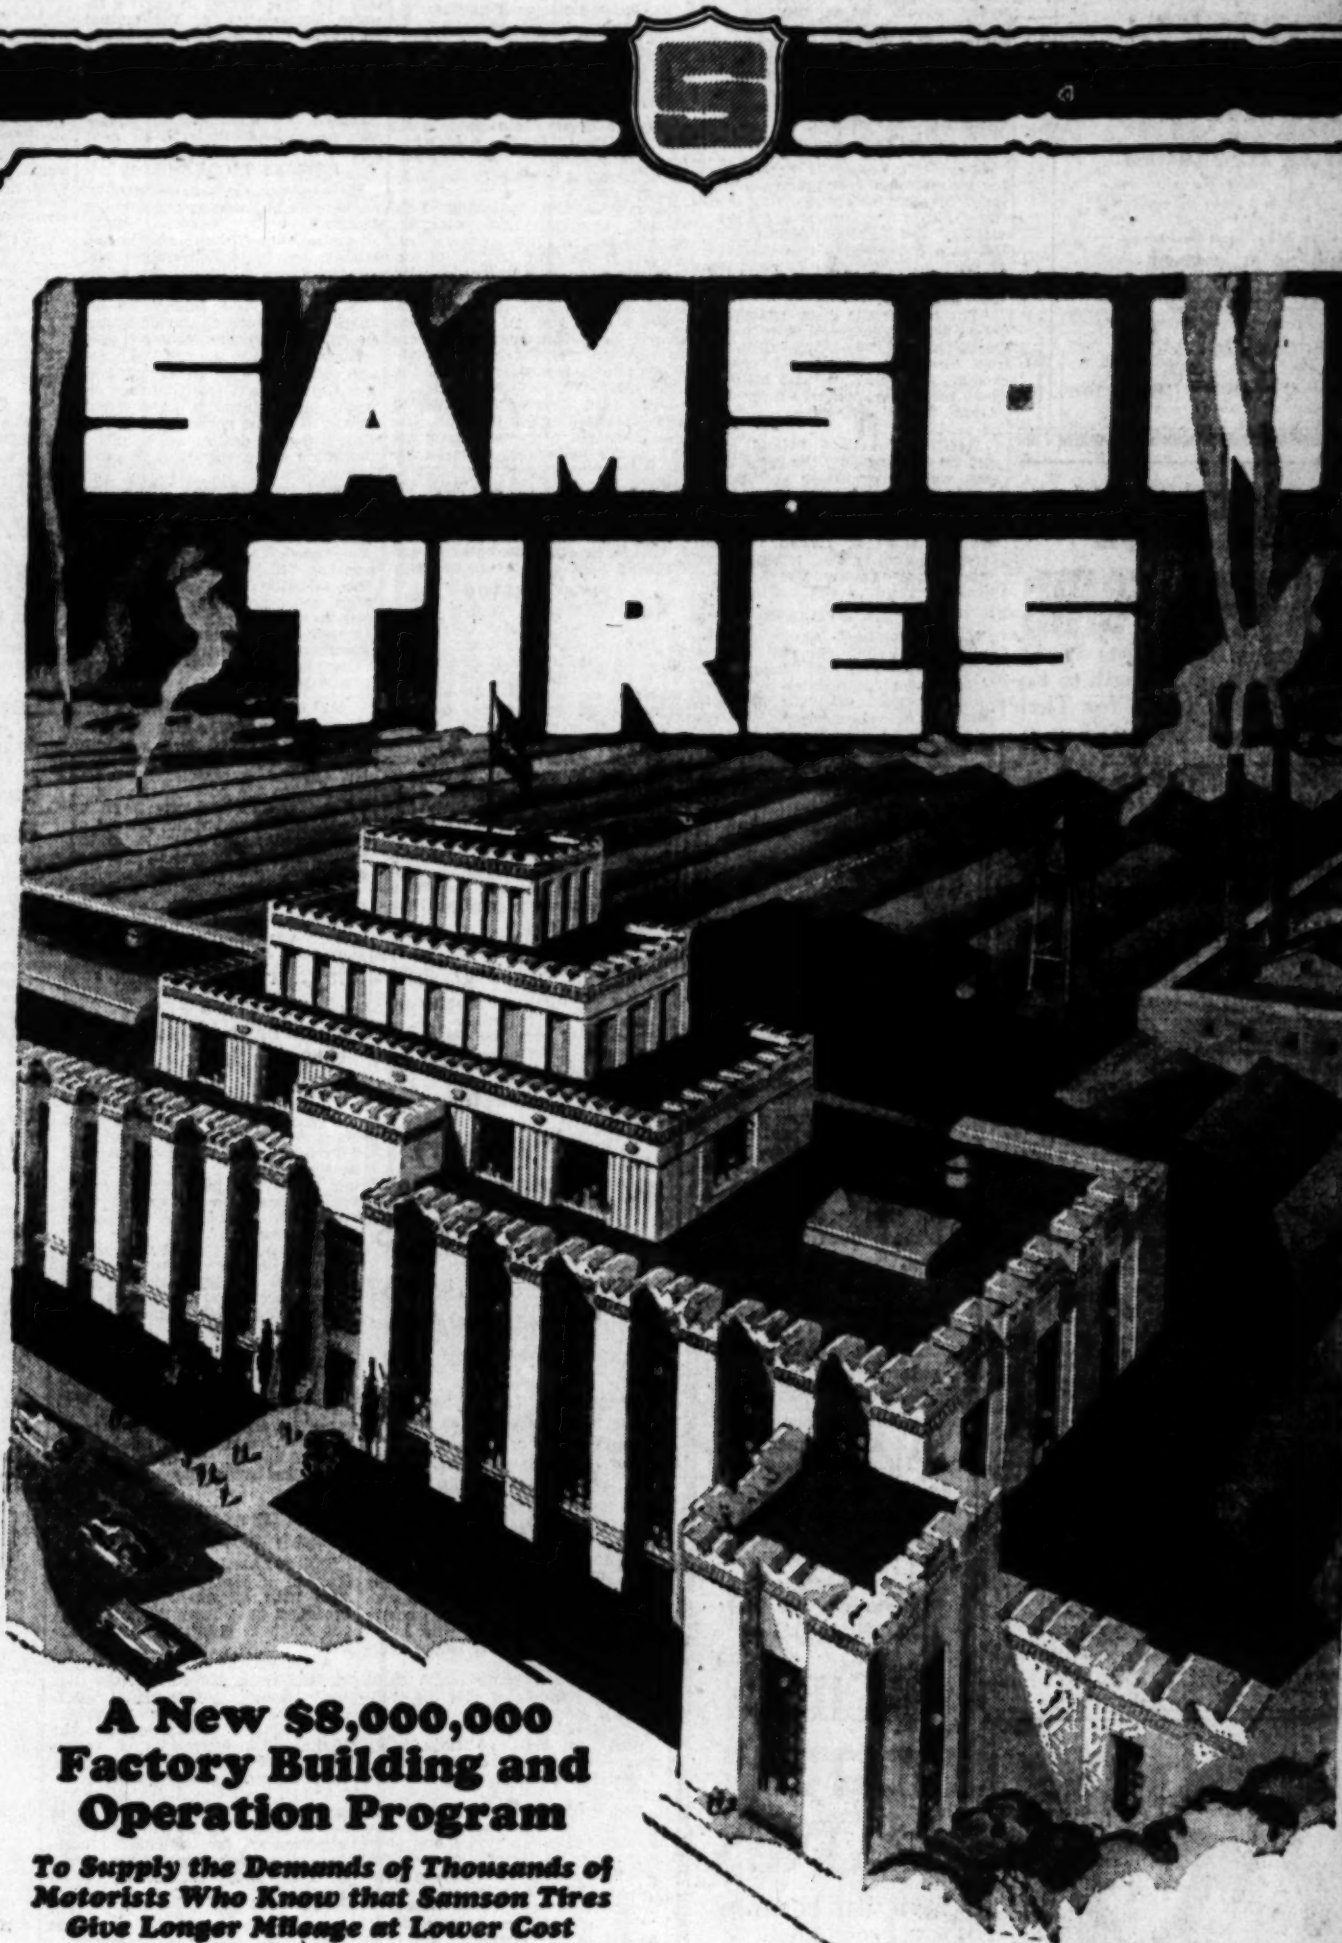

HERE'S a sure way to save your garden from the ravages of ants, slugs, snails, grasshoppers, cutworms, etc.

Ask your dealer for a package of Sarsol—the only prepared material that you simply broadcast on the ground—under the plants and shrubs. The ants eat this material and are quickly destroyed.

Sarsol is non-toxic to plants—safe to use and is not harmed by rain.

Manufactured and Controlled by Arrol Laboratories, Inc., 601 Broadway, New York City.

## A New \$8,000,000 Factory Building and Operation Program

To Supply the Demands of Thousands of Motorists Who Know that Samson Tires Give Longer Mileage at Lower Cost

WHEN a tire is outstanding in the service it renders and the economy it effects for the car owner, its fame quickly spreads and motorists purchase it in ever-increasing number.

That is the situation today which has caused Samson to launch a new \$8,000,000 Factory Building Program.

Samson tires were built from the outset to deliver a greater service—a longer mileage than can be obtained from any other tire—at a cost no higher than that of other good tires. That purpose has

been accomplished—motorists who have used Samsons have come back again for more and have brought their friends with them.

This plant will be the most modern and efficient tire factory in existence. It typifies the strength and the position in the tire world of Samson.

If you have not already experienced the greater service—the longer mileage—the increased riding comfort—the elimination of road troubles—the decreased cost of up-keep that Samson Tires give—try them the next time you need a new tire.

### avoid accidents at night

NEW scientific driving lamp automatically lights the turns... before you make them

RECORDS show that you can avoid the greatest danger of accidents when driving at night.

When you round a curve or corner, your lights shoot off into the air, blinding you temporarily and making it impossible to see the road ahead.

Now this danger can be completely corrected by a new scientific driving lamp called **PILOT-RAY**. It automatically turns with the wheels of your car, so that the light beam is always aimed in the direction you are going. You always know where you are going, and your family are safe.

See your dealer about securing a **PILOT-RAY**, or send this coupon for booklet giving complete information.

### CONGRESS JIBS ON FARM BILL

House Will Pass Measure on Hoover Lines Today

Senate in Revolt Writes in Tabooed Debentures

Administration Confident of Victory Ultimately

WASHINGTON, April 24. (Exclusive)—While the Senate continued today to kick up its heels in revolt against President Hoover on the farm question, the House forged ahead with consideration of an agricultural relief bill and is scheduled to pass tomorrow a measure satisfactory to the administration in every respect.

The lower branch voted down amendments today as fast as they could be offered, indicating that the farm legislation will be approved just as it came from committee and containing nothing in the way of an export debenture, such as the Senate Agricultural Committee wrote into the bill over the protest of the President.

**BROOKHART TURNS**

Meanwhile the Senate listened to a blistering attack on the President by Senator Brookhart, Republican, of Iowa, who supported Mr. Hoover during last fall's campaign but now has broken definitely with him on the farm relief issue.

Debate on the farm bill in the upper branch was broken by another long speech by Senator Heflin of Alabama in support of his resolution "deploring" the action by citizens of Brookton, Mass., in hurling eggs, tomatoes and other missiles at him when he appeared in their city recently to deliver one of his anti-Klan addresses.

**SENATE UNSYMPATHETIC**

The Senate has let action on this resolution drag along for two days, delaying a vote evidently either because it fears offending the Klan or feels discussion will reveal that the nature of the Brookton reception to the Alabama senator was justified.

The amendments to the farm bill rejected today in the House were many and varied. A typical test of administration strength came when a proposal by Representative Larsen of Georgia providing a system of co-operative purchasing agencies for the farmers was defeated 101 to 31.

"The bill will be passed tomorrow without change," said Speaker Longworth.

Despite the way the Senate has been kicking over the traces against the Hoover leadership it is expected ultimately to join with the House in the enactment of a conservative farm program substantially in the form recommended by the White House and Secretary of Agriculture Hyde.

Administration leaders in the Senate declared today they have the votes to knock out the debenture feature on the floor.

**HOLDS WHIP HAND**

They also assert, incidentally, that they have the votes to repeal the national origin specifications of the Immigration Act, in compliance with Mr. Hoover's wishes, when the proper time arrives. This time will not come unless sufficient space on the legislative program can be found after the farm and tariff measures are out of the way to meet and overcome a determined filibuster, which Senator Reed, Republican, of Pennsylvania, is prepared to lead.

The Brookhart speech was the headline in the Senate today, despite of the fact the Iowa senator regarded as a "one-man bloc." His break with the White House is worthy of notice only because of the recent support he gave Hoover in the campaign. In the course of making 200 speeches for Mr. Hoover in a dozen or more Midwestern States, Senator Brookhart acquired some following on the farm question and now that he has turned against the President on the proper way to handle this issue there possibly will be some political reaction out in the farm belt, although it may be only temporary.

**FIRE DIES OUT**

Brookhart charged that Mr. Hoover has broken his campaign pledges to put agriculture on an equal basis with industry and he urged the Senate to pass a bill "that will really do the work" over a veto, if necessary. He read several of Hoover's campaign utterances, notably the St. Louis speech, and compared them with the President's message to the special session of Congress in an effort to show that Mr. Hoover has relaxed in his anxiety about aiding the farmer.

Senator Copeland, New York, threw a monkey wrench into the farm situation by offering as an amendment to the pending bill the old equalization fee provision. He said that, of course, he did not wish to embarrass the administration program but that any relief bill would be an idle gesture without some such subsidy feature. Republican leaders know a vote will be demanded on the equalization fee and are not worried over the prospect.

**Strike Threat Report Made**

WASHINGTON, April 24. (AP)—The emergency board of inquiry investigating the threatened strike on the Texas and Pacific Railway recommended to President Hoover today that losses incurred by employees through removal of their homes due to a change in terminals be borne equally by the carrier and its workers.

This recommendation is contained in a voluminous report of the findings of the board made public at the White House after being inspected by the Chief Executive.

**HUSBAND SHOTS WIFE WHO HID HIS WALLET**

OAKLAND, April 24. (AP)—Mrs. Nelly Olmstead, 20 years of age, took her husband's wallet and hid it so he would not spend the family funds for liquor, according to her story. She was near death in Peralta Hospital today with a bullet wound in the side, and Stanley Olmstead, 24, machinist, is in jail charged with the shooting. When the woman took his wallet he threatened to kill her unless she returned it, police said.

### ROOF OF OLD MISSION FOUND ON RAIL STATION

SAN FRANCISCO, April 24. (Exclusive)—A historic old California mission's tile roof, which disappeared thirty-six years ago, has been found protecting the Southern Pacific station at Burlingame, it was announced today by Laura Bride Powers of Carmel, secretary of the California Historic Landmarks League.

The bright red adobe tiles once formed the roof of the abandoned Mission San Antonio, twenty-six miles south of King City, Monterey county. The tiles were removed from the crumbling mission in 1893 for the roof of a Monterey county exhibit at the San Francisco mid-winter fair.

After the fair, the tiles were purchased by George Howard of Burlingame, who desired to preserve them for their historic value. He presented them to the railroad company for the roof of its new station at Burlingame, with the understanding that they would be returned to the Franciscan Fathers if the mission should ever be restored.

The mission was restored last year, but Mrs. Powers said the tiles were not returned because it was feared their removal would cause their destruction.

Mrs. Powers suggested that it would be a happy gesture on the part of the railroad company to put a new tile roof on the restored mission, as the present roof is a makeshift affair.

**Ethel McAdoo to Wed Again**

BALTIMORE, April 24. (AP)—Walter Winchester Keith of Baltimore and Mrs. Ethel McCormick McAdoo, divorced wife of Francis Huber McAdoo, obtained a marriage license at Towson yesterday. Her former husband is the son of William G. McAdoo.

Friends said they are expected to be married this week, but Mrs. Isaac E. Emerson, mother of Mrs. McAdoo, intimated that no date for the ceremony has been set.

### FLETCHER WILL QUIT ROME POST

Quarter Century of Service as Diplomat to Close

Envoy May Run for Senate from Pennsylvania

His Name Also Mentioned for Philippine Office

WASHINGTON, April 24. (AP)—Henry P. Fletcher, after more than a quarter of a century of diplomatic service, is to retire as Ambassador to Rome.

Upon the appointment of his successor he will return to the United States. While he has communicated no final decision to his friends as to his future, there are suggestions that he may enter the race for United States Senator from Pennsylvania, and he may also be considered for appointment as Governor-General of the Philippines.

Since he has spent so many years abroad, some friends of the Ambassador doubt that he will take the post at Manila, which would require his absence from the country for four years. They are more inclined to the belief that he will seek a seat in the Senate as he long has had a desire to round out his career in "the world's greatest legislative body."

### The "talkies"... Walker's... and "I knew them when..."

Then came the "talkies!"

For weeks and months two fine old actors of the spoken stage attempted to crash into pictures. Failure, failure, and the march downward to "has-beens."

Then came the "talkies"—and OPPORTUNITY.

The two old cronies of the spoken stage needed habilitations. Their means were limited. Their style was old-fashioned. APPEARANCE COUNTS MUCH IN THEATRICAL CIRCLES!

Their landlady whispered something in their ears.

They came to Walker's. They made good. In fact, they "KNOCKED 'EM OVER!"

And now the gossipers, who wreck or make folk along Hollywood Boulevard whisper, as the pair of actors pass, "I KNEW THEM WHEN..."

Just another little human interest story in the history of Walker's SERVICE TO THE COMMUNITY.

## The first and only All Steel Electric Refrigerator

... that is creating such a sensation in Southern California. Send coupon below for complete details.

This General Electric is the only refrigerator built entirely of steel! It is sturdy and durable beyond anything that you ever believed a refrigerator possibly could be.

This small family model freezes a generous supply of ice... and in a shorter time. One tray freezes in two hours, both trays in four. These freezing rates can be speeded up at will by means of the easily accessible temperature control. It uses less current because the cabinet is so efficient that cold does not leak out and heat does not creep in.

And, of course, it has the exclusive advantage of simplified mechanism, enclosed in an hermetically sealed steel casing and mounted on top. This leaves the greatest area available for food storage and makes possible the up-on-legs model which renders underneath cleaning easy.

In operation it is extremely quiet. It never needs oiling. It is as portable as a piece of furniture. You just plug it into any convenient outlet. See all its unique features yourself. Come in today. And ask about the very convenient plan on which it can be bought.

Listen in on the General Electric Hour, broadcast every Saturday evening, 6 to 7, over KFI and N. B. C. network of forty-two stations.

This model can be bought out of income pay only **\$12.69** per month

An easily accessible temperature control... requires no oiling... full porcelain chilling chamber... freedom from radio interference... an hermetically sealed, dust-proof mechanism... a cabinet with legs for easy cleaning underneath... all the mechanism mounted on top... completely portable, without installation problems... continuous quiet operation... maximum food storage space... no frost... no ice... no need for defrosting... an unusually small current consumption... an all-steel, everlasting cabinet... an unexcelled two-year guarantee. Only General Electrics have these advantages.

column, is preserved in clippings in the collection. With scores of other items extremely valuable, hundreds of photographs of the authors in intimate poses and numerous cartoons of his literary activities are among the private papers and books.

## Bostonian Just Missed Chance as Native Son

James A. Hewes, prominent Boston manufacturer, who is making his first visit to Los Angeles, recalled yesterday that his father, James Hewes, and cousin, David Hewes, later to become well known in California history and a multi-millionaire, first visited this State during the gold rush eighty years ago in April.

David Hewes figured in the development of the first railroad to cross the country and presented Gov. Leeland Stanford with the golden spike that was driven when the last rail was laid.

The present James Hewes with his wife is making a tour of Southern California and will visit points of interest around Los Angeles for a week before returning East.

"I have intended to visit California all my life because of the part played by my father and his cousin in the historic gold rush days," he said. "I should have been a native son but my father returned to the East after spending a few years hunting gold."

WIFE NAMES GIRL  
IN DIVORCE ACTION

Wilbur S. Stinson's romance with a "girl baritone" ended his married career in Superior. Judge Hahn's court yesterday, when Mrs. Julia Stinson produced letters to "Bill, my sweetheart," signed "love and kisses, Blanche." Blanche was the baritone, Mrs. Stinson explained. Another reason for Mrs. Stinson's divorce, she testified, was her husband's drunkenness. He was intoxicated most of the time, she said.

EX-KAISER'S BROTHER BURIED  
HEMMELMARK, (Germany) April 24. (AP)—Prince Henry of Prussia, buried this afternoon in the family vault on his Schleswig estate to a great manifestation of sincere sorrow by the whole country.

METAL SESSION DISCUSSED

Executive Committee Lays Plans for Meeting Here of

Iron and Steel Group on June 19

Plans for the regional conference of the iron, steel and allied industries of the California Development Association were discussed yesterday at a meeting of the executive committee of that group at the Alexandria. An outline of the aims of the forthcoming conference was given members of the committee by Chairman E. F. Gohl, vice-president of the McClintic-Marshall Company.

The regional conference date has been set for June 19, next, and indications point, it was said yesterday, to a record attendance by representatives of practically all of Southern California's iron and steel concerns, as well as those representing other companies identified with the iron and steel industry.

Standardization of metal products, trade practices and development of additional markets for Southern California metal products will be chief among the topics to be discussed at the conference. Reports of the chairmen of the various groups connected with the allied industries are to be submitted to Chairman Gohl not later than June 1.

Adoption of the "Principles of Business Conduct" creed, adopted by the United States Chamber of Commerce, and already recommended by the iron, steel and allied industries division of the California Development Association, will be one of the acts of the June conference, it was said yesterday.

BOSTONIANS MEET HOOVER

WASHINGTON, April 24. (Exclusive)—A party of Boston businessmen completing the first leg of the Boston Chamber of Commerce land cruise to the Pacific Coast and return, arrived in Washington this morning and were received at the White House by President Hoover. The party will leave this afternoon for Atlanta, reaching Los Angeles May 2.

## STATE GROUPS CELEBRATE

Federated Societies Hear John R. Quinn at Twentieth Anniversary Dinner

Nearly all of the forty-eight States were represented at the dinner in the Chamber of Commerce last night which brought together more than 900 members of the Federated States Societies to celebrate the twentieth anniversary of the organization.

John R. Quinn and Dist. Atty. Pitts were the chief speakers, the former a native Californian and the latter representing Texas.

The subject of Mr. Quinn's address was "The West," and he paid tribute to the contributions of other States in the settlement and progress of California. I am sure you, as its adopted sons and daughters, are as proud as I am of its great past."

"We are a people united by common aims and aspirations for the welfare of our country," the speaker said. "This is more than true because of the unity of purpose that characterized the building of the great railway systems by those peerless leaders whose names are interwoven in our history. Many of them began their careers in the States represented here tonight and migrated to California because of the then greater opportunities."

"I, as a native Californian, am proud of the great traditions of my native State, and I am sure you, as its adopted sons and daughters, are as proud as I am of its great past."

During the dinner musical numbers were offered by various organizations and the following speakers introduced by Col. F. M. Rublee as toastmaster: Col. Frank H. True, C. H. Parsons, Henry (Bridge) Zack Lamar Cobb, Charles J. Colden and Edward Winterer.

Still Displayed  
in Courtroom

Labeled as people's exhibit No. 2, a 250-gallon still reposed in the courtroom of Judge Wood yesterday during the trial of Roy Holt, charged with possession of a still and various other items of equipment. A jury late in the afternoon found Holt guilty and the court set tomorrow as the time for sentencing.

Holt, according to testimony, was arrested by Detective Maxwell of the District Attorney's office last January at 2394 Kent street. Maxwell testified that thirteen five-gallon cans of whisky and fourteen vials of mash also were found.

EXTRADITION ASKED

PHOENIX, April 24. (AP)—Gov. Phillips has signed requisition papers asking the Governor of California to grant extradition of F. W. Grosjean from Los Angeles to Kingman, where he is wanted on felony charges.

COAST GUARD'S  
Commandant  
Due Tomorrow

Rear-Admiral F. C. Billard, commandant of the United States Coast Guard, is due at the harbor tomorrow from Washington for an inspection of the personnel and equipment of Section Base 17, which, with a fleet of twelve seagoing cutters, patrols Southern California waters.

Admiral Billard is making a survey of Pacific Coast conditions, particularly of the run-running situation in California waters. During his visit here he will be the guest of Commander Roger C. Weightman, commandant of the local base.

E. F. Mitchell  
New Insurance  
Chief in State

SACRAMENTO, April 24. (AP)—The appointment of E. Forrest Mitchell of San Francisco as State Insurance Commissioner was announced today by Gov. Young.

Mitchell, who has served twelve years in the office of the Insurance Commissioner, succeeds Charles R. Detrick, resigned.

Prison Forgery  
Causes Changes

SAN QUENTIN, April 24. (Exclusive)—All prison checks will be handled by bonded civilian employees rather than trusted convicts in the future as the result of the forgery scheme uncovered by which a trusty in the accounting department and a paroled convict defrauded the State of \$1500 to \$6000, it was announced today by Warden Holahan.

Coincidentally, he revealed that Harry Lesser, paroled convict now sought as one of the two involved, has cashed approximately \$2000 worth of checks manipulated by Gilbert Patrous, former Los Angeles bank teller serving time for embezzlement and forgery. Patrous has been placed in solitary confinement.

PROF. T. S. WOOLSEY  
SUCCUMBS AT YALE

NEW HAVEN (Ct.) April 24. (AP)—Theodore Salisbury Woolsey, LL.D., professor emeritus of international law at Yale University, died at his home here tonight. He was a son of Dwight Woolsey, former president of Yale. He was 78 years of age.

## EARLY HEARING ON FARE URGED

Lawyer Seeks Advancement of Los Angeles Case

SAN FRANCISCO, April 24. (Exclusive)—The State Railroad Commission, a party to the suit of the city of Los Angeles to prevent the Los Angeles Railway Company from increasing its fares permanently to 7 cents, today was advised that John S. Denton, general solicitor for the National Association of Railroads and Public Utilities Commission, has appeared before the United States Supreme Court arguing a motion for early adjudication of the fare controversy.

The commission was advised Denton hopes to have the matter set for hearing in October, next.

High School Girl  
Seeks Job Here

SAN JOSE, April 24. (AP)—Marion Jones, 18-year-old San Jose High School tennis player, who has been missing from her home here since Monday, communicated with her mother by letter today from Los Angeles. She said she went south to get a job.

Her father, George S. Jones, retired capitalist, left here this afternoon in an airplane to take her back.

## Less Insanity in California

Registration Fees Jump Million in Year

SACRAMENTO, April 24. (Exclusive)—Californians were found today by Mrs. Anna L. Saylor, State Director of Social Welfare, to be less insane than Americans as a whole.

Figures announced by her at a meeting of Gov. Young's Executive Council showed that only 2.73 Californians out of every 100,000 of population are institutional wards of the State.

High School Girl  
Seeks Job Here

SAN JOSE, April 24. (AP)—Marion Jones, 18-year-old San Jose High School tennis player, who has been missing from her home here since Monday, communicated with her mother by letter today from Los Angeles. She said she went south to get a job.

Her father, George S. Jones, retired capitalist, left here this afternoon in an airplane to take her back.

## AUTOS IN STATE SHOW HUGE GAIN

Registration Fees Jump Million in Year

SACRAMENTO, April 24. (Exclusive)—Automobile registrations in California for the first three months of this year show an increase of 133,888 over the same period last year, according to a report issued today by A. B. Heron, State Director of Finance.

Fees have increased nearly \$1,100,000 over last year. Collections by the Division of Motor Vehicles up to March 31, last, amounted to \$8,144,457.50, against collections of \$7,294,702.25 in 1928.

CRAIL'S SECRETARY  
PATENTS LIGHTER

WASHINGTON, April 24. (Exclusive)—George R. Stewart of Los Angeles, secretary to Representative Crail, was granted a patent today on a combined cigarette container and lighter. Further patents on the device will be issued shortly.

## STYLE IN A COMMERCIAL VEHICLE Pays CASH DIVIDENDS Today

—even more directly than in a pleasure vehicle

Information. Get it. Ask for your Work-Test this week.

JUST a few years ago it might have seemed absurd to discuss style in a commercial vehicle. Today it is important not only to discuss it, but to find it—if a truck is to be purchased wisely. Because . . .

Every truck that operates today, during all its working hours, is doing one of two things: helping to win good-will for its owner, or helping to lose it. And a modern public demands that modern vehicles serve it.

THIS WEEK: This week you are specially invited to see how GENERAL MOTORS TRUCKS match modern truck performance with modern truck appearance.

A SPRING SHOWING

They are modern trucks in the true sense, and in every sense, of the word. Not because we say so. But because they are built to perform so. Because they are never offered to a truck-owner until General Motors Proving Ground tests have proved that they do. Because actual operations of owners by the tens of thousands

prove the fact daily, throughout the world.

You are invited to prove or disprove these facts, in your own work—now; during this week of Spring Showing.

A WORK-TEST Accept the General Motors Truck that most closely meets your special requirements (we provide whatever available model, chassis or body most efficiently meets your work needs). Make an adequate working test—without obligation or liability.

Find out: a) how much these modern trucks cut time and distances; b) how much they aid extension of territory you cover, or c) how much they would raise work-capacity-per-unit for you; d) how much it costs to operate them as compared with your present costs; e) how safety parallels speed in modern truck performance. Whether you find proof or disproof of our statements you will have valuable

## NEW DATE SET FOR ELECTION

Sierra Madre Recall Now Called for May 25

Change Made to Conform to State Law

City to be Divided Into Two Precincts

SIERRA MADRE, April 24.—To be within the legal limit which specifies not less than thirty-five or more than forty days following presentation of petitions, members of the City Council yesterday set the date for the election recalling Councilmen Henry Isaacs and Joseph Belchikov, to May 25, according to City Clerk Dietz. The election date was set last week for May 27, which would have been one day beyond the allotted time in the statutes.

Nominating petitions for new candidates must be filed not less than twenty days prior to the election. The city will be divided into two voting districts for the election.

Voters from the regular Precincts, 1, 2 and 3, will vote at the City Hall. Voters from Precincts 4, 5 and 6 will vote at 34 North Baldwin avenue.

With nearly 2000 voters registered since January 1, 1935, a heavy vote is expected.

## Officials Hold Conference On Mountain Road

BRAWLEY, April 24.—Five motor cars carrying a delegation of local business men are scheduled to leave here Friday morning for an inspection trip over the road from this city by way of Kane Springs to Julian, where Imperial Valley representatives expect to hold a highway conference with San Diego county representatives.

The announcement of W. W. Van Pelt, secretary of Brawley Chamber of Commerce.

Residents of the northern part of Imperial county have for several years been seeking funds for the improvement of this route into the mountains, according to Van Pelt. Considerable work has been done along the road recently and the purpose of Sunday's trip is to plan further improvements.

Among those who are expected to take part in the conference Sunday are Supervisors Ben Hulse and Henry Jackson of Imperial county, and Tom Hurley of San Diego county.

## Injured Lad May Recover

PASADENA, April 24.—Six-year-old Harold Durham of 1900 Summit avenue, who was reported to be dying after being crushed by an automobile while roller skating yesterday, has more than an even chance to recover, it was announced by Pasadena Hospital physicians tonight.

The boy's hip and left leg were fractured and he incurred other injuries when he was struck by an automobile near his home. The driver was arrested and is being held for arraignment.

## BAPTISTS TO MEET IN PASADENA CHURCH

PASADENA, April 24.—Three thousand delegates are expected to attend the annual Southern California Baptist convention which will open May 21 at the Calvary Baptist Church, Rev. H. L. Caldwell, pastor, announced today.

Approximately 200 churches, all located a few hours' drive from this city, will be represented by both pastors and laymen. One of the noted men who will address the gathering will be A. M. Harris, president of the Northern Baptist convention, who has under his jurisdiction more than 1,500,000 members of the denomination.

## ONE-HAND DRIVER IN AUTO ACCIDENT

REDONDO BEACH, April 24.—An effort to drive his car with one hand and to hold a paper sack of eggs with the other was given as the cause of an automobile accident in which Ray Libbens, 12-year-old local boy, figured yesterday. The lad's car collided with a car driven by R. H. Lilly of the Villa Tract. The police report shows it is not stated if the eggs were damaged in the smash.

## CITIZENS ASK ELECTION

Residents of San Diego Petition Council to Set Date for Voting on Water Bonds

SAN DIEGO, April 24.—Approximately 600 new signatures on a petition by the people to the Common Council for calling a special water bond election were reported at the Chamber of Commerce last night. This raises the total number of such signatures to date to more than 2000, it is reported.

The people's petition would have the Council call a special water bond election on two proposals drafted from the defeated blanket proposition of March 19.

Leading in the number of petitions turned in so far is the First National Trust and Savings Bank and branches, four petitions completely filled out with 100 signatures each having been turned in by the bank and its branches.

## ANAHEIM MAN TO STUDY IN EUROPE

LOUIS DANZ

ANAHEIM, April 24.—Louis Danz, owner of the Danz Piano Company of this city, will sail with Mrs. Danz from New York today for Europe, where he plans to spend several months studying first-hand the modern music of the continent. Mr. Danz has been devoting much of his time recently to the study of the Thamyris Concert Group, at a recital presented at the Biltmore Hotel in Los Angeles, gave first place on its program to Mr. Danz's latest number, "Love, My Heart Longs," the poem by the Indian mystic, Tagore.

## College Boys Make Whoopee

NEWPORT BEACH, April 24.—College fraternity youths who came to Newport Beach to make "whoopee" will do well to avoid any wild conduct in this city in the future, according to Chief of Police Roland Hodgkinson, who has appealed for co-operation between his department and the home owners of this district.

Reports of damage done by the boys have been very frequent at the police station and drastic action will be taken to curb any future annoyances. Linger is said to have freely at the parties staged by the college youths, and will no longer be tolerated according to plans of the police department.

## MANY CHANGES IN BANK AT VENTURA

VENTURA, April 24.—The promotion of John A. Lagomarsino to the position of manager of the Ventura branch of the Bank of Italy, and the promotion of Olaf Austad from the management of the local branch to the main office of the bank in San Francisco, were announced today by H. R. Erkes, chairman of the board of management of the Los Angeles division of the Bank of Italy National Trust and Savings Association.

According to Mr. Lagomarsino, the change goes into effect immediately. Lagomarsino's old post of assistant cashier will be taken by Lee Younggren of Los Angeles.

## COUNTY FIRE FIGHTERS FORM ASSOCIATION

SANTA PAULA, April 24.—The Ventura County Fire Fighters' Association was organized here last night with Fire Chief H. A. Johnson of Ventura as its first president. About twenty-five men were present, representing Ventura, Santa Paula, Fillmore and Moorpark. Fire Marshal, attended from here. Other officers elected were Leon Freese of Santa Paula, vice-president, and Plinio Giacomazzi, also of Santa Paula, treasurer.

## PIER BONDS DEFEATED

MANHATTAN BEACH, April 24.—A bond issue of \$110,000 for the purpose of building a pier at the foot of Rosecrans avenue failed to carry at the polls yesterday. The issue lost by a vote of 120 in favor of the issue, and 100 against.

## WORK COMMENCED ON WATER LINES

MONROVIA, April 24.—Work on the reconstruction of the water lines in Monrovia Canyon will begin within the next week of work according to announcement from the City Engineer's office which has given an estimate of \$318.1 as the average bank account of local citizens.

The figures were checked by the local Chamber of Commerce, which gives an estimate of \$318.1 as the average bank account of local citizens. The figures were checked by the local Chamber of Commerce, which gives an estimate of \$318.1 as the average bank account of local citizens.

## MONROVIA CITIZEN HAVE PLENTY CASH

MONROVIA, April 24.—A comparison of Monrovia's population with the total of all money on deposit in local banking institutions, gives an estimate of \$318.1 as the average bank account of local citizens.

The figures were checked by the local Chamber of Commerce, which gives an estimate of \$318.1 as the average bank account of local citizens.

## "MIRACLE MAN" ARRESTED

Chino "Wizard" to Face Court for Fifth Time Because of "Faith Cures"

CHINO, April 24.—After a thirteen-year lapse, in which Armando Dominguez, the "Miracle Man of Chino" was practically forgotten by everybody except for a few in this community, he has broken into prominence again, this time through arrest because of practicing medicine without a license.

In his colorful career Dominguez has been arrested four times on the same charge, but each time he was acquitted. Today he faces Judge Ralph Homan in Chino court for the fifth time.

Dominguez broke into national prominence in 1912 by his assertedly marvelous miracle cures, which brought Mexicans from all parts of the United States to his humble home to be cured. His cures caused him to be written up in national magazines and by national press organizations.

Dominguez did not charge the Mexicans anything for his services, but they brought him plenty of gifts in which there was cash included.

Dominguez is a Porto Rican by birth. Attorneys were never able to prove that he administered medicine in his miraculous cures.

He says his cures were caused by the great faith his followers had in him. They did exactly what he told them to. They followed his rules of sanitation, thus giving nature a chance to build up their systems, he said, and this alone in and of itself was responsible for the miraculous cures.

According to the damage complaint, Mr. and Mrs. Dye, with their 2-year-old son Herbert, were riding westward along the Palm Springs-Indio highway at about 8 o'clock on the night of April 11, 1928.

Mr. Dye was at the wheel of the light automobile. At the intersection of Glenn street, with the highway, Mr. Dye signaled and turned to the left into Glenn street, the complaint declares.

Robert Bray, 20-year-old son of the Santa Monica people, was driving his powerful car eastward on the road, and as Dye served to turn the two machines collided. The Dye machine was smashed, Mrs. Dye was seriously hurt and the boy injured.

Rushed to the hospital for treatment Mrs. Dye gave birth to a child. Three hours later it died.

For the death of the child, injuries to Mrs. Dye, the complaint declares, Mr. Dye is liable for damages to her automobile, \$40,000 is demanded by the Dyes from the defendants. The Dyes are reportedly suing Dominguez.

## Unusual Claim in Damage Suit at Riverside

RIVERSIDE, April 24.—Death of a premature child today was made the basis of a \$40,000 damage action in the Superior Court here.

Mr. and Mrs. John Dye of Cathedral City, through Attorneys H. E. Thompson and George H. Johnson of San Bernardino, brought suit demanding the huge compensation for the death of their child.

According to the damage complaint, Mr. and Mrs. Dye, with their 2-year-old son Herbert, were riding westward along the Palm Springs-Indio highway at about 8 o'clock on the night of April 11, 1928.

Mr. Dye was at the wheel of the light automobile. At the intersection of Glenn street, with the highway, Mr. Dye signaled and turned to the left into Glenn street, the complaint declares.

## HEAP BIG CHIEF IN RAMONA PLAY

JAMES H. CHILDS

HEMET, April 24.—With excursionists coming in large groups from all parts of Southern California, festive preparations are being made here to accommodate a capacity crowd at presentations of the Ramona Pageant on Saturday and Sunday afternoons.

Performances last week-end drew a record-breaking opening throng.

Among the organizations which have reserved big blocks of seats for the performances are the City Employees' Association of Fullerton, Carlsbad Union High School, California history class of Occidental College, Los Angeles; Immaculate Heart Academy of Riverside; the Kaiaia School and various luncheon clubs and civic organizations.

An amazing acoustic properties of the Ramona Bowl will be strikingly demonstrated to audiences this week-end through the rendition of the "Zuni Sunrise Song" by J. H. Childs, noted soloist, who has portrayed the role of the Indian chieftain for the last four years in the colorful play.

From a towering crag on the opposite canyon wall of the huge bowl, 150 yards from the audience, and 100 feet above them, Childs suddenly comes into view simultaneously with more than a score of Indian tribesmen who spring from terraced rocks to all parts of the bowl, to take statueque poses.

Although Childs is more than a city block distant from the audience, the attention of the audience is drawn to him by the red and white invocation to the sun as he clearly heard in all parts of the amphitheater, as if he were a few yards distant. In other outdoor amphitheaters, according to world travelers, it is possible to hear distinctly every word spoken by the players at such extreme distances.

This year's presentation of the colorful romance of Ramona, with its gorgeous fiestas and elaborate musical and scenic effects, has been hailed by those who have viewed previous annual performances as the finest given to date.

## COLORADO MINISTER COMES TO ALHAMBRA

ALHAMBRA, April 24.—The Rev. Walter I. Powe, D.D., of Greeley, Colo., has accepted a call to the vacant position of minister of the Baptist Church, it was announced today by C. M. Reid, chairman of the church board of deacons. Dr. Powe will occupy the local pulpit today with a wealth of flowers, ornamental shrubs and other growing plants far surpassing all previous exhibits of the section. Mrs. F. B. Ollite is chairman of the garden section and Mrs. Bert Leslie is chairman of the flower show. Mrs. Frank C. Owens is president of the club.

Dr. Powe studied for the ministry at Des Moines College, Chicago University and the Colby Theological Seminary. The Alhambra church has a membership of 700.

## WOMEN PROTEST AGAIN OPENING OF POOLROOM

ALHAMBRA, April 24.—Vigorous protests confront the City Commissioners against proposals to establish poolrooms on Valley Boulevard, women of Parent-Teacher organizations and other groups having come out in force against the proposed poolrooms.

Protests have been filed with the city and a number of women have appeared in person to voice their sentiments.

The City Commissioners will take time to think the matter over and investigate the records of the applicants.

## MILITARY FUNERAL

VAN NUYS, April 24.—Military services by the Van Nuy post of the American Legion were conducted at the grave during the funeral of D. F. Deliquadri, 31 years of age, produce merchant who killed himself at his home here because of financial worries. Interment was in Calvary Cemetery. Deliquadri is survived by his widow and two small daughters. According to police report, Deliquadri got out of his bed early in the morning, walked to the back porch and shot himself twice.

ALHAMBRA, April 24.—A new grade-crossing over the Pacific Electric tracks near Sierra Vista, to connect Huntington Drive and Main street, Alhambra, will be constructed, this city having appropriated \$2750 as its share of the cost. The County Supervisors have set aside the remainder of the expense, which amounts to \$4000. The work will be carried out in general of the improvement program now under way on the Pacific Electric right of way along Huntington Drive.

## GROUP OF BANKERS IN VALLEY TODAY

RESEDA, April 24.—More than 100 bankers will visit San Fernando Valley tomorrow on a journey of sightseeing, under the guidance of Arch W. Anderson, vice-president of the Security-First National Bank and chairman of Group No. 5 of the California Bankers' Association. The group will visit the Los Angeles area, including the Harbor, and other areas of the valley. The purpose of the tour will be to acquaint the bankers with the work of the agricultural extension service in Los Angeles county.

## COUNCIL TO DECIDE ON TYPE OF ELECTROLIERS

HUNTINGTON BEACH, April 24.—Action on the proposed \$35,000 Main-street lighting system for this city is scheduled for the Council session Monday night. As yet the City Board has not determined the type of standard they wish to erect on the city's principal street.

The new ornamental lighting system will replace an antiquated gas system which is now in operation.

## OIL WORKER DIES FROM EXCITEMENT

Discovery of Burglars on Lease and Race to Officers Prove Too Much for Heart

HUNTINGTON BEACH, April 24.—A post mortem into the death of Charles Egan, 55 years of age, a night watchman on the Julian M. Freed well located on the Frank Lindner lease north of Huntington Beach, revealed that Egan died of acute heart dilation caused from fear and excitement Tuesday morning while attempting to drive his car to Huntington Beach in order to secure police aid to capture two burglars who stole a boiler feed pump and a number of tools from the well, according to County Coroner C. D. Brown.

Egan was sitting in his shanty near the well at midnight when he heard a car drive up. On investigating he found two men dismantling a small boiler feed pump and gathering tools from the oil rig. Afraid to interfere lest the men shoot him Egan walked to a nearby well to secure the aid of W. E. Seckington, pumper on the rig.

Seckington refused to accompany him as neither was armed except for a small revolver carried by Egan, but advised the watchman to get his car and drive to Huntington Beach for help, leaving his lights on until he was away from the well.

Egan then left and was not seen again until about 5 o'clock Tuesday morning when Seckington saw the man's car in the middle of a ploughed field and on investigating found Egan dead in the seat.

The man had evidently started his car and proceeded from the garage without lights when he collapsed from the excitement and strain. The car had wandered from the road into a field about 100 yards from the garage where the engine died, according to testimony at the inquest.

Seckington notified the police and the body was removed to the Dixon Chapel at Huntington Beach, where the police mortuary was held this morning to establish the exact cause of his death.

Egan resided at 3311 Locust avenue, Long Beach, and is survived by a nephew, H. B. Humble of Long Beach. Seckington lives at 2226 East Fourth street Long Beach.

Local police state that they expect to capture the burglars within the next few days.

## City Official Given Medal

PASADENA, April 24.—As a tribute to his service to this city during the last two years, Clayton R. Taylor, retiring chairman of the Board of City Directors, has been awarded an engraved gold medal by his fellow-members of the board, it was announced today.

City Director N. J. Shupe, who made the presentation, said, in reading the medal to Taylor: "I wish to say that you have been a most wholesome respect, not only as a citizen, but as a friend to every one of us. We are proud to have you as a citizen, and we are sorry to see you go. If you carry this little token of appreciation in your pocket, let its jingle remind you of our friendship and forget any harsh words that may have been spoken, and if you wear it as a token of work well done."

Today Dorothy said the sneezing match have come from the night watchman.

LAND DEDICATED FOR TRUCK HIGHWAY

GLENDALE, April 24.—Plans for the construction of the proposed truck boulevard between San Fernando Valley and Los Angeles advanced today, when the City and County of Los Angeles agreed to dedicate the Grand Central Air Terminal, to dedicate the required right of way to carry the highway through its property.

The industrial highway committee of the South Glendale Business Men's Association has recommended that the right of way between Verdugo Wash and Los Angeles be now condemned. The boulevard will follow a route around the Grand Central Air Terminal, along Victory Boulevard and the northern bank of the Los Angeles River to the Glendale city limits in the vicinity of the wash. The proposed reservation would be 121 feet wide, to include a forty-foot strip for rapid transit, a ten foot strip for the Southern California Edison Company's wires, and a seventy-foot roadway with sidewalks and parking space, between the road and the airport.

PIONEER DEAD

VAN NUYS, April 24.—Funeral services will be conducted tomorrow for Peter J. Kooy, 34 years of age, Van Nuy pioneer, who died at his home, 14351 Haynes street, after an illness of several months. Interment will be in Oakwood Cemetery. Mr. Kooy is survived by his widow and three sons, Orin, Clayton and Ralph Kooy.

REDOONDO BEACH, April 24.—A 7-year-old orphan boy, for entry into the Los Angeles Harbor, was taken into custody here today.

The boy, who is named Helen Whittier, was taken into custody here today. She is the daughter of a man who was killed in a shipwreck. She is now in the custody of the Los Angeles Harbor.

## GIRL BLAMES HER FRIEND FOR FLIGHT

San Bernardino, April 24.—Pretty Dorothy Herman, just 21, wants no more "girl friends."

Dorothy was arrested at 6 o'clock yesterday morning by a night watchman when he opened a department store, from which Dorothy lowered a bundle of pretty clothes into his arms as he stood in the alley at the rear.

Dorothy, weeping and remorseful, today told how she thought her "girl friend" would be in the alley to receive the bundle and carry it to their apartment. She had been employed in the store and concealed herself in the rear room when the store was closed Monday night.

"I would have never thought of such a thing except for my girl friend," said Dorothy today. "She talked me into it. I met her in San Francisco a month ago. She was broke and out of work. I took her in and then she talked me into robbing the store to get her some new clothes."

"And I like a dumbbell, fell for it. That night watchman was just passing along and saw my bundle on a string. Oh, yes, my girl friend must have seen the watchman. Then she beat it and left me in the store to get caught—all alone. What a swell friend she turned out to be."

Dorothy said her girl friend had a car and must have left town. The police were unable to locate her and filed a charge of burglary against Dorothy. She is held in default of \$1000 bail. Meanwhile the officers are investigating her story.

While she waited for the girl friend to keep the appointment, she was to have been in the alley at midnight—Dorothy wrote poetry.

"I went to the garden picking peas I thought I heard a chicken sneeze. I sneezed so hard from whooping I thought it sneezed his head right off."

Today Dorothy said the sneezing match have come from the night watchman.

NOTE DELIVEREDCanadian Minister Calls It  
of "Moderate Length"Suggestion for Arbitration  
Believed AcceptedCorrespondence on Sinking  
to be Made Public

WASHINGTON, April 24. (AP)—The second note of the Canadian government on the sinking of the Canadian run runner I'm Alone by a Coast Guard patrol boat was delivered to the State Department late today by Canadian Minister Massey.

The predominant impression in unofficial circles tonight is that the Canadian note accepted an American suggestion for the entire case

THIRTY-SIX WIVES CRY,  
BUT CHANG CAN'T VISIT

PEKING, April 24. (Exclusive)—Poignant scenes were enacted at Dairen, Manchuria, when unofficial word was spread among the thirty-six wives and innumerable children of Gen. Chang Chung-Chang, the six-foot-four bad boy of China, that he has been refused permission to take refuge there following the defeat of his armies in Shantung Province.

The upkeep of the Chang family requires thousands of dollars monthly and it is reported that the former governor of Shantung squandered his last million in his effort to reconquer the province. He

to be arbitrated under the anti-rum-smuggling treaty of 1924. Neither the State Department nor the Canadian Legation would comment, however. Mr. Massey would only say that the note is of "moderate length."

All the correspondence between the two governments regarding the I'm Alone incident will be made

now is a refugee at Tientsin, unable to find a haven, and with a price on his head. A small devoted band of men is guarding his life.

Chang's friends in Dairen invested heavily in the Shantung expedition and still believe that in the future he will have success. They will make a last appeal to the Japanese to permit Chang to enter.

Typical mythical stories are woven about Chang. The Chinese press reports that his favorite horse—of golden yellow color, twenty feet long and eight feet high—died after the fall of Chefoo, spelling disaster for the house of Chang Chung-Chang.

public Friday morning, and the plan is for this to be done simultaneously at Ottawa and Washington.

CADET ENCAMPMENT BEGUN  
PESNO, April 24. (AP)—Two hundred and fifty cadets already have set up camp and 150 more are expected to arrive Saturday for the annual State cadet encampment.PRESS STATUTE  
WILL BE FOUGHTPublishers to Seek Repeal of  
Minnesota LawPaper Company's Financial  
Policies CriticizedA.N.P.A. Opens Its Annual  
Sessions in East

NEW YORK, April 24. (Exclusive)—Members of the American Newspaper Publishers' Association, opening their annual convention today in the Waldorf, adopted a resolution pledging a united fight to repeal the Minnesota Newspaper Suppression Law. They also accepted a report on the law made by a committee headed by Col. Robert R. McCormick of the Chicago Tribune, which called the statute "despotic."

The general newspaper paper sit-

POSTMAN GETS  
LONGER LEGSIt Used to Cost \$10 to Send  
Letter to New York, While  
Nickel Does It Now

SAN FRANCISCO, April 24. (Exclusive)—Not everything costs more than it did in "the good old days."

Records compiled by the Boeing Air Transport system disclose that forty-niners paid \$10 postage on a half-ounce

letter which took twenty-four days from San Francisco to New York. Now it costs only 5 cents for an ounce and the letter is delivered in thirty-two hours.

The new price fixed by the International Paper Company and the policy of the corporation in seeking financial interest in dailies.

S. E. Thomason, chairman of the P. A. committee, met criticism that the paper company aided in his purchase of the Chicago Journal.

Mr. Thomason admitted the International Paper Company purchased \$1,000,000 of the debentures and that 10,000 shares of the common stock of the paper were issued to it. In return, he said, he and his associate, John Stewart Bryan of Richmond, Va., agreed to buy the Journal's paper from the company for ten years at the market rate. He denied the paper company has control of the newspaper or its policies.

Col. McCormick, among other members, defended Mr. Thomason. The Colonel pointed out that Mr. Thomason was formerly business manager of the Tribune and "always acted honorably in every way."

"When Mr. Thomason left the Tribune to go into business for himself," Col. McCormick said, "we still were good friends, and I am glad to say that although we are now separated in business our friendship continues."

After listening to other members of the A. N. P. A. paper committee, the delegates adopted a resolution praising the chairman and his committeemen. Their course with respect to the fixing of the International's price of \$55.20 a ton was endorsed.

The newspaper buying policy of the paper company, however, did not escape fire. Col. Robert Ewing, publisher of the New Orleans States, criticized the policy, and tomorrow morning will offer a resolution seeking to have the association formally condemn the practice.

Col. McCormick in his "freedom of the press" report set forth the scope of the Minnesota law. It was passed in 1925 but was not invoked against a newspaper until 1927, when the Minneapolis Saturday Press was suspended. The law provides that any judge, without trial or hearing, can enjoin any journal which, in his opinion, is publishing malicious, scandalous or defamatory articles. "The Minneapolis paper subsequently was permanently abated as a nuisance."

The statute is tyrannical, despotic, un-American and oppressive," said the Colonel's report. "It is objectionable for the following reason: Under this statute whenever a grafting majority desires to remain in power to prevent exposure of wrongdoing, it has a ready weapon at hand with which to cover up its iniquity and suppress attempts to expose it."

PENINSULA  
FIGHT POINT  
LOST BY S.P.Western Pacific Given  
Temporary Injunction to  
Halt Orphan Spur Track

SAN FRANCISCO, April 24. (Exclusive)—Federal Judge Kerrigan today granted the Western Pacific California Railroad Company a preliminary injunction which prohibits the Southern Pacific from building any more rail lines on the San Francisco Peninsula which lie in the path of the proposed right of way of a Western Pacific line from this city to Redwood City.

William H. Hunt, former Federal Circuit Court justice, was named special master in the case so a hearing may be held in the immediate future. The Western Pacific subsidiary seeks a permanent injunction until the Interstate Commerce Commission acts on its application for a new rail line. Judge Kerrigan held that the Western Pacific is entitled to a hearing on the charges that the Southern Pacific has taken the first step in a probable series of harassing moves by building a so-called orphan track in San Mateo county.

Action on another injunction involving sewer line rights of the city of San Mateo, also assertedly crossed by the orphan track, was postponed for a second time because of indications the controversy will be settled agreeably.

Tagore Sails  
From Bay City

SAN FRANCISCO, April 24. (AP)—Sir Rabindranath Tagore, Indian poet and philosopher, sailed today aboard the liner Taiyo Maru for India via Hongkong.

His final words to the American public were the expression of a wish that his people "will rise above indignities and insults to impart some beauty to the utter ugliness of the industrialization of the West."

FAREWELL LUNCHEON  
GIVEN "A.P." OFFICIAL

SAN FRANCISCO, April 24. (AP)—A farewell luncheon was given by the San Francisco publishers and executives here today to Paul Cowles, recently promoted from superintendency of the western division of the Associated Press to executive assistant to Kent Cooper, general manager of the organization.

The luncheon, held at the new clubhouse of the San Francisco Yacht Club on the Marina, was attended by twenty publishers and executives, who presented Mr. Cowles with a gold clock.

HOOVER URGES  
PEST-WAR FUNDFruit Fly Entry Into Florida  
Held Grave EmergencyCongress Asked to Allocate  
\$4,250,000 for FightDepartment of Agriculture  
Plans Quarantine

WASHINGTON, April 24. (AP)—President Hoover today recommended to Congress that \$4,250,000 be made available to meet the "grave emergency" due to the presence of the Mediterranean fruit fly in certain sections of Florida.

The Department of Agriculture, considering the pest a menace, announced it will establish a quarantine restricting movement of fruit and certain vegetables from the State within a few days. Secretary Hyde has made available \$40,000 to provide for the preliminary steps which have been and are being taken to control the pest.

The Department of Agriculture had recommended that the \$4,250,000 be allocated from the unexpended balance of a special appropriation made to combat the pink boll worm, which is available because conditions have prevented its use for the original purpose.

## SANCTION GIVEN

President Hoover's recommendation and the Agriculture Department's action today followed sanction by Director Lord of the Budget Bureau of use of the funds for the purpose. During the past few days Director Lord has conferred with officials of the Agriculture Department and with the President. They have considered testimony brought out in a hearing Monday before Dr. C. L. Mariatt, chief of the bureau of plant quarantine and control administration.

Led by Representative Ruth Bryan Owen, virtually the entire Florida Congressional delegation and representatives of citrus fruit interests of Florida, California and Texas appeared at the hearings, calling on experts to tell of the infestation of the State by the insect.

## ENORMOUS DAMAGE

The fruit fly, which occurs in many tropical and subtropical countries, the Agriculture Department explained, causes enormous damage by attacking a wide variety of fruits and vegetables. The department has for many years enforced a rigid quarantine against fruits and vegetables from Hawaii, and more recently has enforced fruit embargoes against several foreign countries in which the pest was known to be established.

While the pest is largely subtropical, it is said, it is "destructively abundant over such range in the Mediterranean region of Europe and in parts of South America, Australia and South Africa, as to indicate the probability that it would thrive with us at least throughout the cotton belt and the citrus-producing regions of California, Arizona and New Mexico, as well as Florida."

## COURSE OF ACTION

The intensity of the infestation, the Agriculture Department declares, indicates that it will be necessary to determine immediately the area infested, to destroy all fruit in the infested area, to clean up infested groves, involving spraying of trees to poison adult flies, and destruction of pupae in the soil; to trace shipments of fruits made from infested areas to determine whether the pest has been distributed to distant points by means of infested fruit, to provide for inspection and certification of all fruits and vegetables moving out of Florida and, as a further precaution, to prohibit the movement of culls from all portions of the State—in other words, to limit shipments to graded and boxed fruit moving in refrigerated cars.

AMERICAN FRUIT  
BARRED BY SPAIN

MADRID, April 24. (AP)—A royal decree was issued today forbidding the importation of all classes of fresh fruits, plants and trees from the United States, Canada, Japan and New Zealand. The action was taken as a defense measure against insect plague.

The order also prohibits the importation from the United States and other countries of cotton and seed suffering from boll weevil and boll worm.

Confession of  
Dyer Shooting  
Read at Hearing

LONG BEACH, April 24.—The written confession of Louis Rodriguez to the shooting of his mother-in-law, Mrs. Rose Dyer, and a boarder in her home at 455 1/2 West Ninth street on the 18th inst. was admitted in evidence by Judge Cook at the young sailor's preliminary hearing on murder and assault charges in Municipal Court today.

The court prevented the wife from testifying as to the shooting of her mother, but a motion to separate the counts was denied and she testified as to events the night of the shooting other than the shooting of her mother.

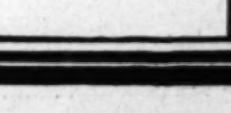

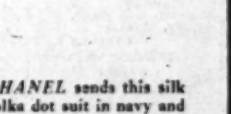

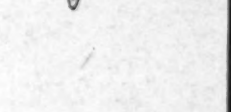

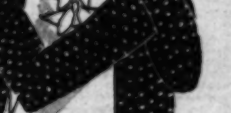

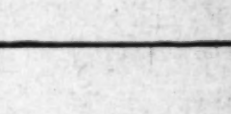

She told of the husband chasing her through two rooms and calling her a whore, and of her firing at her through a door of a bathroom resulting in the wounding of Elmer Eastling, the boarder at the Dyer home. The hearing will be concluded tomorrow with a special session of court at Seaside Hospital where Eastling is a patient.

Wilkes Pay-off  
Will be Small

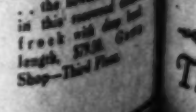

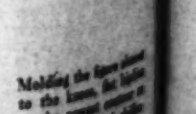

SAN FRANCISCO, April 24. (Exclusive)—Creditors of Alfred G. Wilkes, bankrupt theatrical producer of Los Angeles and San Francisco, will receive .0119 cents on the dollar as a first and last dividend in the settlement of his affairs, it was announced in bankruptcy court today.

Checks are to be mailed tomorrow. Wilkes' schedule of assets and liabilities shows unsecured claims of \$903,897.43, against liquidated assets of \$2358.85.

There's an important  
message for you on  
page 168 of this week's  
Saturday Evening Post

This message is headed, "Have you learned to judge  
clothes-value by the calendar?" In part, it says:

"Perhaps you think that clothes-economy depends solely  
on the price you pay. Yet if you reflect a moment, you  
will find that it does not. After you've worn a suit, you  
don't think of it in terms of dollars at all. You measure  
its value in time and how it keeps its good looks.

"You won't find it easy to tell, merely by looking at a  
suit, whether or not it will stand up under the test of  
time. Few suits show their real character... or lack of  
it... until they've been worn awhile. In choosing clothes,  
you are really obliged to trust to a name and a reputation."

Society Brand is unquestionably a name in which you  
can place your trust... its reputation one that is founded  
upon quality... enduring quality.

Be sure to see Society Brand suits in the new styles  
for Spring!

# TITLE INSURANCE AND TRUST COMPANY

Capital and Surplus \$10,000,000

CALIFORNIA'S LARGEST TITLE INSURANCE COMPANY

## What is the SAFE WAY to Purchase Property?

IT IS THE BUSINESS of this company to eliminate needless risks from real estate transactions by furnishing escrow service and by insuring titles to property.

THE FIRST STEP is the Escrow. The escrow booth is a convenient meeting place for buyer and seller, or for borrower and lender, to which the essential parties to the transaction come bringing with them all necessary papers. An escrow agreement stating the conditions of the sale or of the loan is drawn up and signed. The company acts for all the parties in the transaction as a reliable and a neutral stakeholder.

THE SECOND STEP is the examination of the Title. In the title plant of the company a search of the records is made. This, or possibly a previous search, carries the property back through all its changes of title to the original grants and if clear, or when cleared, the purchase money is delivered to the seller, and the insured title to the property to the buyer, or if a loan is being made, to the mortgagee.

### What Risks Are Covered by the Policy of Title Insurance?

Simply stated some of the chief risks covered by the Policy of Title Insurance are the following:

The risk that the seller does not own the property.

The risk that the title is invalid by reason of forged signatures on deeds or other papers.

The risk that somewhere in a previous sale, some of the essential parties have failed to sign.

The risk that there may be recorded claims outstanding against the property at the time of purchase.

Protection against these and other risks is furnished those who buy real estate or those who lend money with real estate as security, by a Policy of Title Insurance.

Title Insurance service is recognized as essential in all of the highly developed portions of the country. In Los Angeles it has proved to be particularly useful because, unlike some Eastern communities where "everybody knows everybody", here there are former inhabitants of all the forty-eight states; half of the population having come within the last ten years.

The protective service of Title Insurance has meant much to this County. No where else has the modern escrow system and title insurance been so highly developed. In no other major city of the nation is it so cheap:—and in few, if any, other sections of the country has real estate trading been so generally popular—and it might be said, so profitable.

### How Title Insurance Has Brought Eastern Money for City and County Development!

As one looks around the city of Los Angeles he may see many fine buildings which were built by Eastern money. Most of these loans were made from offices in New York, Chicago, or elsewhere, the Policy of Title Insurance being the guarantee that the borrower owned the property and that the loan was a first lien. Without Title Insurance most of these loans could not have been made.

Title Insurance and Trust Company has been writing Title Insurance and issuing Guarantees of Title throughout the great expansion period of city and county. It was founded in 1893 when Los Angeles had a population of 50,393. Today it is housed in a fine building, built expressly to meet the present exacting needs for swift and dependable service. Its title plant ranks among the country's best, containing land title records of city and county dating back to the admission of California into the Union; and many records which go back to Mexican and Spanish days.

It has grown and prospered with city and county and it is the purpose of the management to give the best and most expeditious service that can be rendered.

#### In its Title Department

the company issues policies of Title Insurance to owners of real estate, or to those who lend money with real estate as security, insuring them against loss due to defective Titles.

#### In its Trust Department

the company acts as executor and trustee under wills, as trustee under real estate and subdivision trusts, as registrar and transfer agent, as custodian for securities and in all other trust capacities.

#### In its Escrow Department

convenient and attractive service is offered for the swift and accurate handling of real estate transactions. Twelve escrow booths line a corridor two hundred feet long.

\*Both Policies of Title Insurance and Guarantees of Title are written, but Title Insurance is recommended because of the greater protection offered at no additional cost.

## PLAN FOR BANK COMBINE VOTED

Pacific National to Merge With Commerce

Holders of Both Stocks to Receive Rights

Action Only Awaits Sanction of Shareholders

Directors of the National Bank of Commerce voted yesterday to consolidate with the Pacific National Bank, Eric M. Leaf, president of the former, announced following a meeting of the directors. Thomas A. Morrisey, president of the Pacific National, also stated that directors of his bank have approved the plan.

Stockholders of both banks will be asked to ratify the proposal at a date to be announced later and with their approval it is expected the merger will be effected about July 1, next.

Under the plan the capital of the consolidated bank will be increased from \$2,000,000 to \$3,000,000 and \$500,000 of the new capital devoted to the purchase of National Bank of Commerce stock. The remaining \$500,000 will be sold at a premium to stockholders in the ratio of one share for each five old shares held. The amount of the premium will also be announced later and subscription rights issued immediately following the stockholders' meeting.

The proposed name of the consolidated institution is the Pacific Bank of Commerce, National Association. The merger will result in an institution having total resources of approximately \$34,000,000 based on financial statements of each bank as of the 15th inst. The Pacific National brings into the picture resources of \$18,192,619.38 and the National Bank of Commerce \$5,806,646.58. Resources of the consolidated banks together with the Pacific National Company, holding unit of the Pacific National Bank, will be more than \$32,000,000.

Authorized and outstanding capital stock of the Pacific National Bank amounts to \$2,000,000 and for the Commerce, \$500,000. Head office of the new bank will be at the main office of the Pacific National at Ninth and Hill streets while the present Commerce quarters will be conducted as a branch. This will result in nine branches for the new bank.

Final details of the merger with reference particularly to the personnel of the consolidated institution, will be worked out in the interim pending the stockholders' meeting.

## INCOME OF WALDORF HOTEL CHAIN GAINS

NEW YORK, April 24. (Exclusive) The Waldorf-Astoria System, Inc. reported today March quarter net income of \$277,638, after all charges, equal after preferred dividends to 57 cents a share on the 460,610 common shares outstanding, against \$284,167, or 58 cents a share in the first quarter of 1928. Receipts totaled \$3,974,582, against \$3,847,181.

## BELL UNIT SHOWS GAIN IN QUARTER

Local Exchange Adds 8209 Telephones Since First of Year

Southern California Telephone Company added 8209 telephones to the Los Angeles exchange during the first quarter of 1929, as compared with 6121 in the same period of the preceding year, an increase of 33.8 per cent, according to a report issued yesterday by F. M. Rush, vice-president and general manager.

The Los Angeles exchange had a total of 385,677 telephones on March 31, last, an increase of 25,429 since March 31, 1928. This places Los Angeles fifth among the leading cities of the United States in the number of Bell telephones.

The telephone company's 1929 budget calls for the expenditure of \$11,562,000 for telephone improvements, construction, which is \$2,230,000 more than the expansion cost during 1928. Long-distance cable will be constructed at a cost of more than \$4,000,000 during this year, and very will be conducted as a branch. This will result in nine branches for the new bank.

Final details of the merger with reference particularly to the personnel of the consolidated institution, will be worked out in the interim pending the stockholders' meeting.

## INCOME OF WALDORF HOTEL CHAIN GAINS

NEW YORK, April 24. (Exclusive) The Waldorf-Astoria System, Inc. reported today March quarter net income of \$277,638, after all charges, equal after preferred dividends to 57 cents a share on the 460,610 common shares outstanding, against \$284,167, or 58 cents a share in the first quarter of 1928. Receipts totaled \$3,974,582, against \$3,847,181.

## Cool Weather Halting Trade in Local Area

Business in the Los Angeles territory is being held back by a lack of warm weather with the trade generally complaining about the slump of orders and slowness of collections for merchandise sold earlier in the year, according to the Bradstreet summary on business conditions, issued yesterday.

The women's wear trade that had made good gains for the first three months of the year now report that the decreased sales for April will materially affect the season's business, although the trade that is selling in the eastern sections of the country is not as much affected as those whose operations are restricted to the Pacific Coast.

While chain store competition in all lines continues to grow keener, the leading chains report a steady increase in gross sales. The petroleum industry is still in an unsettled condition all along the Coast. There is still some gasoline-price cutting on the part of service stations in various sections, operators claim that reductions are due to extreme competition and in an effort to secure greater sales.

## Republic Oil in Earnings Gain

Republic Petroleum Company yesterday reported net profits of \$80,235 for the quarter ended March 31, last, before depletion and depreciation, but after all other charges, equal to 28 cents a share on 344,000 shares of \$10 par capital stock outstanding. This is at the annual rate of \$1.04 a share against actual earnings for 1928 before depletion and depreciation of \$1.04, or 57 cents a share.

Oil sales for the quarter totaled \$124,714, while total receipts amounted to \$128,877. Directors may consider dividend disbursements before the end of the year, it was stated.

## Newberry Chain to Issue Rights

NEW YORK, April 24. (Exclusive) J. J. Newberry Company today declared a 50 per cent stock dividend, payable to holders of record May 1.

The company will issue rights to purchase additional stock at \$60 a share in ratio of one new share for each ten held as of record May 1 which include the stock dividend. The rights will expire May 31. The stock dividend and rights apply to the common stock.

## BANK RATE UNCHANGED

BOSTON, April 24. (Exclusive)—The Boston Federal Reserve Bank announced today no change in its rediscount rate of 5 per cent.

## TRADING PROFITS REVIEWED

Analysis Shows Eighty-five Investment Trusts Earned 11.2 Per Cent on Capital Last Year

BY EARLE E. CROWE  
While investment trusts in the United States have not yet met the test that is sure to come, it is interesting to note the financial success of the movement so far as it has gone. An analysis made by a New York investment house of eighty-five companies of the general management type shows that average net income in 1928 was 11.2 per cent on invested capital, and the average of total earnings exceeded 25 per cent when unrealized profits are included.

Total invested capital of the eighty-five trusts covered in the survey amounts to \$530,993,196. Eighty of the trusts reported total gross earnings of \$61,383,835, and thirty-eight reported unrealized profits of \$30,102,359.

## CHANGES IN BANK STAFF ANNOUNCED

Promotions and Shifts Made in Personnel of California Group

Election of A. E. Huntington as president of the California Trust Company, the elevation of Lewis J. Bliss to the presidency of the California Trust Company, and the promotion of several other officers in the California Bank group, was announced yesterday by Andrew M. Chaffey, president of the California Bank.

Mr. Huntington, who is also a vice-president of the California Bank, has been associated with Mr. Chaffey and the California Bank group for the last twenty years. He succeeded Mr. Leo S. Chandler as president of the California Trust Company. Mr. Chandler having resigned recently to enter the practice of law.

Other promotions announced by Mr. Chaffey include the elevation of Mr. J. Ivey, Jr., vice-president, to general supervisory charge over operations of the entire bank, and also his election to the board of directors. Mr. M. Magee, junior vice-president in charge of the Sixth and Grand offices, becomes a vice-president, and Don S. Williams, junior vice-president in charge of the National City office, also assumes a vice-presidency. George M. Chelew, assistant cashier, is advanced to a junior vice-presidency and also the work of personnel officer.

Mr. Chaffey also announced the election of James R. Page as executive vice-president of the California Securities Company. Mr. Page assumes his new duties on July 1. Mr. Thompson, some time between May 15 and June 1, while Mr. Sterling, vice-president, is in the State. The resignations of all three from the Security-First National to join the California Bank Group were announced last week.

## Maddux Adds Motor Units

Acquisition of Maddux, Inc., Los Angeles Lincoln motor-car distributor, and the business of Stephen S. Nerny, Hollywood Lincoln distributor, by Maddux Air Lines Company has been confirmed by the executive committee of the latter company, it was announced yesterday.

This consolidation of interests has been brought about, it is understood, by the close relations of the Maddux Air Lines Company with the Ford Motor Company, and is in line with the new Ford policy of establishing centralized agencies.

## Movie Company in Big Program

Columbia Pictures Corporation of Hollywood, under a contract with the Victor Talking Machine Company, will immediately produce twenty-six short vocal, instrumental and novelty pictures, to be known as Columbia-Victor Gems, which will present the pick of Victor's artists.

The company, whose stock was recently listed on the New York Curb Exchange, has also launched an additional group of twenty-six short subjects called "Talking Screen Snapshots." This series, now in its ninth year of existence, will be offered for the first time with dialogue sound and music effects. It reveals intimate scenes of the movie stars at work and at play.

## Julius Kayser Melon Declared

NEW YORK, April 24. (Exclusive) Directors of Julius Kayser & Co. have declared a stock dividend of 50 per cent, payable on July 1, in voting trust certificates to holders of record June 10.

The directors announced their intention of placing the additional stock on a \$4 annual basis which is equivalent to a \$6 rate on the present stock, now on a \$5 annual basis.

## Rail Line Rate on Higher Level

PHILADELPHIA, April 24. (P)—The Pennsylvania Railroad Company today increased its quarterly dividend to 2 per cent, placing the stock on an annual basis of 8 per cent.

The dividend, which is a quarterly increase of 1-4 per cent, is payable May 31 to stockholders of May 1. The company has been paying 7 per cent since November 30, 1926.

## Paper Concern Names Officials

Joseph Y. Baruh, who has been elected vice-president of the Zellerbach Paper Company, will be executive officer in charge of the Zellerbach interests in Southern California. Mr. Baruh was elected yesterday. Mr. Baruh for thirty years was manager of the Los Angeles division of the concern.

Victor E. Hecht, who has been assistant manager of the Los Angeles division for many years, has been promoted to manager of this division.

## CALUMET-ARIZONA BOOSTS DIVIDEND

NEW YORK, April 24. (P)—Directors of Calumet and Arizona Mining Company today declared a quarterly dividend of \$2.50 on the common stock, placing it on a \$10 basis. The previous basis had been \$6, but an extra of \$1 was paid December 17. The new dividend is payable June 15 to stock of record May 31.

## NET INCOME OF WESTERN RAIL SOARS

Union Pacific Reports Increase Over 1927 of \$6,441,637

NEW YORK, April 24. (P)—Union Pacific system today reported net income from all sources in 1928, \$46,106,872, an increase of \$6,441,637 over 1927. Earnings on the common stock were \$18.95 a share, compared with \$16.08 in the previous year.

Net income from transportation operations rose to \$43,818,966 from \$39,493,330. Income from investments and other sources was \$20,346,558, compared with \$18,435,629 in 1927, a gain of \$1,910,928.

Surplus for the year was \$18,806,068, a rise of \$4,411,637. Cash on hand at the end of 1928 totaled \$7,229,822, compared with \$6,920,270, while demand loans and deposits increased \$4,500,000 to \$27,000,000. Total assets of the system were carried at \$1,203,714,894, an increase of \$240,600,668.

C. R. Gray, president of the system, said that a decrease of \$1,565,407 or 5.5 per cent in passenger revenue was due largely to decreases of 4.4 per cent in revenue passenger fares and 10.1 per cent in freight revenue, which was due to a decline attributed to "continued diversion of short-haul business to motor vehicles."

Freight revenues increased \$11,222,027, or 7.5 per cent. There were substantial increases in the movement of grain, fresh vegetables, canned goods and fresh fruits.

## Oil Storage in East Gains During March

NEW YORK, April 24. (Exclusive) An increase of 3,118,000 barrels in pipe line and tank farm stocks of domestic crude oil east of the Rockies is reported for the month of March, says the American Petroleum Institute. Stocks of crude oil at refineries gained 2,856,000 barrels. Stocks of refined oil at refineries increased 2,160,000 barrels. Although stocks of crude and refined oil east of the Rocky Mountains gained 8,135,000 barrels last month, the Institute estimates that March was the first consecutive month in which stocks of oil showed a gain.

The increase in February was 4,696,000 barrels, while in January stocks increased 8,107,000 barrels. The Institute estimates that the total increase in stocks of oil east of the Rockies in the first three months has been 9,947,000 barrels.

An increase of 58,800 barrels in the daily average production of crude oil in domestic fields last week was also reported by the American Petroleum Institute. It estimates that the rate of output was 2,971,800 barrels a day during that period. This compares with an estimate of 2,669,592 barrels made by the Oil and Gas Journal. Yields east of the Rocky Mountains accounted for 36,400 barrels daily increase, while California gained 20,400 barrels.

## Banker Joins Oil Company

G. L. Alexander, who on Tuesday announced his resignation as vice-president of the California Bank and vice-president and director of the California Group Corporation, has been appointed vice-president in charge of finances of the Macmillan Petroleum Corporation, R. M. Macmillan, president announced yesterday.

Mr. Alexander came to the California Bank from Detroit eight years ago to serve as cashier. Supervision of finances for the Amarillo, Tex., and Edwards (Ark.) refineries will be included in his new duties. Mr. Macmillan said that Mr. Alexander's appointment to the vice-presidency is in line with a general expansion policy adopted several months ago.

## UTILITY STOCK DEAL REQUIREMENTS MET

Hunter, Dulin & Co. announced yesterday that under the terms of the offer whereby common stockholders of Southern California Gas Corporation were accorded the right to exchange their holdings for common stock of Pacific Lighting Corporation, common stock of Southern California Gas Corporation in excess of 80 per cent required by the agreement has been deposited for exchange. The bankers also announced that owing to the fact that some of the stockholders of Southern California Gas Corporation are widely scattered, the Pacific Lighting Corporation has consented to extend the time during which deposits may be made up to the close of business May 17, 1929.

## FRENCH FORD AUTO TO BOOST CAPITAL

LONDON, April 24. (Exclusive)—The Ford Motor Company of France is to increase its capital from 1624,000 to 21,000,000, and it is expected that practically all of the 620,000 100-franc shares will be sold to the public from April 25 to May 4.

## QUARTERLY INCOME STATED

PITTSBURGH, April 24. (Exclusive)—Superior Steel Corporation today reported net income of \$108,182 for the first quarter of 1929, equal to \$1.08 a share on 100,000 shares outstanding.

## RESERVE BANK RATIO GAINS

Economist Points Out Recent Increase and Believes Credit Situation Clearing Rapidly

BY JOHN F. KINCLAIR  
(Copyright, 1929, by North American Newspaper Alliance.)  
NEW YORK, April 24.—Dr. George W. Edwards, chief economist of Stone, Webster & Blodgett, says that the reserve position of the Federal Reserve continues to improve, with a ratio now in excess of 70 per cent and almost up to the level of a year ago.

The past month there has been a considerable increase in the noncommercial loans of the banks, and the loans secured by stocks and bonds of member banks have reached a total of \$7,059,000,000. This is an increase of \$795,000,000 over last year at the same time.

Dr. Edwards explains this increase, as Charles Mitchell of the National City did last week, "by the fact that high rates for call money and wide margin requirements are inducing many individuals to hold their securities outright and to shift from brokerage to bank credit." This total amounts to almost 60 per cent of the total earning assets of the member banks.

Brokers' loans have gone down \$233,000,000 from the high of \$6,793,000,000 in March. While March financing, which exceeded \$1,000,000,000, was in excess of the same amount last year.

Good news for bond buyers! For the first time since last summer the amount of bond financing has shown a decided increase in March, exceeding that of the preceding month.

Dr. Edwards believes that the credit situation is being cleared up very rapidly.

Eventually, every railroad grade crossing in the United States will be eliminated. They are the cause of many hundreds of deaths annually, in every part of the country. But soon they will be gone. Three hundred and ninety of them were eliminated from the Federal-aid highway system in 1928.

Grade crossings are eliminated in two ways—by grade separation by means of the underpass or overpass, and by relocation of the highway system in 1928.

During the past ten years a total of 4291 crossings have been eliminated on the Federal-aid system—947 through grade separation and 3344 through relocation of highways. This work will continue until every one has been taken care of in the development of "safety first" on the well-traveled highways of the country.

Anthony A. H. Pokker, world-famous airplane builder and designer, says that regular trans-Atlantic service by airplane, should come within the next five years.

Already he is at work on a giant airplane carrying thirty-two passengers, powered with four 600-horsepower motors. This plane, which he hopes to complete in six weeks, he believes may be able to cross the Atlantic without difficulty. Still, planes will never compete with ocean liners, says this designer.

When Old Glory, a Pokker design, is completed, it will be the largest airplane ever built.

## WRIGHT AIRCRAFT DECLARES REGULAR

NEW YORK, April 24. (Exclusive) Wright Aeronautical Company today declared a regular quarterly dividend of 50 cents, payable May 31, next, to stock of record May 15. This is equal to \$4 annually on the old stock which received \$2 per annum, and on which a 100 per cent dividend will be paid the 30th inst.

The weekly stock market was particularly active in the early part of the day, with a strong upward trend. The Dow Jones industrial average closed at 219.14, up 1.14 points from the previous day's close.

## Corroon & Reynolds Corporation

ORGANIZED to acquire all of the common stock and at least 60% of the preferred stock of Knickerbocker Equitable Securities Corporation which company has controlling or substantial interest in 13 important insurance companies.

THESE companies cover virtually all of the various branches of the insurance business, except life insurance. Their combined assets as reported December 31, 1928 are \$57,805,576, with a premium income in 1928 of \$15,559,408.

In addition, the Knickerbocker Equitable Securities Corporation owns the entire capital stock of Central Fire Agency, Inc., one of the largest insurance agencies in the country, which represents twenty-eight insurance companies which received \$11,171,602 in premiums for 1928 through this Agency.

## EARNINGS

For the year ending December 31, 1928, earnings of Knickerbocker Equitable Securities Corporation and its subsidiaries on a consolidated basis after deduction of all expenses and Federal income taxes amounted to \$2,906,213. The maximum annual dividend requirements on the Convertible Preferred Stock, Series A, herewith stated, amounted to \$750,000.

## \$6 Dividend Cumulative Convertible Preferred Stock, Series "A" (No Par Value)

Preferred as to \$6 dividends per annum, and as to votes in case of voluntary or involuntary liquidation, up to \$105 per share plus accrued dividends.

With this Conversion Privilege  
Each share of this entire issue will be convertible at the option of the holder thereof into Common Stock of the Corporation on the following basis: Up to and including December 31, 1930 into 3 shares of Common Stock; thereafter, up to and including December 31, 1931 into 2 1/2 shares of Common Stock; thereafter, up to and including December 31, 1932, into 2 shares of Common Stock.

We offer and recommend these securities  
Price \$100 per share and accrued dividend

## Doubling Your Income ... instead of Halving It

DURING the last three years a substantial number of capital stocks have doubled in value. At the same time, the dividend rate, in many cases, being payable in cash, has remained stationary. This has the effect of cutting the dividend rate in half on the present market price.

On the other hand, the return on stocks which pay dividends in stock increases au-

tomatically. When the market value of the stock doubles, the value of the stock dividend doubles—a feature of great potential value. Holders of Central Public Service Corporation Class "A" Stock have both privileges. They may elect to receive dividends in cash at the rate of \$1.75 per share per annum, or in additional Class "A" Stock at the rate of 1-10 of a share (or 10%) annually.

We shall be pleased to furnish further information about this strong and growing public utility system, which serves a population of more than 2,000,000 in 20 states. Use coupon below.

## LOS ANGELES EXCHANGE

Douglas Aircraft and California Bank Climb Sharply to Feature Local Stock Trading

Douglas Aircraft and California Bank were the outstanding issues in what was otherwise a featureless session yesterday of the Los Angeles Stock Exchange. The aircraft stock responded to a continued brisk demand and advanced 1 1/2 points to reach another peak at 35 1/2. The close was at 35 1/2. California Bank shot up 3 1/2 points to 40 and held the high mark to the close only 1 1/2 points below the year's peak established recently.

Trading of petroleum issues, excepting Richfield Oil, was again sharply restricted, which further indicated the disposition of traders to remain on the sidelines rather than to commit themselves under the still uncertain conditions underlying the industry. Richfield led the activity and after reaching 46 1/4 dropped back to 45 7/8 for a net loss of 1-8 point. The lack of interest in Union issues was conspicuous. Union of California eased 3-8 to 61 1/2 on a transfer of

### LOS ANGELES CURB

Alpine shares and Claude Neon Light issues provided the chief interest in a broad and active trading session yesterday on the Los Angeles Curb Exchange. Price trends, however, were of a general nature, with the number of gains slightly outweighing the number of losses.

Western Air Express continued its advance with a 2-point jump to 68 and earlier in the day achieved a top at 70. Kinner reached 4 1/2 and ended at 4 1/2, up 10 cents and Maddux added 1-8 to close at 13 3/4. Lockheed, Fokker and Bach eased lower.

## BACH AIRCRAFT COMPANY, INC.

Enviably Positioned in Aviation Industry

IN the great market for airplanes that exists today and in the tremendous growth of the future, The Bach Aircraft Company, Inc., with its new factory at the Los Angeles Metropolitan Airport, occupies an enviable position.

The fact that Bach Aircraft is the West Coast Air Transport Company, two leading operators in the Western territory, have come for a large portion of the Bach company's 1929 production, strikingly indicates the recognition being accorded the advantages of Bach performance, economy, safety and comfort.

We have just prepared an illustrated booklet giving a detailed analysis of the Bach Aircraft Co., Inc. The booklet is sent free on request.

One of a series of advertisements to acquaint Americans with America's Merchant Marine

S.S. Leviathan—Flagship of the United States Lines, Inc.

## America returns to the High Seas

THE Merchant Marine Act of 1928 provides, for the first time in over half a century, the nucleus of methods necessary for the intensive development of the American Merchant Marine. The principal features of this Act are:

Ten-year contracts for carrying United States mail offered to American shipping lines at a profitable rate; Vessel insurance by the United States Government at more equitable rates than have been available heretofore; Loans obtainable for new ship construction up to 75 per cent of the cost at or about 3 1/2 per cent interest. The United States Lines, Inc., operating the giant Leviathan at the head of a fleet of 11 large vessels, is in position to take profitable advantage of these provisions.

Independent authorities estimate the earnings of the fleet under private ownership at \$2,500,000 per year available for dividends and Federal Income Taxes, or more than \$4.00 per share on the Preference Stock of the United States Lines, Inc. This stock is entitled to receive \$1 per share per year and participates equally with the common stock in any further dividends.

Price: at the Market  
(About \$18 per share)  
Orders may be wired at our expense.

## NEW YORK CURB STOCKS

NEW YORK, April 24. (AP)—Heavy buying checked a rally in today's curb market, leaving final quotations decidedly bearish. A further rally in the price of steel, however, and another boost in the price of the technical position of many issues had been rechecked by the rally of the recent advance, prompted the selling movement.

The day's news was largely favorable, including a series of increased or improved dividends, publication of optimistic weekly steel trade returns, and another boost of excellent earnings statements. From which moved up more than 4 points to 21 1/2. A further rally in the price of steel, however, and another boost in the price of the technical position of many issues had been rechecked by the rally of the recent advance, prompted the selling movement.

Arrival of activity and strength in Alexander Industries featured the all-time high of 10 1/2. The stock was influenced by reports that the company would manufacture two additional models of the bullet plane, one larger and one smaller than the model for which many orders were taken at the Detroit Air Show. The company's stock was again in demand.

Establishment of a new high record by American National Bank was followed by a transfer of the stock to the "big board" of the New York Stock Exchange. The company's stock was again in demand.

Other new high of 19 1/2 was reached by the stock of the company, which was influenced by reports that the company would manufacture two additional models of the bullet plane, one larger and one smaller than the model for which many orders were taken at the Detroit Air Show. The company's stock was again in demand.

## GOLD ACE MINING COMPANY

LOCATION: Property consists of twelve claims covering an area of approximately 4500 feet by 1800 feet and embracing the enriched mineral zone, as well as one placer claim of 160 acres. The mine is situated about 7 1/2 miles south of Beatty, Nevada, and 2 1/2 miles from Carrara on the Tonopah & Tidewater Railroad.

PROBABLE ORE: It has been very conservatively estimated by various engineers that the Gold Ace Mining Company has a minimum of 100,000 tons of low grade ore worth at least \$11 per ton. After deducting mining and milling charges the company should net \$6 per ton on this ore alone.

POWER AND WATER: Power plant is now equipped with a 200 h.p. Fairbanks-Morse Diesel engine and it is the intention of the company to install an additional unit of the same size very shortly. Ample water for all purposes is piped from Beatty, 7 1/2 miles by gravity to Carrara, and from there to the mill by the company's own installation of a 2 1/2 mile 6 inch water line.

MILL EQUIPMENT: A 100-ton daily capacity mill, fully equipped, is expected to be in operation before May 1st. The process of gold recovery will be that of amalgamation.

CONCLUSION: With the Company's ore now blocked out, ample water, power and milling facilities for 100 tons per day, it is not to take into consideration the possibilities of the high-grade ore strike until further developed. We have no hesitancy in recommending Gold Ace Mining Company stock as a speculative mining issue of unusual merit.

## Transcontinental Air

### Announce Plans—

COMPLETION of the final plans for the advent of Transcontinental Air Transport service, was revealed by officials of this company, as reported in the Los Angeles Times and Examiner of Friday, April 19. The first flight between Los Angeles and New York will be made July 1, according to T. B. Clement, General Traffic Manager.

Col. Charles A. Lindbergh, one of the company's executives, has worked for months, it is said, to bring these plans to completion. Principal stockholders are said to be the Santa Fe and Pennsylvania Railroads and the Wright and Curtiss Airplane Companies. The company will operate 14-passenger planes, providing a coast-to-coast service in 48 hours—plane by day, train by night.

The stock is listed on the New York Curb Exchange.

We believe this stock should very materially advance in value.

## Wheat Futures Turn Higher on Foreign Buying

CHICAGO, April 24. (Exclusive)—European buyers of cash wheat are showing more interest in the market. It is estimated that in the past few days some 7,000,000 bushels have been sold by North America for export, the bulk of it Canadian grain although a fairly liberal quantity of hard winter wheat and durum was included. The removal of hedges against the export sales have been a factor in checking the decline in values which has been under way for over a week.

With Liverpool strong there was general commission house buying and local short covering here with prices advancing sharply and the finish was at net gains of 1 1/2¢ to 2¢ with December leading. May finished at 1 1/4¢ to 1 1/2¢; July 1 1/8¢ and September 1 1/2¢ to 1 3/4¢ while Duluth durum gained 2 1/2¢ to 3¢ and Winnipeg 2 1/2¢ to 3¢. Duluth May durum was sold during the day at 1 1/2¢ under the local market.

Strength in wheat and wheat futures over the belt combined with market improvement in the shipping demand led to a better class of buying in corn and soybeans. May finished at 1 1/4¢ to 1 1/2¢; July 90¢ to 95¢ and September 85¢ to 90¢. Oats were up 1/2¢ to 1¢ with May 47 1/2¢ to 48 1/2¢ and September 45 1/2¢ to 46 1/2¢. Rye advanced 1/2¢ to 1¢ and closed 2 1/2¢ to 3¢ higher with May 44 1/2¢ and July 90¢.

Aside from the reports of export business there was little in the general news to account for the upturn, but the break of 1 1/2¢ in the May delivery from the high of last week was generally strengthened the technical position. There was free buying of May and selling of July at 4 1/2¢ difference to close spreads. The continued favorable character of the crop reports on winter wheat from the Southwest tends to cause many operators to go slow in taking the buying side, although the present price level seems to be regarded with favor on the part of importers. The United Kingdom and Spain were said to have been the largest buyers of wheat, although the continent was also in the market for liberal quantities.

Forecast for wet weather over the entire belt served to call attention to the fact that seeding in North Dakota is progressing rather slowly. On the 15th inst. only 12 1/2 per cent of the broadcast seed was into the ground against 22 1/2 per cent last year. Liverpool finished 1/2¢ higher with Buenos Aires 1/2¢ higher. Spain has taken considerable Argentine wheat in the past two days and according to seaboard estimates has covered its requirements for the next four months or more.

Local bulls showed more confidence in their position as the result of a betterment in the shipping demand and sales of 202,000 bushels to the East. The spot basis was steady to higher. Field work is already late and further rain is expected to bring in an increased number of complaints. The government crop week summary said corn had been planted as far as the Southeastern Nebraska, although little work had been done in Kansas. A good part of the trade in futures was in changing between the various delivery months. Buenos Aires finished unchanged for the day.

A smaller acreage is now generally anticipated as the result of continued wet weather which has retarded seeding. Commission houses were fair buyers of futures. There was some export business in Canadian wheat.

Houses with foreign and eastern connections were on the buying side of rice and with short covering the market advanced. Report of demand showed improvement with some business put through but quantities were not given. Adds from a dip in May led, provisions were little changed in price. The former met with selling by cash interests while September was picked up by a concern with foreign connections. Reports of hogs were 27,000 and prices at the yards ruled 10 1/2¢ lower.

### RANGE OF PRICES

Wheat—May 1.14 1/2 to 1.15 1/2; July 1.18 1/2 to 1.19 1/2; September 1.21 1/2 to 1.22 1/2; December 1.23 1/2 to 1.24 1/2.

Corn—May .82 1/2 to .83 1/2; July .84 1/2 to .85 1/2; September .86 1/2 to .87 1/2; December .88 1/2 to .89 1/2.

Oats—May .47 1/2 to .48 1/2; July .49 1/2 to .50 1/2; September .51 1/2 to .52 1/2; December .53 1/2 to .54 1/2.

Rye—May .45 1/2 to .46 1/2; July .47 1/2 to .48 1/2; September .49 1/2 to .50 1/2; December .51 1/2 to .52 1/2.

Durum—May 1.14 1/2 to 1.15 1/2; July 1.18 1/2 to 1.19 1/2; September 1.21 1/2 to 1.22 1/2; December 1.23 1/2 to 1.24 1/2.

Winnipeg—May 2.14 1/2 to 2.15 1/2; July 2.18 1/2 to 2.19 1/2; September 2.21 1/2 to 2.22 1/2; December 2.23 1/2 to 2.24 1/2.

Duluth—May 2.14 1/2 to 2.15 1/2; July 2.18 1/2 to 2.19 1/2; September 2.21 1/2 to 2.22 1/2; December 2.23 1/2 to 2.24 1/2.

Chicago—May 1.14 1/2 to 1.15 1/2; July 1.18 1/2 to 1.19 1/2; September 1.21 1/2 to 1.22 1/2; December 1.23 1/2 to 1.24 1/2.

St. Louis—May 1.14 1/2 to 1.15 1/2; July 1.18 1/2 to 1.19 1/2; September 1.21 1/2 to 1.22 1/2; December 1.23 1/2 to 1.24 1/2.

Minneapolis—May 1.14 1/2 to 1.15 1/2; July 1.18 1/2 to 1.19 1/2; September 1.21 1/2 to 1.22 1/2; December 1.23 1/2 to 1.24 1/2.

Portland—May 1.14 1/2 to 1.15 1/2; July 1.18 1/2 to 1.19 1/2; September 1.21 1/2 to 1.22 1/2; December 1.23 1/2 to 1.24 1/2.

Seattle—May 1.14 1/2 to 1.15 1/2; July 1.18 1/2 to 1.19 1/2; September 1.21 1/2 to 1.22 1/2; December 1.23 1/2 to 1.24 1/2.

San Francisco—May 1.14 1/2 to 1.15 1/2; July 1.18 1/2 to 1.19 1/2; September 1.21 1/2 to 1.22 1/2; December 1.23 1/2 to 1.24 1/2.

Los Angeles—May 1.14 1/2 to 1.15 1/2; July 1.18 1/2 to 1.19 1/2; September 1.21 1/2 to 1.22 1/2; December 1.23 1/2 to 1.24 1/2.

San Diego—May 1.14 1/2 to 1.15 1/2; July 1.18 1/2 to 1.19 1/2; September 1.21 1/2 to 1.22 1/2; December 1.23 1/2 to 1.24 1/2.

Phoenix—May 1.14 1/2 to 1.15 1/2; July 1.18 1/2 to 1.19 1/2; September 1.21 1/2 to 1.22 1/2; December 1.23 1/2 to 1.24 1/2.

Albuquerque—May 1.14 1/2 to 1.15 1/2; July 1.18 1/2 to 1.19 1/2; September 1.21 1/2 to 1.22 1/2; December 1.23 1/2 to 1.24 1/2.

El Paso—May 1.14 1/2 to 1.15 1/2; July 1.18 1/2 to 1.19 1/2; September 1.21 1/2 to 1.22 1/2; December 1.23 1/2 to 1.24 1/2.

**SECURITY SALESMEN**  
A successful 30-year-old Los Angeles  
salesman, for the first time,  
placing his common stock on the  
market and expects to list some on  
the local exchange in the near future.

I need about five more experienced  
and successful stock salesmen, pre-  
ferably with local clientele, to help  
sell this issue, which is being handled by a  
well-known Los Angeles security house.  
Every possible assistance will be af-  
forded you, from the standpoint of ad-  
vertising, circulation, leads, etc.  
The salesman now with me are already  
selling. If you are looking for a legiti-  
mate and highly attractive offering,  
you will find this proposition an un-  
usual opportunity to make money with  
the chance of a permanent connection.  
No drawing account. Further inter-  
esting details at time of interview.

**AVIATION**  
Securities

After analyzing the financial po-  
sition of innumerable companies  
engaged in this new, gigantic in-  
dustry, our Statistical Depart-  
ment has prepared a report on  
the condition of a Corporation  
whose securities we believe offer  
unusual profit possibilities at cur-  
rent levels.

Write, call or telephone

**NOTICE**  
Investors continue to sweep the country like wild-  
fire and those investors are making big money. Corpora-  
tions are being formed to finance the makers and buyers of au-  
tomobiles, and the big and profitable factors in the development  
of the automobile and the airplane will undoubtedly be duplicated  
in the aviation industry.

Therefore, it will pay you to quickly investigate the stock  
market of a THIRTY MILLION DOLLAR aircraft finance  
company, the largest and one of the first to be organized in  
this country.

A letter, card, wire or phone will bring particulars and place  
the telephone is WEstmore 5137.

**OLIVERS**  
BY HOWARD C. KEGLEY  
Completion of six wells at Santa  
Fe Springs within the past week  
has increased the daily oil produc-  
tion approximately 30,000 barrels.

Among these completions the Wil-  
shire Annex Oil Company's Koonits  
No. 3 near the Four Corners, is  
putting out 8000 barrels per day;  
the Associated Oil Company's Green  
No. 3 is making 5500 barrels, and  
the Universal Consolidated Com-  
pany's Blanchard No. 10 swelled  
the production by 5400 barrels.

Included among the six comple-  
tions is the General Petroleum Cor-  
poration's Anderson No. 133-D well,  
making 1500 barrels, the Richfield  
Oil Company's Oscar Howard No. 3  
well, making 3000 barrels, and the  
Texas Company's Mattern No. 2-8  
well, making 2400 barrels.

**To Recount**  
The General Petroleum Corporation  
yesterday reentered its Jalk  
No. 111 well at Santa Fe Springs.  
It is down 7048 feet. About three  
weeks ago, General attempted to  
overcome extreme heat at the bot-  
tom of the hole by circulating ice-  
water before cementing, but reports  
indicate that the method was not  
productive of the desired result.

General's Kinsinger No. 1 well,  
in the Los Cerritos section, north-  
west of the old Signal field, has  
just been suspended at 6123 feet  
and will remain inactive pending  
further developments in the field.

The K.C.L. No. 1 wildcat, near  
McFarland, is drilling ahead at 1000  
feet. The More No. 1 wildcat, three  
miles southeast of Elwood, is drill-  
ing at 1470 feet.

In the Poco Creek area, General  
is rigging up its Oile No. 15 and  
plans to spud in there within three  
weeks. The Glide No. 23 well is  
down 1850 feet.

**New on Pump**  
The South Basin No. 5 well of  
the South Basin Oil Company, at  
Signal Hill, just placed on the  
pump, is reported to be making only  
about twenty-five barrels of oil per  
day from a depth of 7337 feet, op-  
erators were delayed more than a  
week by water trouble in placing  
it on production.

**Replacing Old Derrick**  
While water was being bailed out  
of the Tidal No. 1 well of the  
Cypress Oil Company at Rosecrans,  
the well blew out and set fire to the  
derrick. The hole sanding up soon  
after and killed the flow of gas be-  
fore the fire reached greater  
proportions. The operators are  
cleaning out the hole and will side-  
track derrick from 3200 feet.

The Warden No. 1 well at Santa  
Fe Springs, is drilling ahead at 4524  
feet.

**Progress in New Area**  
The California Western Oil Com-  
pany is installing boilers for its  
Maricopa No. 1 well, on the Mari-  
copa Flat, and will spud them with-  
in three weeks. Derrick is up and  
work on the gas and water lines  
will be under way within a week.

California Western holds 180 acres  
in that area and if its first well  
proves to be a producer, its drilling  
program calls for about twenty  
wells on the tract.

The Darby No. 3 well, at Signal  
Hill, developed a crooked hole for  
the second time and is being side-  
tracked from about 4100 feet. It  
was down 5173 feet.

**Production Summary**  
Daily oil production at Santa Fe  
Springs is reported to be 148,000  
barrels of oil from 120 wells in the  
deep zones. Forty projects are idle,  
and six wells, formerly producing,  
have just been shut down. Six com-  
pletions are reported within the  
past week.

**Blind Producing**  
Field reports state that approxi-  
mately 400 barrels of oil is flowing  
from the Blind No. 1 well of Gra-  
ham & Loftus, at Potrero, along  
with about 1200 barrels of fluid.  
The gas flow is reported to be 1,500-  
000 cubic feet per day.

**Spuds In**  
The Cypress Oil Company has  
just spudded its DeKoch No. 1, at  
Potrero, near the Potrero Country  
Club. The well is asserted to be  
drilling in semiprimitive territory.

**Abandons Well**  
The Continental Oil Company has  
abandoned its Bhoel No. 1 well,  
Lawndale, corner of Market and  
Sixth streets, at Lawndale, having  
penetrated no oil-bearing forma-  
tion.

This well was due east of the  
Standard Oil Company's Vance No.  
1 well, which is down 6230 feet.

## THE WEATHER

(Official Report)

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, April 24.—(Reported by H. B. Hersey, Meteorologist.) At 5 o'clock a.m. the barometer registered 30.07; at 5 p.m., 30.03. Thermometer for the corresponding hours showed 51 deg. and 60 deg. Relative humidity, 5 a.m., 75 per cent; 5 p.m., 70 per cent. Wind, 5 a.m., east, velocity 4 miles; 5 p.m., west, velocity 6 miles. Temperature, highest, 64 deg.; lowest, 50 deg. Rainfall for season, 13.21 inches; normal to date, 14.03 inches; last season to date, 9.47 inches. Barometer reading at sea level, 30.12 inches.

WEATHER CONDITIONS.—April 24: A storm of considerable energy, central this morning over Western Nebraska, has brought several inches of rain in the Middle Plains States and the Missouri Valley, and rain over the Middle and Northern Rocky Mountain country, during the past twenty-four hours. The precipitation was heavy at many points in Kansas, Nebraska and Wyoming, and numerous thunderstorms occurred. It was rather the case this morning in the western and northern portions of the Rocky Mountain country, but moderate temperatures were reported in other portions of the country. In Southern California partly cloudy weather prevailed yesterday and last night, with temperatures in the low 60s and 70s. Fair weather with moderate temperatures prevailed in Los Angeles and vicinity this morning. Moderate northwesterly winds will prevail.

SUN, MOON AND TIDES.—Los Angeles, Sun rises 5:10 a.m., sets 6:33 p.m. Moon rises 4:58 a.m., sets 10:27 p.m. Tides at San Pedro, 4:30 a.m., and 3:23 p.m.

LOCAL TEMPERATURES.—April 24: Minimum and maximum temperatures from Southern California points reported yesterday and today are as follows: Los Angeles, 50 to 64; San Francisco, 48 to 64; San Diego, 58 to 72; Santa Barbara, 52 to 68; Santa Monica, 54 to 68; Santa Ana, 56 to 70; Santa Rosa, 58 to 72; Santa Cruz, 54 to 68; Santa Fe, 56 to 70; Santa Rita, 58 to 72; Santa Rosa, 58 to 72; Santa Cruz, 54 to 68; Santa Fe, 56 to 70; Santa Rita, 58 to 72.

For Los Angeles and vicinity: Fair Thursday and Friday, with moderate temperatures. For San Francisco, April 24.—Weather forecast: San Francisco and vicinity: Fair and moderate temperatures. For Los Angeles and vicinity: Fair and moderate temperatures.

STATE FORECAST.—April 24.—Weather forecast: San Francisco and vicinity: Fair and moderate temperatures. For Los Angeles and vicinity: Fair and moderate temperatures.

ARIZONA FORECAST.—April 24.—Weather forecast: Phoenix and vicinity: Fair and moderate temperatures. For Los Angeles and vicinity: Fair and moderate temperatures.

YUMA (Ariz.) April 24.—(Exclusive Dispatch from the U. S. Reclamation Service.) Clear, bright, Colorado River, 21.29 ft. Discharge, Wednesday, 26,000 cubic feet.

TEMPERATURE.—Temperatures: Conditions, 5 p.m., 58 to 64; 10 p.m., 54 to 60; 1 a.m., 50 to 56; 4 a.m., 48 to 54; 7 a.m., 46 to 52; 10 a.m., 44 to 50; 1 p.m., 42 to 48; 4 p.m., 40 to 46; 7 p.m., 38 to 44; 10 p.m., 36 to 42; 1 a.m., 34 to 40; 4 a.m., 32 to 38; 7 a.m., 30 to 36; 10 a.m., 28 to 34; 1 p.m., 26 to 32; 4 p.m., 24 to 30; 7 p.m., 22 to 28; 10 p.m., 20 to 26; 1 a.m., 18 to 24; 4 a.m., 16 to 22; 7 a.m., 14 to 20; 10 a.m., 12 to 18; 1 p.m., 10 to 16; 4 p.m., 8 to 14; 7 p.m., 6 to 12; 10 p.m., 4 to 10; 1 a.m., 2 to 8; 4 a.m., 0 to 6; 7 a.m., -2 to 4; 10 a.m., -4 to 2; 1 p.m., -6 to 0; 4 p.m., -8 to -2; # Hammer Found in Cooley's Car May be Murder Instrument

## STAINS ON HEAD TO BE ANALYZED

Detective's Find May Solve Pasadena Mystery

Chemist's Preliminary Test Proves Negative

Search Begun for ex-Mate of Slain Man's Friend

A hammer found in an automobile in Glendale said to belong to Victor A. Cooley was being investigated last night by police in connection with the slaying of the prominent Pasadena automobile and clubman in his Pasadena apartment last week. An examination of the tool late last night failed to disclose blood stains but a further analysis of it will be made today, officials said.

The head of the hammer had been dislodged and was approximately two and one-half inches down on the handle.

Leslie T. White, identification expert of the District Attorney's office, who with other officers made the discovery, brought the hammer to Los Angeles for examination.

### POSSIBLE INSTRUMENT

At the hospital where Cooley died Saturday night, four days after he was the victim of a midnight attack while in bed in his North Vernon apartment, attendants said the wound which killed Cooley and which was approximately three inches long over his left temple, could have been made with either a hammer or a square tire tool.

At the top of the wound an identification wider and deeper than the rest of the wound which had crushed his skull, was found by attending physicians, Chief of Police Kelley of Pasadena announced.

The tool discovered last night has a round head, a square base, with a regulation twelve-inch handle.

**DETECTIVE'S FIND**  
Detective White found the hammer after he had made a minute inspection of the murder apartment in the belief that additional fingerprints might be uncovered which might aid investigating officers. The result of his search was not made public.

Yesterday Mrs. Eva Hanan, mother

## WIFE OF MURDERED PASADENA CLUBMAN

Mrs. Pearl Cooley

er of Ralph Hanan, now sought for questioning in connection with the case, said that Mrs. Cooley rented her Pasadena home at 1765 Las Lunas avenue, each winter, and rented an apartment in Glendale. The Glendale address where the automobile in which the hammer was found was located was not revealed.

Today Mrs. Cooley will be questioned by officers immediately following the funeral of her husband, so that officers can ascertain whether the car in which the hammer was found had been missing at any time Tuesday or whether it had been loaned. Clyde Cooley, Cooley's 19-year-old son by a former wife, also is to be questioned again, it was learned.

### HANAN MISSING

Hanan, former husband of Evelyn Merritt Hanan, from whom she

## AUTOIST HELD FOR DEATHS

Pasadena Iceman Convicted of Manslaughter Due to Fatal Automobile Accident

H. B. Crandall, Pasadena ice dealer, yesterday was convicted of two counts of manslaughter filed against him for the death of two persons who were injured when his automobile collided with one driven by Dr. Walter Ray Gwynn, Hollywood dentist, in Pasadena, two months ago. The trial was held before Superior Judge Doran. At the close of the arguments the jury retired and reached the verdict at the end of two hours' deliberation. Judge Doran announced that Crandall will be sentenced at 2 p.m. Monday, next.

The victims of the accident were Mrs. Eva Gwynn, wife of the dentist, who lived at 1818 1/2 Argyle avenue, and Mrs. Pamela Gwynn, his mother. Dr. Gwynn also received in-

cluded detectives that his father recently told him he took out a \$50,000 life insurance policy. He did not reveal the beneficiary, the boy said.

**ELKS IN CHARGE**  
Funeral services for the slain man will be conducted at 1:30 p.m. in the Reynolds & Eberle funeral chapel, 825 East Orange Grove avenue, under the auspices of the Pasadena Elks' lodge of which he was a prominent member.

F. W. Birnie, Exalted Ruler, will read the order of ritual and officiate at the services. He will be assisted by five other lodge officers, J. B. Morgan, E. J. Fairbanks, A. K. Schultz, L. Taylor, J. J. Leonard and L. G. Ury. W. W. McCann will sing. Cooley's body will be placed in the Forest Lawn Mausoleum, where the Elks' burial ritual will be read.

Mrs. Hanan's friends said last night they do not believe she will attend the services.

**RESIDENCE ASSESSED**  
Immediately after Cooley was found beaten into insensibility Chief of Police Kelley dispatched messengers to Carson City requesting that Hanan be located and questioned as to his whereabouts on that night. A report from the Carson City Chief of Police said the man had been in that city for several months. Chief Investigator Wheeler said yesterday that a thorough investigation of the Carson City police report also will be made.

In ordering the search for Hanan Wheeler pointed out that the affair is so clouded that every possible angle will be checked in his efforts to unearth a clue.

**MRS. HANAN HYSTERICAL**  
Yesterday Mrs. Hanan was in such a hysterical condition after a few minutes' interrogation by Detective-Lieutenant Culver and Thomas of the Pasadena police that the officers postponed further questioning of the woman. Mrs. Hanan they could not take out the most severely wounded member of the party, Chief Motor Officer Cecilone, who had a broken leg.

Cecilone could not be carried safely across the several hundred yards of jagged ice to the plane because of his weight, the captain said. He was too heavy to be carried in the small plane with the observer so it was decided that a larger plane be sent later for him. Capt. Lundborg returned alone the following day and his plane crashed in landing.

The snow had been melted to a softness that gave under one of his skis and caused the plane to somersault. The captain was marooned with the party for a fortnight. Fog that struck this section of the Arctic hindered the rescue.

The blinding fog of the sun by day and the heavy fog during the evening and night caused the weak survivors to become irritable and disagreement arose in the little camp. Finally on July 12 the Russian ice-breaker Krassin managed to reach the place and carried the last of them to safety. Capt. Lundborg described the Arctic camp as the theater of the most remarkable adventure of his life.

**ON AMERICAN TOUR**  
The officer is on a tour of the United States to study the aviation development in this country. He believes the American leads the world in air-mail service and soon will take first place from Europe in passenger travel. After his western visit he will return to Washington to study the army and navy aviation services. Thence he will return to Sweden and resume his place as captain in the Royal Swedish Flying Corps, from which he has been on leave of absence since March 8, last.

Yesterday afternoon he was entertained by a round of receptions sponsored by the American Sons and Daughters of Sweden. The program included a visit to the Metro-Goldwyn-Mayer studio where he called on Greta Garbo and Nils Asther. Swedish film player, Capt. Lundborg says that he knew Miss Garbo in their native country.

At 7:30 p.m. last night a formal reception was given for him at the Alexandria. Afterward he lectured on the rescue of Gen. Noble at the Philharmonic Auditorium.

This morning he is scheduled to pilot a Lockheed-Vega monoplane on a test flight over Los Angeles, beginning at 8:30 a.m. He plans to leave for San Francisco in a Mad-dux air liner at 11:10 a.m.

**PARTIES UNQUESTIONED**  
The man and woman, however, will not be questioned, the detectives said. They declared both are prominent in Pasadena and that they, the police, "are satisfied they know nothing of the affair."

According to Land's story, the pair rushed into a closed car at the curb near the apartment and sped away. The man, he said, was hastily wrapping a bundle in paper. Yesterday it was learned that Clyde Cooley, the dead man's 19-year-old son, revealed to investigators that his father made two recent trips to San Francisco. On the first one, more than a week ago, young Cooley said he drove his father to the Southern Pacific station one night, and that he returned the second day.

The final trip, from which he returned only a day or so before the attack, was made with three automobiles, two chauffeurs accompanying him. He returned with one car and the two drivers, the boy is reported to have related. The driver will be questioned in an effort to ascertain who met Cooley in the northern city and the nature of his transaction there.

**PREPARING TO QUIT**  
Cooley, it was learned, recently informed his night manager, J. L. Howard, that the rental agency would be closed shortly and that all cars rented out on a weekly or monthly basis would be placed in storage as fast as existing contracts terminated. Howard, who was questioned for several hours Tuesday, was unable to throw any light on the attack.

Chief Investigator Wheeler yesterday ordered that investigators working from his office begin their survey of the affair with the first alarm of the attack, which was sent out by Howard, who reported he discovered Cooley lying in a pool of blood on the bed of the apartment occupied by both men. From there detectives were ordered to retrace the case step by step.

**NET CAST WIDE**  
More than a score of neighbors and twice that many friends and fellow-club members of Cooley are to be questioned in the belief that some of them may aid authorities by information they might have received from Cooley himself.

Private bank vaults where the man was said to have kept social and business correspondence will not be opened until investigators complete retracing the various angles of the crime, it is announced. Young Cooley is reported to have

As the witness described each machine, Attorney Rollin McNitt would make inquiry as to the amount of noise and dust and invariably the answer would be that both of these objectionable features would be almost eliminated, or entirely controlled.

"We'll stipulate that he'll answer that there won't be any noise or dust," sarcastically commented Attorney Arthur Smiley, representing part of the opposition group, at

## WOMAN TELLS OF CULT MURDER

Mrs. Rosenkrantz, Life Term, Reveals Slaying

Wife of Follower of Riker Declared Victim

Officers Start Search for Men Implicated

Mrs. Evelyn Rosenkrantz, serving life term in San Quentin prison following conviction under the habitual criminal law, last night caused to be mailed to the State Supreme Court an affidavit in which she purports to reveal the murder of Mrs. Margaret White in a cottage at Palms in November, 1927, according to dispatches from San Francisco.

In the sworn document Mrs. Rosenkrantz, former associate of "King" William Riker, head of a religious cult in the Santa Cruz Mountains, named a man she says threatened the woman to death and buried the body in a quicklime grave.

While officers are seeking the man named by Mrs. Rosenkrantz another search was under way for a man said to be an accomplice after the fact.

Mrs. Rosenkrantz supplied in the affidavit what she asserts is intimate knowledge of the murder and that it was committed by the man after Mrs. White, said to be his former wife, confronted him and threatened to tell enough to "send him to the gallows" on another crime unless he gave her money.

The woman making the affidavit came into notoriety in January, 1928, after she sued Riker for \$500,000 for asserted breach of promise. Before the suit was settled, however, she was arrested for passing worthless checks and committed to prison for life.

## THROGS GREET CAPT. LUNDBORG

(Continued from First Page)

The question arose as to who should be taken out first.

Here the captain gave his version of the incident that led to a controversy watched by the entire world. Capt. Lundborg asserted that it was he who decided that Noble should go first. The Italian commander refused, the aviator declared, until it was pointed out that they could not take out the most severely wounded member of the party, Chief Motor Officer Cecilone, who had a broken leg.

Cecilone could not be carried safely across the several hundred yards of jagged ice to the plane because of his weight, the captain said. He was too heavy to be carried in the small plane with the observer so it was decided that a larger plane be sent later for him. Capt. Lundborg returned alone the following day and his plane crashed in landing.

The snow had been melted to a softness that gave under one of his skis and caused the plane to somersault. The captain was marooned with the party for a fortnight. Fog that struck this section of the Arctic hindered the rescue.

## WIDOW'S WILL PHILANTHROPIC

(Continued from First Page)

Harris, now in course of construction, is left \$100,000 in cash and one-third of her residuary estate. Mrs. Harris purchased the site for the clinic at Carmel shortly before she died and gave \$75,000 to erect the building. The Carmel Hospital is given \$20,000 and one-twenty-fourth of the estate.

Numerous employees and friends were remembered with bequests ranging from \$500 to \$25,000. The two sons of Attorney Martin, aged 17 and 19 years, were given \$25,000 each, while other friends in Los Angeles, Carmel and in Moline, Ill., her old home, were given substantial sums.

Her old home provides a trust fund of \$550,000 to be held for certain relatives who are to be given the income.

Mrs. Harris, 87 years of age at her death, which came from a lingering heart malady, was widely known as a lover of dogs and horses. Her California kennels were among the best in the world.

## PORT BELT LINE OPERATION SET

(Continued from First Page)

feet wide to connect the north end of Dock street with Mormon street at an estimated cost of \$27,238. For the extension of the Pacific has agreed to pay half, providing \$13,619 as the harbor department's share of the cost.

Other improvements provide for extension of the existing seaplane ramp at Allen field on Terminal Island at an estimated cost of \$10,000 and construction of a connection between the ramp and landplane runway at an estimated cost of \$5475.

Another improvement authorized is a cut-off in the vicinity of the Los Angeles Shipbuilding and Drydock Corporation's lease to shorten Harbor Boulevard.

## MEXICO EDITOR LAUDS ORATORY

(Continued from First Page)

Lundborg remains as much a national idol for Mexico as for the United States, and is warmly received each time he flies into Mexico City.

The publisher also is kindly disposed toward the flyer's prospective father-in-law, Ambassador Morrow. He says that Morrow has given to Mexico a distinct and more dignified style of diplomacy from the United States, and his efforts for closer amicable contacts between the two countries are not fruitless.

## CITY CLERK DECIDES FOR CANDIDATES

Two Seeking Office Held

Duly Registered Voters Here and Not in Glendale

City Clerk Dominguez addressed

a communication to the Council yesterday in which he said that Erwin F. Werner and Donald M. Keith, both candidates for City Attorney, "are duly and regularly registered as voters of the city of Los Angeles and, in accordance with the provisions of the city charter, are fully qualified to become candidates for the office of City Attorney."

His communication is in response to a request from the Council for information as to whether these candidates had met the residence qualifications for candidates for office in this city. The Council made the request yesterday after reading a letter from Robert T. Hale, president of the City Employees' Benevolent and Protective Association, in which Mr. Hale asserted that Werner and Keith both are residents of Glendale.

Hale asserted that the "records show" that Werner lives at 1001 Country Club Drive, Glendale, and Keith at 1830 Rosita street, Glendale. On the city records Werner's address is given as 1032 North Hollywood Drive, and Keith's as 530 South Hobart Boulevard.

Although Hale asked the Council to obtain a legal opinion regarding whether the candidates have met the residence qualifications, the Council was informed by Assistant City Attorney Patten that the only residence qualification in the charter is that the candidates be duly registered voters of the city and that the question to be determined is one of fact rather than law.

Union Pacific Pushes Work in Utah Park

After completing an improvement program at Zion Lodge in the Wasatch National Park, where \$100,000 was expended, crews of the Union Pacific system yesterday moved to Bryce Canyon National Park and will begin a \$125,000 building program there.

One of the major construction items was the installation of a 100-gallon water-storage tank and the building of supply lines to the lodge.

The roads leading to Zion Park and Bryce Canyon, which are reported to be open to the public, are being improved.

25 Crepe de Chine Gowns reduced to \$2.95  
A few French garments reduced, \$5.95 to \$10.75.

Lingerie, BULLOCK'S, Fourth Floor, Broadway

### CITY MOVES IN PLAN FOR FERRY LINE

Harbor Board Acts to Get Land for New Terminal on Front at San Pedro

General Manager Edwards of Los Angeles harbor yesterday was directed by the Board of Harbor Commissioners to notify the Southern Pacific Company of intention of the board to acquire frontage on the main channel, between Fifth and Sixth streets, San Pedro, as the first move toward establishing a new and adequate passenger and vehicular ferry system between San Pedro and East San Pedro.

Harbor Engineer Nicholson, who presented plans for the San Pedro terminal for the ferry, pointed out that congestion of rail, motor and passenger traffic at the foot of Fifth street prevent the latter from providing adequate room for cars lined up awaiting transportation across the channel. Under his plans, it is proposed to use the area to be acquired to provide space for a traffic line that will not be hampered by railroad operations.

City Attorney Leach informed the commission that the agreement of 1917 between the Southern Pacific and the city for filling in the frontage between First and Tenth streets provides that a portion of the frontage may be taken over on an agreed value. The orders issued to Edwards yesterday are to open negotiations with the railway as to the value it places on the acre of frontage required.

The San Pedro Transportation Company still has four years before the expiration of its vehicular ferry franchise and uses the present eastern terminal. Just how the proposed ferry and that now in operation will use the same terminal is a question to be settled.

### Bank Policeman Arrested After Stabbing Affray

Albert B. Crow, 47 years of age, of 1234 West Forty-seventh street, a special bank policeman, was arrested yesterday charged with assault with a deadly weapon. Detective Lieutenants Stone and Donohue of the University division accused him of stabbing Charles Gabriels, captain of the Manual Arts High School football team. Gabriels lives at 4637 South Normandie avenue.

Crow and Gabriels quarreled when their cars bumped a few days ago. Police charge that Crow drew a jack-knife and slashed Gabriels until he was disarmed by George and Henry Bostelman of 1250 West Forty-seventh street. Gabriels was treated for cuts at the Georgia-street Receiving Hospital.

### Bullet Fails to Kill Youth

A bullet was flattened against the skull of Bobby Payne, 21 years of age, yesterday while he was in his father's service station at 4789 Alhambra avenue. Detective Lieutenant Sullivan reported that Payne attempted suicide after a disagreement with Miss Alice Miller, 19, of 4723 Bernice street.

According to the police record, Payne fired a .32-caliber revolver at the right side of his head, the bullet plowing under the scalp and flattening out against the bone. Payne was taken to the Georgia-street Receiving Hospital, where Dr. Sebastian pried off the bullet. Payne was sent home in company with Miss Miller, apparently little the worse for his unusual experience.

### Two Sentenced to Jail Terms

Henry Leach and Forest Higgins, convicted last week of contributing to the delinquency of two El Monte girls, yesterday were sentenced to serve six months in the County Jail. Motions by Defense Attorney Rose for arrest of judgment and a new trial were denied by Judge Wilson, who stipulated bail of \$1000 each for the men pending appeal.

Leach, a former employee of the flood control department, and Higgins were found guilty on two counts each. They are charged with having given intoxicating liquor to the two girls, resulting in Henry A. Keeley, principal of the school they attended, causing the charges to be brought against them.

### POLICE VINDICATION SEEN IN HAYES PLEA

Detective Captain Cahill yesterday asserted that he has been vindicated by the surprise plea of guilty announced Tuesday in Superior Court by Robert (Zeke) Hayes, convict and attempted jailbreaker. Hayes was a partner of Jack Hawkins, who was killed while trying to shoot his way out of the jail elevator. These dangerous criminals attempted to gain sympathy for themselves in a pending prosecution by appearing before the 1928 grand jury and hurling charges of graft and criminal trickery against police officers," said Capt. Cahill. "It even was intimated that the police were trying to railroad Hayes and Hawkins. Hayes's guilty plea is a vindication for myself and other officers falsely accused."

### HEARING ON SHOOTING BY WIFE POSTPONED

Preliminary hearing of Mrs. Katherine Carroll, accused of shooting her husband, Ray Carroll, in the mouth, during the progress of a family argument at their home, 460 North Las Palmas avenue, again was continued yesterday by Municipal Judge Ambrose. The delay was granted at the request of James W. Pierce, defense counsel, who told the court he had just been employed and had not had time to familiarize himself with the case. Pierce is the third attorney to represent Mrs. Carroll since her arrest on the 7th inst. Judge Ambrose ordered the case up on May 1, next, for hearing.

### Marriage Fraud Suit Dismissed

Lillian Goodfellow, who was married to E. E. Thomas, an ordinance violator, yesterday was dismissed from her \$50,000 suit for marriage against Dr. J. W. Ambrose, who was her superior Judge and had not had time to familiarize himself with the action.

Lillian Goodfellow and her husband were married in a ceremony conducted by Dr. Ambrose, who was her superior Judge and had not had time to familiarize himself with the action.

"Bad laws, if they exist, should be repealed as soon as possible; still, while they continue in force, for the sake of example they should be religiously observed."  
 —Abraham Lincoln.

### Today's Bible Text

For my thoughts are not your thoughts, neither are your ways my ways, saith the Lord. Isa. lv:8.

### A LITTLE SHORT

The trouble with a lot of our jurors is that they do not carry their convictions with them.

### NEED HARSH TREATMENT

Maybe if there weren't so much sentimentality in this world there would be less vice and crime.

### ACTS LIKE GARBAGE

A bill is being pressed which makes it a misdemeanor to throw garbage on a State highway. This may make it a bit hard for some of the boys to get rid of their cigar stubs.

### CROW IN GRACE

In spite of reports to the contrary we are growing in grace. The churches of the country increased their membership by more than 1,115,000 communicants last year. Only three denominations failed to register a gain. The fact remains that spiritually we are doing better than had been thought.

### IN THE RED

The Democratic National Committee still has quite a deficit to worry over. If a Democrat ever worries. Gov. Smith rounded up something like \$200,000 with his book, but the committee still owes over a million. It is flattering, however, to realize that the organization was able to get credit to that extent.

### UNION RULES

It is mentioned that the revolutionary movement in Mexico has been running as if directed by the unions. Anyhow, the rebels are inclined to insist upon a six or eight-hour day and they want double pay for fighting after hours or overtime. But when it comes to making a getaway after hours even a walking delegate feels the urge to run.

### APPLE BREATH

A scientist who has been making some research in the domain of nature finds that trees and plants breathe and respire much the same as humans and that they may also be susceptible to emotions and influences that away humanly. He found that an ordinary apple indicated the same respiration as a person. He says that even the juice of the apple will breathe. Probably this will explain why cider has such a kick in it.

### VOICE OF SCIENCE

Dr. Alex Hrdlicka, the famous scientist, tells the American Philosophical Society that the American of the remote future will be much bigger and handsomer than the men of today. He will have a bigger brain and a smaller waistline. Also he will live much longer and take life easier. He may have only four toes, but he will never miss the fifth. The professor has a name that suggests hard liquor, but that is not what is talking. He really is a wonder.

### LIONS IN THE WAY

It seems that we have far too many sea lions off our coast and they take too heavy toll from the fish that we need in our business. They are saying that a husky lion of the deep will clean up about fifty pounds of fish in a day. If he had to get it at a delicatessen it would cost him \$20 or \$30. So it may be seen that a vast flock of alien sea lions bring no comfort to our fishermen. Their room is better than their company. But how to get rid of them is still a problem. They are not to be shoofed off with a jazz band or a couple of firecrackers.

### POLITICAL FARMERS

The heads of the various farm organizations in the country do not seem to be able to agree upon any fixed plan for agricultural relief. Nor are they all ready to accept the program outlined in the Republican party platform—although it was enthusiastically endorsed by the voice and vote of America. The trouble is that many of these organizations are in the keeping of fuzzy politicians rather than practical farmers and they have to indulge a certain amount of haggling for publicity purposes. If the farmers could all start afresh under a new dispensation and government auspices they would probably do better in the long run.

### THIS SUBSIDY SCHEME

The export debenture plan of the Senate Committee on Agriculture, so devastatingly analyzed by President Hoover in his letter to Senator McNary, is probably the biggest gold brick offered by politicians to the American farmer since free silver. It wears the thin disguise of a device intended to stimulate exports, on the theory that this will raise the domestic price of the thing intended to be exported; but it is in reality a direct subsidy from the American Treasury—and a subsidy granted not to any American, but to the world at large outside the United States.

As President Hoover shows, no farmers, but only a few speculators, would obtain any benefit from it whatever. Inside national boundaries, and they only temporarily; while the foreign purchasers would be benefiting all the time it was in effect. If it did succeed in raising prices it would stimulate production, which is the precise thing that everybody is trying to avoid.

The principle involved is so simple and easily understood that it is surprising to find such a scheme advanced again, after the blast which President Coolidge directed against it in his veto messages of the two McNary-Haugen bills. No form of subsidy can possibly do any good to an industry which is overdeveloped, already producing more than the market can absorb at a price that is profitable to the producer, and that is the situation of agriculture today. The only thing a subsidy can accomplish is to stimulate; the effect of stimulation on an industry already too active is obviously to make it more so.

If the Senate is insistent upon opening the United States Treasury to the farmers, let it do so directly, so that the proceeds will at least reach them. Let it be provided that every man engaged in agriculture is entitled to a pension, for instance. This would relieve the financial difficulties of some, at least, of the farmers, without giving our foreign competitors the advantage of better purchasing facilities than we ourselves enjoy. The pension should be restricted, of course, to those individuals who could show that they had been continuously engaged in agriculture for five years prior to January 1 of the current year, so there could be no rush on to the rolls of newcomers to the farming business.

Any Senator who advocated such a pension scheme would be branded at once as a candidate for the asylum; yet it is in fact more sensible, would cost less, and would be more effective in relieving real distress than the "export debenture" plan, since every nickel of it would reach the persons for whom relief is intended.

The American people put President Hoover in office with the understanding that he and not Congress would have the principal say as to how the various problems confronting the national government were to be solved. The President has managed to get his ideas on farm relief incorporated into a bill which does promise a real amelioration of the situation. That measure should be adopted, without the inclusion of any schemes certain to wreck the whole program.

The Federal Farm Board measure as drawn by the House Agriculture Committee will not create an agricultural Utopia. There is a great deal under it, that the farmer will have to do for himself. He will have to learn, for instance, to co-operate—something very difficult for as individualistic and independent a person as the average agriculturist has always been. But it does offer a form of assistance that will be a help and not a hindrance; and no kind of a subsidy can possibly help.

A subsidy paid not to Americans, but to foreigners who are in competition with Americans, is about as senseless a thing as could be imagined. No nation, not even the very wealthy United States, could assume such a handicap as this would impose, and stay long in business.

In this county, automobile traffic is so heavy, especially on Sundays, that any old crossroad on a main highway is a good place for any amusement device. The Shetland pony "riding academy" near Eagle Rock is another illustration. People

### TIGER FOLDS HIS WINGS

In the election of John F. Curry, a hard-bolled distiller leader of the old school, to be the new boss of Tammany Hall, the Tiger has laid away all his angelic pretensions. Under Curry's leadership, unless all signs fail, this powerful political organization will devote itself solely to the task of getting as many jobs and city contracts for the boys as can be obtained, and will give up all but incidental interest in State and national politics. That Leader Curry, who may develop into Boss Curry, reviving a title shushed into the background by the late Charles Francis Murphy, knows his New York cannot be denied; that he is aware that much of anything lies beyond what is colloquially known as "de Nort" River is quite unlikely.

Al Smith and Senator Bob Wagner are, at least temporarily, pushed out of the picture, and the fine scheme to make Wagner Mayor and Smith Senator, so as to build up the later for a renewed Presidential attempt in 1932 has gone tumbling. The decision by the Supreme Court in the subway fares matter inflated the stock of Mayor Walker quite as much as it depressed that of the Interborough Rapid Transit, and Walker appears certain, now, to be renominated. Wagner, Smith and Surrogate Foley, joint heirs of Murphy, will hardly give up without a struggle; it is a Tammany tradition to die fighting, and Smith's proud boast of last summer, when he was accused of subversion, "I give orders to Tammany Hall" will either have to be made good or Smith's scalp will have to hang at Curry's belt.

The national significance of such a fight is obvious.

### HURLEY BILL BEATEN

Workingmen, contractors, taxpayers, assessment payers, and Californians generally, have cause for rejoicing in the burying by the State Assembly, for this session at least, of the Hurley bill which would have forbidden the employment of any alien upon any public work within the boundaries of California. While a technical defeat for that tiny and selfish coterie which feverishly argues to itself the title of "labor" rank and file of men skilled and semi-skilled, who really are entitled to the designation, will benefit very greatly. It was upon them that the burden sought to be imposed by the Hurley bill would have fallen most crushingly. That public improvements would

## LEE SIDE O' LA

ANGELENOS aren't extremely superstitious. Yesterday as we walked in Third street near Spring we saw a ladder forming a hypotenuse and nonchalantly stepped around it. Then we observed a lamp post which seemed to need a little support, so we leaned against it, pencil in hand, and tallied the next 100 persons who passed that way. Eighty-two of them walked under the ladder, only eighteen being as weak-minded as we had been. Fully twenty others, however, would have gone around instead of under the ladder had they seen it in time; but, failing to notice it until almost under it, they merely shimmied a moment, looked self-conscious and boldly walked straight ahead. One Mexican girl crossed herself as she passed under it.

### Round Trip or Bust

Birds without feathers also flock together. South and southwest of town, one runs into a veritable nest of flying fields. On one of these is a huge sign:

FLY \$1.00 UP

Wait Sinclair, with whom we were driving, shook his head with Scottish caution. "One-way rates don't interest me," he said. "I want only a round-trip ticket."

### Still Fate-Bound

Besides auto row and aviation row, we have a pet row out that way. Puppies, parrots, fancy chickens, rabbits and various other pet stock are advertised along the way, and on one high board fence is the sign, "Goldfish."

At last, we thought, the goldfish has some privacy and has quit competing with the backless bathing beauty. But the fence was only for display purposes, rather than the result of modesty. It was only along the highway, and behind it the poor goldfish were swimming around in transparent bowls, as of old.

### Busy Corners Far From Town

Away out in the fields, down toward San Pedro, we came on a roller coaster — and the highway was blocked. Several hundred cars were lined up there, and not only children and young men and women, but quite a few men and women past 50 were patronizing the amusement device.

In this county, automobile traffic is so heavy, especially on Sundays, that any old crossroad on a main highway is a good place for any amusement device. The Shetland pony "riding academy" near Eagle Rock is another illustration. People

shrink to the vanishing point and that the cost of those which could not be put off would rise enormously. If a State law should be enacted permitting only native-born or fully naturalized citizens to be employed, was the unanimous testimony of all those qualified to speak.

How the bill was slipped through the Senate without public outcry remains not fully explained. There appears to be a lack of liaison between the business organizations of the State and the legislative body, which needs correction. The "labor" lobby at Sacramento needs closer watching than it has been getting.

### WOMEN'S WEALTH

Forty per cent of the wealth of the country is in the hands of women, according to the Laurence Stern Company, Chicago bankers.

Another statistician predicts that if women continue to acquire wealth at the present rate, in a few decades she will rule the financial world.

Women are estimated as the beneficiaries of 80 per cent of the life insurance policies in force in the United States today. They already pay taxes on \$2,500,000,000.

Fifty per cent of the stock of the American Telephone and Telegraph Company is held by women. It may seem fitting that she should control the talking industry of the republic. But when it is also known that she holds more than 50 per cent of the steel stock, it ceases to be a joke.

Among income tax returns of more than \$100,000, women lead with 54 per cent. They now constitute 35 to 40 per cent of the bond-house customers and are believed to receive 65 to 70 per cent of all states.

Eight and a half million women are now employed in profitable occupations. Her ability to support herself is showing itself in the divorce statistics. As many women as men are millionaires. New York, Pennsylvania, Illinois and California lead in order in woman wealth.

Another impressive fact confronts man: more girls than boys are graduating from the schools. Women also have their clubs for culture; men have their lodges for recreation and social purposes. Knowledge is power and the end is not hard to foresee.

With knowledge in the head and wealth in the hand of woman, a matriarchy is not at all impossible. Nature usually evens things up. The arc may be long, but the pendulum is swinging. Woman now openly and unblushingly makes approaches for matrimony. This jolts some of the mid-Victorian left-overs; but the female is no longer bothered by history or skirts. Man was once in the saddle; but that seat of power has been scrapped. Watch traffic and behold woman at the wheel. The hand that rocked the cradle is

hereabout as so hard up that every week-end they hop into their cars and cruise far and wide, desperately seeking some semilegitimate excuse for spending their money.

### Well, Aren't They Usually Talking?

Lee: How come? The sign on a Broadway speak — wheezy reads:

### THE DUMMY

100% Talking

—N. York.

### Book Prohibition

If a ban on books, like the taboo on booze, should increase man's manifold prohibitions, would the laws prescribe dry books to persons and popularize hip-pocket editions?

Would cellars still stocked with seltzer some day be raided, if reading were "regulated"? When censors get busy the public will pay a premium on volumes unexpurgated.

TOM T. NESS.

You can't scare us. Even bootleg books couldn't possibly be more plentiful than some now discussed at the very best dinner tables.

### Should Have Been "Deceit"

In "Today's Bible Text" the other day a typographical error made the quotation read: "Neither was any deceit in his mouth."

"It defied something good to eat?" asks A. T. No, sir, it's something darned hard to take.

And R. G.—just to show how keenly that Bible text is read—clips the same paragraph with the comment: "What wonderful teeth those old boys had!"

### Spring in the Southland

Recently we published a whole column of contributed spring poems headed by one by Mrs. H. B. C., to which we attached a gentle gibe. Back she comes with an explanatory letter, appropriately accompanied by a sprig of freshly gathered catnip. And—oh, well, this being spring, we're going to publish it:

Once I followed the shadow of a dream across the night and came upon a dream of gardens where there were neither barren boughs nor empty nests to rob the year of loveliness and song. Spendthrift of joy was I, taking my fill of voluptuous spring. No shy, shivering little April, trying to hide the bareness of her win-ter-blacked limbs beneath a gossamer veil of palest green came down

the year to greet me. Mature and fully clothed she stood upon the hills, indifferently weaving the roses of March into garlands for May. When I looked down at beauty, I turned back along the star-strewn path and woke to the ecstasy of the season's first mockingbird.

J. L. LAMB.

George D. Melkilejohn, LOS ANGELES, April 23.—(To the Editor of the Times:—) Your reportorial staff of the fine writing-up of the late George D. Melkilejohn, assistant Secretary of War under President William McKinley, which was carried in connection with obituary notice. But even though your review was comprehensive and altogether correct, there was one historical fact in the life of Gov. Melkilejohn, which was a source of considerable pride to him that was evidently overlooked. It should be a matter of especial interest to the people of Los Angeles and Southern California. The responsibility of the Federal government giving its approval to San Pedro Harbor for Los Angeles rested upon the final approval of the Secretary of War. Following the resignation of Secretary of War Alger, it was Acting Secretary of War Melkilejohn who put the final stamp of approval of the government of the United States upon the project. The Chamber of Commerce of Los Angeles, at the time, gave a banquet in his honor.

### SAVING SOULS

By The Foothill Philosopher  
 Billy (Rev. William) Sunday is said to be planning a worldwide evangelical campaign to be conducted through the medium of talking pictures, whereby he would "save souls even after his own death." Billy's first picture talking sermon, it is announced, has for its purpose the "planting the standards of prohibition in far-off English-speaking parts of the earth"—evidently every where east of Suez.

It's an interesting idea, this, of immortalizing one's gospel so that it will continue to influence the world after the death of the evangelist—but it is not new. As a matter of fact, the idea is as old as evangelism, regardless of the new methods inaugurated from time to time throughout history.

There never has been a time when the words of a true prophet or sage failed to find a medium to broadcast them. Billy Sunday need not worry. The things a man says are meaningful and powerful in so far as they represent the spirit's goodness and glory. If Billy says words which live in them the light and fire of truth, they will not die though the world lose all knowledge of the printing art, of radio and of talking pictures.

JAMES WARNACK.

Throughout Russia there are 203 theaters, including twenty-six in Moscow and fifteen in Leningrad. There are 28,000 amateur dramatic clubs, while fifteen movable theaters work with great success in villages.

THE LEAGUE AND THE WHALES  
 By James J. Montague  
 The League of Nations had determined to make rules and regulations for the protection of young whales.

Farewell to the worries of baby cetaceans. Pursued by rude mariners over the deep. They have now become wards of the great League of Nations. And while still they are babies they are sweetly shall sleep.

No pot-hunting vessels henceforth shall alarm them. No more from harpoon and from lance need they hide. No flesh-ripping bombs shall have power to harm them.

As they rest on the breast of the tremendous tide. In their yearly migrations they never need falter. In fear they'll be slain for their blubber and bone. They may range from Cape Nome to the Straits of Gibraltar. Assured that pursuers will let them alone.

A hand from Geneva is stretched to defend them. No rude, brutal skipper can make them his spoil. Until they are adults shall safeguards attend them. The arm of the League the despoiler shall foil.

But alas when at last they have grown to maturity. And carelessly cruise into inlets and bays. No more they'll enjoy the delightful seep. Which hedged them about in their infantile days. For though for the nonce they can dart about airily. And spout and cavort off Cape Cod or When they're aged and frail they will have to swim warily. For then they'll be out of control by the League.

LETTERS TO THE TIMES  
 (Name and address of writer must accompany all letters for this column. Letters of a personal nature or involving controversial religious questions are not acceptable.)

A Ten-Hour Day  
 PASADENA, April 21.—(To the Editor of the Times:—) I would like to see they plea for less work for school children to that of Mrs. Christine Sterling, whose excellent letter was printed in the Times of April 20. It has long been recognized that the food that they assimilate, and how true this of the supplies that the brain receives from books. I am shocked to find that, even here in the land of sunshine, children get little profit from the fact that they might be enjoying the benefits of fresh air and the sun's rays, for school hours are out, and when my boy should be out, he is working hard at lessons, after having spent six study hours in school. Sometimes he works as much as four hours at home, and it is not because he is stupid, although he may not be able to learn as fast as some boys. No workman now has a ten-hour day, so why should our children, who need their sleep, their health to take up the tasks of the future, and become good American citizens, not a race of neurotic invalids?

ABBIE H. C. FINCK.

One Who Survived  
 BURBANK, April 22.—(To the Editor of the Times:—) The Times of the 18th contains a letter from Christine Sterling re home work for school children. Please allow me to relate a case in point contrary to said opinion.

The case is of an individual who, brought up on a farm, finished district school equivalent to grammar grade at 16, worked his way through an academic and business course before 20, taught school winters, worked farm summers and took an institute course equivalent to junior college, studied medicine and surgery, graduated as M. D., spent four-year college course during which time burned the midnight oil many a night. The most of recreation was at chopping wood or similar work.

Now, past 51 years of age, having practiced medicine for forty-five years in country and city, I challenge C. S. to produce anyone who can write a better hand or has better eyesight or steadier nerve at said age.

I take notice that half of the time or more the school children's six school hours are spent on the playgrounds or streets. At a time when they get their lessons if not at night?

I do, however, maintain that children of weak constitution or tubercular tendency should be kept in the open as much as possible.

J. L. LAMB.

George D. Melkilejohn, LOS ANGELES, April 23.—(To the Editor of the Times:—) Your reportorial staff of the fine writing-up of the late George D. Melkilejohn, assistant Secretary of War under President William McKinley, which was carried in connection with obituary notice. But even though your review was comprehensive and altogether correct, there was one historical fact in the life of Gov. Melkilejohn, which was a source of considerable pride to him that was evidently overlooked. It should be a matter of especial interest to the people of Los Angeles and Southern California. The responsibility of the Federal government giving its approval to San Pedro Harbor for Los Angeles rested upon the final approval of the Secretary of War. Following the resignation of Secretary of War Alger, it was Acting Secretary of War Melkilejohn who put the final stamp of approval of the government of the United States upon the project. The Chamber of Commerce of Los Angeles, at the time, gave a banquet in his honor.

THE NEW WARFARE  
 BY EUGENE BROWN  
 One of our trained observers at Geneva intimates that the next red-headed lobster who tries to start a war will be stepped on by a steam roller.

Crusaders in the disarmament group have made such progress that Mussolini has ordered that his next cruiser be equipped with nothing more offensive than a castor oil.

The League of Nations is taking over the war-making machinery of the world and if a contest ever comes it will be run off under a regular league schedule. Maybe it will be in a time card and according to ground rules.

Instead of having a standing army costing millions of dollars each country will be allowed to have a national team of champions, consisting of a captain and twenty-four men. These representatives will be uniformed and maintained by the government to which they are accredited, but will be kept at the League barracks in Geneva.

When a country has been affronted or its honor wronged, the point where war is the only recourse, the officers of the League will step in and arrange the details. The teams of the rival nations will be told to go into training and have their parts pressed.

The war will be held in the city offering the biggest guarantee and a maximum of \$20 may be charged for breaking the back of the taxpayer. It is figured that the next war can be pulled off at a neat profit above expenses. The picture rights alone should be worth a lot of money.

The League would name the general officers of the war, which would include the referee, timekeeper and scorer. All wars would be fought with force, and if lethal weapons be demanded shotguns loaded with rock salt may be brought into commission. In such case there would be no killing, but the lines would be established by the referee.

The battle in either event would be fought in three general skirmishes of one hour each, when the final whistle is blown the war

## IN CONDITION CROMWELL IN NICE SPOT

Trojans Just About Cinch Fresno Relays Due to Entry of L.A.A.C. Stars

(Continued from First Page)

The Mercury team doesn't exactly figure to win the meet, but it will cause all hands—even the Trojans—considerable anxiety before the affair is over. In addition to the two weight heavies, Cromwell has a variety team of Warren Woodruff, Vic Fitzmaurice, Bryce Schurr and Ed Gloege. But it is doubtful if this quartet will be able to keep pace with the Mercury runners. Nierbach and Cium can both run under two minutes. Burton, while at Utah last year, raced the half in under 1:35, and Carter can run fast enough to beat almost anybody in this event. Another strong contender loomed when an unattached team announced its entry, composed of Lee Hansen, the former Oregon State star, Francis Hammett, transfer from Louisiana State, J. Wakefield Burke, formerly of Chicago, and Earl Callahan, the Manhattan Arts star.

## Pomona Team Not Entering Fresno Meet

CLAREMONT, April 24. (Exclusive)—The question of the entry of a Pomona College relay team in the Raisin Day games at Fresno, which has been hanging fire for more than a week, was definitely settled today when Coach Bob Strehle decided not to sanction the trip. After a series of time-trials, with the six-men alternating, Strehle declared that there is not much use in entering the team, inasmuch as its best mark was too slow to give much hope of a place. The injury sustained by Hank Cobb, quarter-mile, who pulled a muscle in his leg, was the big handicap of the squad, although it had not been showing up well from the first.

There should be some rough, as well as fast exchanges tonight as the athletes get to rubbing shoulders rather emphatically Monday night. A few loose bumps, and they will be mixing so freely that the lure of a good scrap will be thrown in with the challenge of good hockey.

Apparently convinced that Artie Somers is all he is touted as being, the Millionaires will have a close watch on the leading scorer of the Pacific Coast League tonight to see that he doesn't get away to score two goals as he did Monday night.

Great reliance will be placed on "Peaches" Headley, Burr Williams and Bill Phillips in the matter of defense tonight, while it will be hoped that "Wolf" Feltner will come through with some goal scoring, just as he did Monday night.

## ARLETT AND CARLYLE STAR AS OAKS ANNEX

OAKLAND, April 24. (AP)—Heavy hitting by Outfielders Arlett and Carlyle brought Oakland a 10-6 victory over Sacramento today. Carlyle hit a homer, two triples and a single and Arlett came through for a triple, double and single. The Oaks knocked Kunt out of the box. Dumovich, who went to the rescue of Daglia on the mound for Oakland, got credit for the victory. The score:

SA	OAK
French, 2b, 1	Arlett, 1b, 3
Monroe, 3b, 1	Carlyle, 2b, 2

## JAPANESE TO GIVE PROGRAM

Play Will be Feature of Trojan Affair

G. Kuroyanagi and K. Ohno, Authors of Farce

Japanese students of the University of Southern California will present a program under the auspices of the student body of the college of arts, letters and sciences in the University Auditorium, 3561 University Avenue, tomorrow at 7:30 p.m. The Southern California Japanese Students' Club has arranged the program.

"Chiochi," a farce written by Messrs. Seno, Ohno and Kuroyanagi, will be featured in the program. The play is a comedy of errors and is set in a Japanese town. It is a farce of the highest order and is sure to bring down the house.

The Board of Harbor Commissioners yesterday directed Secretary House to write a letter to each member of the State Legislature from this part of the State urging favorable action on Assembly bill No. 373, now pending, to place under the jurisdiction of Los Angeles all tidelands annexed to the city since 1911.

PLASTERER DIES ON JOB

Charles Jones, 60 years of age, a plasterer, fell dead yesterday while working on a scaffolding at 1906 South Curson street. F. S. Bender of 961 West One Hundred and Twenty-first street, a plasterer working beside Jones, seized him and broke his fall as the man's head crashed through a window. Heart disease is recorded as cause of death.

ILLINOISANS TO GATHER

Two well-known film players, it was announced yesterday, will feature the program to be presented tomorrow evening at a reunion of former residents and tourists of Illinois, at the California Auditorium, 1137 South Hope street.

Following the program, arranged by Anita Arlis, there will be dancing to music by Alf Redmond's State Society Band. Dr. George L. Henson, president of the Illinois Society, will preside.

Approval Given

Pleas for Funds

Three requests to the Police Commission involving additional expenditures during the remainder of the fiscal year were approved yesterday by the City Council.

Subject to the approval of the Mayor, the Council appropriated \$5000 to carry on the campaign for the suppression of the traffic in narcotics and \$4500 to move the present Venice City Hall a short distance in order that work may be started at once on the building of the new central police station in Venice.

The Council also authorized the commission to receive bids on fifty-three motorcycles to replace machines now in use. The commission had asked for fifty additional motorcycles and twelve side cars, but the Council's Finance Committee had recommended that the additional machines should be provided for in the next year's budget.

Shipment Sets

Air-Mail Mark

A shipment of air mail reputed to be the largest single air mail shipment ever made, consisting of 25,000 letters and requiring two planes to carry it, left Rochester, N. Y., at noon yesterday bound for Los Angeles.

TRIOJAN-NEW MEXICO

DEBATE TOMORROW

"Resolved: That the plea of temporary insanity in defense of crime should be prohibited by law" will be the subject of debate tomorrow at 8 p.m. between teams of the University of New Mexico and the University of Southern California in Porter Hall of the latter institution.

Thirty-sixth Place and University avenue. The Oregon style of debate is allowing cross-examination of opposing speakers, will be used. John Watson and Gerald Webb of New Mexico will take the negative position, opposing J. Leo Harris and Edwin Jefferson of Southern California.

CANDIDATES TO SPEAK

President C. W. Farrell of the Hollywood Junction Business Men's Association last night announced a public meeting for 7 o'clock tomorrow night at the Thomas Starr King Junior High School, Fountain and Myra avenue. All candidates for Councilman for the First and Twelfth districts will speak as will Mayorality candidates Bonelli, Porter and Greer.

## BURGLARY CASE HINGES ON DECISION

Charges Against Deutsch Taken Off Calendar Until Prison Board Reports

Two counts of burglary against Walter N. Deutsch, so-called Jekyll-and-Hyde burglar, arrested several weeks ago in an asserted burglary attempt, were taken off the calendar yesterday morning when Deutsch appeared in Judge Wilson's court.

Deutsch was scheduled to go on trial, but upon motion of the prosecution the counts were removed from the calendar pending decision of the State Prison Board regarding the length of sentence Deutsch is to serve for second-degree burglary, to which he pleaded guilty in Judge Egan's court last week. Should he receive the maximum of fifteen years in prison it was intimated the additional counts will not be prosecuted.

At the time of his arrest, police assert Deutsch had amassed plunder amounting to more than \$300,000 during his burglary operations. They declare he maintained an office in the business section of the city, posing as a manufacturer to facilitate the disposal of his plunder.

At his court appearance yesterday it was declared Deutsch has been implicated in forty-nine burglaries.

Divorce Denied for Family Row

Ordinary domestic quarrels, unaccompanied by kicks and cuffs, are not sufficient to win a divorce in Superior Judge Rosenkrantz's court. It appeared yesterday when the judge refused to give Mrs. Elsie Waycock a decree from Albert N. Waycock.

"Your complaints are too trivial and are not sufficiently supported by evidence to warrant such a serious step as a bill of divorcement," Judge Rosenkrantz said.

"Go home and think things over."

Tragedy Ends Young Sailors' Raft Voyage

OLENDALE, April 24. (Exclusive) Navigation of an improvised raft ended tragically at Montrose near here today when Jesse Cox, 9-year-old son of John H. Cox, 2330 Mira Vista avenue, was drowned in a rain-filled gravel pit on La Cresenta avenue and two of his playmates narrowly missed going with him to the same watery grave.

The body was not recovered until 8 p.m. after continuous dragging. An inhalator was used for forty-five minutes, without avail.

With Leonard Hale, 9, and Junior Salisbury, 7, the boy hurried to the pit after school this afternoon and boarded a raft they had fashioned from some planks. The pool, which is approximately 100 feet in diameter, held fourteen feet of water, the drainage of the season's rains. Scarcely had the three paddled the raft away from the embankment when it spilled them overboard.

The Salisbury boy clambered up the bank and ran home. The cries of young Hale attracted the attention of Frank and Richard Arquillas, owners of the pit. They fished the semiconscious lad out and he then reported that Cox had sunk.

Approval Given

Pleas for Funds

Three requests to the Police Commission involving additional expenditures during the remainder of the fiscal year were approved yesterday by the City Council.

Subject to the approval of the Mayor, the Council appropriated \$5000 to carry on the campaign for the suppression of the traffic in narcotics and \$4500 to move the present Venice City Hall a short distance in order that work may be started at once on the building of the new central police station in Venice.

The Council also authorized the commission to receive bids on fifty-three motorcycles to replace machines now in use. Air-Mail Mark

A shipment of air mail reputed to be the largest single air mail shipment ever made, consisting of 25,000 letters and requiring two planes to carry it, left Rochester, N. Y., at noon yesterday bound for Los Angeles.

TRIOJAN-NEW MEXICO

DEBATE TOMORROW

"Resolved: That the plea of temporary insanity in defense of crime should be prohibited by law" will be the subject of debate tomorrow at 8 p.m. between teams of the University of New Mexico and the University of Southern California in Porter Hall of the latter institution.

Thirty-sixth Place and University avenue. The Oregon style of debate is allowing cross-examination of opposing speakers, will be used. John Watson and Gerald Webb of New Mexico will take the negative position, opposing J. Leo Harris and Edwin Jefferson of Southern California.

CANDIDATES TO SPEAK

President C. W. Farrell of the Hollywood Junction Business Men's Association last night announced a public meeting for 7 o'clock tomorrow night at the Thomas Starr King Junior High School, Fountain and Myra avenue. All candidates for Councilman for the First and Twelfth districts will speak as will Mayorality candidates Bonelli, Porter and Greer.

## INTEREST IN STUDENTS' WORK GAINS

School Week Programs Here Attracting Large Numbers of Parents

Interest in Public School Week, which opened last Monday, has been better than ever before and school auditoriums have been crowded wherever programs have been offered, Robert A. Odell, former president of the Board of Education and chairman of the southern section of the Public School Week committee, said yesterday.

At Manual Arts High School an exhibit of school activities and projects has been on display every day during the week from 8:30 a.m. to 3 o'clock in the afternoon. This has been unusually well attended.

SOUVENIR PROGRAM

A souvenir program, ten inches square and containing six pages, has been prepared for distribution tomorrow night at Manual Arts High School. Included in the entertainment will be glee club numbers and band music.

At Los Angeles High School a special program has been arranged for tomorrow night with Dist. Atty. Frito as speaker.

Schools in which programs will be presented tonight are: Belmont, Fairfax, Serrano, John Adams, San Pedro, Mount Vernon, Watts High School, and Sunset Masonic Temple.

OTHER OFFERINGS

Tomorrow night programs will be presented at the following schools: Fisher Drive, John Burroughs, Gardner street, Eagle Rock High, Burbank Junior High, Franklin High, Polytechnic High, Reseda Grammar School, Farmdale High, Rosendo Beach High, Lindbergh School, Lynwood, and Palms Grammar School.

Tragedy Ends Young Sailors' Raft Voyage

## SOCIETY

BY JUANA NEAL LEVY

One of the lovely weddings of the month was that of yesterday afternoon when at 4 o'clock Miss Frances Nelson Vail, daughter of Mr. and Mrs. David Albert Vail of South Pasadena, became the bride of Mr. and Mrs. John J. Pollack, son of Mr. and Mrs. John J. Pollack, the ceremony taking place in the lovely gardens, the altar being erected in an arbor, with white roses and bridal wreath predominating, against the background of Cecile Brunner roses and trailing ferns.

The bride, given in marriage by her father, was charming in a gown of white satin and tulle, the bouffant skirt of tulle, while the princess lace was employed in the bodice, embroidered in pearls, the veil of princess lace being an heirloom and having been worn by numerous brides in the family. She carried an arm shower of orchids, gardenias and lilies of the valley.

Miss Marjorie Vail assisted her sister as maid of honor, wearing a French blue dotted tulle, built on bouffant model. She carried yellow tulips tied with tulle. Other attendants, Mrs. Daniel Gage, Jr., Miss Margaret Traylor, Miss Elizabeth Nash and Miss Dorothy Dudley, were frocked in gowns of hand-painted organdie and carried leghorn hats overturned, filled with spring blossoms in the pastel shades to harmonize with their frocks. Miss Traylor in blue, with orchid satin bow; Miss Dudley, pink with peach colored sash; Miss Nash, peach with blue trimming; and Mrs. Gage orchid with bow of lavender.

Herbert Briley served Mr. Pollack as best man and the ushers included Paul Peck, Godfrey Rueser, Francis Whitney and Bruce Holloman.

Mrs. Vail received her guests in a becoming frock of white headed georgette with shoulder spray of pink camellias and forget-me-nots, while Mrs. Pollack was in orchid lace with hat to match and corsage of yellow tea.

A reception and wedding dinner followed, after which Mr. and Mrs. Pollack left by motor for a honeymoon in the north. After their return they will make their home at 588 South Mentor street, Pasadena. The bride was graduated from LaSalle Seminary in Auburndale, Mass., while Mr. Pollack claims the University of Washington as his alma mater.

### Honor Cousin

Honoring their cousin, Giles Gilbert, American pianist, who is appearing in concert at the Pasadena Community Playhouse Sunday afternoon, Dr. and Mrs. William Le Moyne Wills entertained with a small informal tea at their home, 2355 Monterey road, San Marino, last Saturday afternoon.

Spring flowers and ferns were used to adorn the tea table and living-rooms. Assisting the hosts at the tea table were Mrs. J. J. Hunker and Mrs. Henry Norman Jensen of Pasadena and Mrs. Thomas Bruen Brown of Los Angeles.

Another delightful affair given in honor of Mr. Gilbert was the reception tea with which Mr. and Mrs. Charles P. McCullough entertained Sunday afternoon at their lovely home 800 Arroyo Drive, Pasadena, the hours being from 4 to 6 o'clock.

Great baskets of spring flowers and trailing grasses were used in decorating the studio living-room where Mrs. Page Morris, grandmother of Mr. Gilbert, assisted Mrs. McCullough in receiving, while at the tea and coffee urns were Mrs. Ernest Allen Batchelder, Mrs.

Miss Alice Anderson, Miss Ruth Brown, Miss Patricia Robinson, other guests including Miss Betty Janus, Miss Elaine Kelly, Miss Virginia La Fon, and Miss Bernice Robinson, other guests including Miss Betty Janus, Miss Elaine Kelly, Miss Virginia La Fon, and Miss Bernice Robinson.

Assisting the president, Miss Helene Swallow, are four committee chairmen, Miss Elmer Hook, Miss Alice Anderson, Miss Theresa Linton and Miss Billings. The junior officers, Miss Swallow, president; Miss Beth Laemmle, first vice-president; Miss Hook, second vice-president; Miss Ruth Brown, secretary; and Miss Anderson, treasurer, will preside over the tea.

Mrs. Elmer Mansfield, founder of the Euterpe Opera Reading Club; Mrs. Daisy Bannerman Coats, president; Mrs. Alexander Anderson, Mrs. David Ayre and Mrs. Esther Van Trocha Swallow, who make up the junior advisory board, also will assist the junior officers.

In commemoration of Shakespeare's birthday anniversary and that of Dr. Frederick Schiller, a veteran actor and interpreter of the Bard's works, members of the Los Angeles Shakespeare Club will give a dinner at 6:30 o'clock Saturday evening in the Mary Louise Hotel, Room 2200 West Seventh street.

Dr. Bruce Richard Baxter, professor of homiletics at the University of Southern California, will be the speaker, while on the speakers' list are Dr. Ward, Mrs. Ralph Waldo Trine, Miss Margaret Bourne, Mrs. Norma Lodge, Dr. Henry C. Culbertson, Dr. E. B. Hughes, Fred Kirkpatrick, Mrs. Charles Burgess, Mrs. Charles Kennelick, Mrs. Alfred Verhoven, Mrs. Parker Foster, Mrs. Robert Banks, Mrs. Earl Dietz, Mrs. Cornelius Hays, Mrs. Arthur McDonald, Mrs. Marjorie Bryant, Mrs. Murray Brophy, Mrs. Irvin Stewart, Miss Dora Christian, Miss Ruth Sims, Miss Gertrude Nichols, Miss Nellie Burgess and Miss Anne Milburn.

Mr. and Mrs. Thomas Jefferson Douglas left Thursday for Nashville, Tenn., where their daughter, Mrs. Joseph Ellison, and her family are living while her daughter, Lydia Douglas Ellison is attending Ward-Belmont School.

They will visit friends and relatives in Alabama, visiting at their old home town of Florence, and later going into the mountains of North Carolina during the warm weather, planning to return home again when Mr. Douglas is in better health.

One of the smartly appointed affairs of the past week was the tea with which Miss Quitta Caperton entertained at the home of her grandparents, Mr. and Mrs. J. Knox Corlett, 10415 Lindbrook Drive, Westwood Hills.

Pink roses and baskets of fragrant spring flowers were used in the decorations of the lovely new home and the young hostess, one of the season's most popular debutantes, is a student at Westlake School, to be graduated this summer.

Sketch prize offered by Frances E. Morehead, alumnus of the school of architecture of the University of Southern California, will be awarded the winner of a sketch contest now being held on the campus. The winning sketch will be announced and the prize awarded at the annual Mardi Gras of the students of the school of architecture May 4.

Members of the Los Angeles Mothers' Club will meet at 3 p.m. today at 3101 South Figueroa street, to hear Dr. John Miller and Mrs. Edith N. Hawthorn discuss "The Rights of the Child," Mrs. Gilbert A. Reeve is president.

## SORORITY LEADER WILL GO EAST

### National Convention to Be Attended

MISS CAROLINE CRAFT

MISS CAROLINE CRAFT, daughter of Dr. and Mrs. E. D. Craft of South St. Andrews Place, is planning to leave the early part of June for a tour of the Eastern and Southern States. Going by train to New Orleans, she will journey by boat to New York, where she will visit relatives. Miss Craft also will attend the national convention of Alpha

Gamma Delta Sorority at Syracuse, N. Y. While she presents the plans for the new chapter house at Westwood. In her capacity as vice-president and benefit chairman of Alpha Gamma Delta at University of California in Los Angeles she has sponsored many successful benefits which have aided in making possible the completion of the new chapter house at Westwood by early fall. Miss Craft plans a part of her return trip by air.

Donald R. Dickey, Mrs. Edwin Morgan Sherman and Mrs. Gertrude Ross. Others assisting included Mrs. George R. Macdonald and Miss Hildegard Plummer. Following the concert Sunday afternoon tea will be served in the green room of the theater.

Smart Affair

One of the most beautiful affairs of recent date was the bridge-luncheon at the Mary Louise Hotel, Thursday, given by Mrs. Arthur Eon Huntington, 1783 North Wilton Place, Hollywood. The ninety guests were seated at tables arranged in the ballroom, each table artistically decorated with a large basket of vivid spring flowers, roses, tulips, iris, sweet peas and maiden-hair fern, enhanced by matching satin streamers and tall lighted tapers. Pastel nut cups and unusual place cards added to the riot of color. Following luncheon the guests played bridge. Mrs. Huntington was assisted by her daughter, Miss Winifred Huntington, Mrs. Charles Henry Thompson, Mrs. Arthur Curtis Hurt, Mrs. Charles S. Montgomery, Mrs. Lincoln D. Godschall, Mrs. R. T. Burge, Mrs. Fred H. Richmond, Mrs. Winford King and Mrs. T. E. Ivey, Jr.

Alumnae Affair

Southern California alumnae of Alpha Phi are being entertained this afternoon by a charmingly appointed affair given by Mrs. Robert J. Burdette at her home, Clara Vista, in the gardens of The Huntington in Pasadena, the guests being taken for lunch to the Burdette home for the business meeting.

All Alpha Phi are invited if they will but make reservations with the hostess, who is one of the founders of Alpha Phi and a member of the Southern California alumna.

Wedding Anniversary

Mr. and Mrs. Byron Drew Williams, whose wedding was an event of last spring, have issued invitations to a colony of intimate friends to celebrate their coming anniversary today, the date also celebrating the anniversary of the young hostess, Mrs. Williams, who will be played at eight tables at their home in Palm Drive.

Mr. and Mrs. Williams have entertained at numerous delightful affairs during the past year, and have planned several more for the early summer season, one of which will be a bridge-tennis complementing Mrs. Williams' Wood, formerly Miss Margaret Williams, whose marriage took place the 15th inst.

Benefit Bridge-Fashion Show

Saturday afternoon the Lambda chapter of Beta Phi Alpha Sorority will give a benefit bridge and fashion show at the Elks' Club. Girls from the sorority who are acting as models are Maurine Gumprecht, Bernys Hallinen, Virginia Randall, Emma Dralle, Frances Klamt, Mildred Meier, Winifred White, Helen Klamt, Laura Lou Doughty and Viola Hummel. Patronesses for the affair are the sorority faculty assisted by Mrs. Elinor Macdonald of Beverly Hills, and Mrs. Garner, house mother. Prizes for the bridge have been donated.

## MOTHERS' CLUB MEETING TODAY

Paidology Discussion to Be Heard by Many

National Baby Week Plans Will Be Considered

Other Sessions for Women Due in Next Few Days

Because its stated purpose is to raise to the highest pinnacle the profession of motherhood, one of the most constructive of women's clubs in Los Angeles is the Mothers' Paidology Club, which meets at 3 p.m. today at 3101 South Figueroa street, to hear Dr. John Miller and Mrs. Edith N. Hawthorn discuss "The Rights of the Child," Mrs. Gilbert A. Reeve is president.

An outgrowth of the Mothers' Educational Center Association, founded by Dr. Maude Wilde, the club conducts meetings twice each month, the second Thursday being devoted to round tables and a social hour, while on the fourth Thursday there are lectures on paidology—the science of child rearing—is being heard.

Members this week are completing plans for the fourteenth annual national baby week, the 38th inst. to May 4, of which a feature in Los Angeles will be the awarding of diplomas in the profession of motherhood by Frank Wiggins, president of the center.

## CHEF WYMAN'S RECIPES

Every Tuesday and Friday at 1:30 o'clock Mrs. A. L. Wyman will conduct a free class and demonstration of good cookery in the lecture room of the Southwest Building, 130 South Broadway.

BACK BAY FISH PIE

Pick half a pound of salt cod-fish in flakes and soak in boiling water overnight, bring to a boil and free from all bones and skin, slice four hard-boiled eggs in thin slices, slice four medium-sized onions, line the bottom of a baking dish with thin slices of boiled potatoes, cover with a layer of the fish, then a layer of the rice, then a layer of the onions, continue until the dish is filled; season with a little paprika, pour over a half a cupful of water, to which has been added one teaspoonful of Worcestershire sauce and one teaspoonful of anchovy sauce. Dot with bits of butter, cover with a rich pie pastry and bake in a moderate oven for one hour.

Two cupfuls of cold cooked rice, run cold water through it, drain and separate the kernels with a fork, spread half of the rice over the bottom of a well-buttered pudding dish, cover with half a cupful of seedless raisins, add another layer of the rice, then a layer of the onions, continue until the dish is filled; season with a little paprika, pour over a half a cupful of water, to which has been added one teaspoonful of Worcestershire sauce and one teaspoonful of anchovy sauce. Dot with bits of butter, cover with a rich pie pastry and bake in a moderate oven for one hour.

Two cupfuls of cold cooked rice, run cold water through it, drain and separate the kernels with a fork, spread half of the rice over the bottom of a well-buttered pudding dish, cover with half a cupful of seedless raisins, add another layer of the rice, then a layer of the onions, continue until the dish is filled; season with a little paprika, pour over a half a cupful of water, to which has been added one teaspoonful of Worcestershire sauce and one teaspoonful of anchovy sauce. Dot with bits of butter, cover with a rich pie pastry and bake in a moderate oven for one hour.

**Novelties, Ideas, and Suggestions**

By OLIVE GRAY

Her "foolishness fund" is what she calls it; and she keeps it in an especial purse. In her most-used hand-bag. Cents and dollars hoarded from small economies in the household go into this purse and when, during her shopping tours, she runs across one of the always-wanted articles not necessary to home-keeping, but always desired for luxury or beautification—out comes the "foolishness purse" and triumphantly she possesses the wished-for treasure.

No fabric is so tempting as felt; first, because the colors in this weave seem to take on a softer brilliance than do any other cloths. Next, because the pliance affords opportunity for making so many lovely articles. If you get away from the felt counter without acquiring more inches of this beautiful material than you possibly can use, you prove real strength of mind. Making hats or flowers, you decide upon just another shade, just another double inchage, until you have material for an entire flower garden, instead of the single added inch required for making the coat bouquets that you had planned. For, so few cents per inch, that it seems too bad not to purchase a little more and still a little bit more. Entire hats, as well as flowers, are easy to fashion from this fabric; and if you are bridge, there are table covers and books to hold the score, as well as favors for the game, pillows, also, either in all felt, or felten flowers to adorn the outdoor pillows made from old-cloth or leather lamp the handy-handed.

**ON Cloths**

No longer is oil-cloth "mere." Not by any means, since the colors in this material adapt it for so many uses in the home. In close simulation of patent leather, black oil cloth lends itself to modernistic upholstery and table coverings, as well as to bags and pillows. Inexpensive and at the same time elegant, when properly applied, oil cloth is a genuine help in home decoration.

**Scare Cats**

"Scare Cats" is what I call them, when put to novel use. I refer to those strange crimson cats, carved from wood, lacquered red, and weighted. They originated in Japan, as so many odd and useful articles do; and they are intended to act as book-ends; but what for it is to put objects to unexpected uses! To use as door stops, these crimson cats—so queerly hunched and angular—are obvious to the eye and at the same time lend a modernistic touch. No inadvertent stumbling over these door-stopping kittens.

**Her Disclosures**

If you ever have thought women indifferent to complexion, beauty, you will realize your mistake if you watch the eager listeners as that lovely woman voices the declaration that being beautiful is woman's business. This, her first store-appearance in person, proves that her study of this subject has been far from fruitless. Conference on the questions of attainment and preservation of feminine charm earnestly is sought, and as solicitously given. Faith in her preparations has long been established through her "money-back" guarantee. And, so efficacious are these remedies, that almost never—during the many years since their introduction, has this guarantee been drawn upon.

**Dolled Up**

Those clever little bouquets, containing little bouquets, containing little bouquets, have come out all dolled up! The cunning little doll, posed in the center of the paper posy, seems to be deciding whether to select the darning silk, the tiny spoils of the thread, the proper needle, for the work in contemplation. This darning-silk money as useful as ornamental; for even the most provident guest is likely to forget in packing, some item for preparation of the wardrobe, and this thoughtful bouquet article graciously fills the need.

**Aunt Jane's Way**

Despite the dictum of some good housekeepers, Aunt Jane says the wet mop has its purposes; and she approves the self-wringers, as they are termed. With one of these, porch mopping may be accomplished without touching the hands to water. Most intelligent and helpful house aids, they are.

**Silk Versus Gingham**

Under the modern disorganization of fabrics, silks go gingham and gingham go silk. New yardage offers silks striped and plaided in stimulation of common gingham; and gingham so soft and finely woven as to appear like silk in yardage. Either and both combine popular frocks and an ensemble, under the season's style guidance.

**Patch Calico**

The quaintest of old-time patch calico may now be found on the local counters. It is stamped, and has so highly approved of this weave for jackets and coats, that it has decreed itself among the aristocrats. Clear yellows, blues, reds, greens and lavenders are shown in this reminiscent material.

**Following Meals**

Give a piece of candy to the youngster immediately following the meal, never in between times. It takes very little to spoil a child's appetite and a piece of candy at the wrong time is very apt to do the trick.

Dr. Mc Coy will answer personal questions on health and diet, addressed to him, care of the Los Angeles Times. Answers returned by return mail.

(Continuing Cleansing Spring Diet Course)

**PROTEIN ADDED TO THE DIET**

Starting with tomorrow, your diet will be changed so as to add a certain amount of protein in the form of eggs. A good way to start adding this protein to your diet is to make a change in your breakfast, eliminating the nonstarchy vegetables at this meal and substituting a breakfast made up of one or two eggs. Melba toast and stewed fruit. The eggs may be prepared in any manner except by frying. Here are some ways to prepare eggs best for the usual boiling and poaching to which you have been accustomed:

**SOME RECIPES**

**Coddled eggs:** Place the unbroken eggs in a deep pan which is not standing on the fire and pour boiling hot water over them. At least one quart of hot water should be used to each two eggs. Allow to stand from five to ten minutes. When broken open the egg should have a jelly-like consistency, but should at the same time be so well cooked that there is no transparent albumen which has not been coagulated. If the pan is covered less time will be required to get the same effect, but it is possibly more desirable to have the eggs cooked very slowly, for perhaps eight or ten minutes, as in this way they are cooked through more thoroughly.

**French omelet:** To two ounces of milk add one egg. Put in a dry frying pan over a slow fire and beat the milk and egg together. Stir and beat constantly so that it does not stick to the pan and continue this until the mixture assumes a jelly-like consistency. Do not fail to keep on stirring the mixture even after it has been taken from the fire, as the frying pan will retain a good deal of heat, which will continue to cook the egg. Serve in sauce dishes or egg cups. You will find that one egg prepared with two ounces of milk in this way will serve one person and exactly fill the large end of an egg cup.

**Baked egg:** Cut with a small blunt cutter rounds of white bread from slices one-quarter of an inch thick. Toast these round pieces until browned all the way through. Place one in the bottom of each muffin tin, moisten slightly with sweet milk and break one egg into each tin. Bake in slow oven until eggs have become firm and all transparent albumen has coagulated. Being careful not to overcook them. Dot each egg with butter when ready to serve.

**The Melba toast** is prepared in the following manner: Cut all of the crust from an ordinary loaf of white bread and slice the putty loaf

one-quarter of an inch thick. Allow these to dry at least overnight, and preferably longer. When thoroughly dry they should then be put into a moderately hot oven and toasted so that the heat will entirely penetrate the dried bread until it is a golden brown all the way through. It should be buttered fresh as it is being eaten.

**Stewed fruits** are best if cooked after thorough soaking. In their dried form they should be well washed and soaked overnight in enough water to cover them. They should then be cooked slowly in the same water, as you have been using, in order to bring out the sweet, palatable flavor. No sugar should be added, as the slow cooking will bring out the fruit sugar, which will make them taste more delicious than if commercial sugar is used.

**The lunch and dinner** are to remain the same as you have been using, choosing a selection of the nonstarchy vegetables, both cooked and raw.

**From daily regime tomorrow** will be this: Upon arising, brush your teeth vigorously for five minutes, take breathing exercises before an open window, then your morning enema, followed by a shower bath. Breakfast: One or two eggs prepared according to above recipes. Three or four slices of Melba toast. A small dish of stewed fruit from the following list: Prunes, figs, raisins, apples, apricots or berries. Luncheon and dinner: A selection of one or more of the following vegetables: Celery, spinach, small string beans, asparagus, small squash, cucumber, egg plant, beet tops, turnip tops, small beets, small carrots, small parsnips, small turnips, pumpkin, lettuce, okra, chayotes, oyster plant (cauliflower), mallow, kale, parsley, endive, alligator pear, ripe olives. These may be used either cooked or raw, but I suggest that you use one or two cooked and one raw at each meal.

**Before retiring** take your usual enema, shower bath, and clean your teeth by vigorously brushing for at least five minutes with a stiff toothbrush and a good dentifrice.

**Look for tomorrow's paper** with instructions for the following day.

**QUESTIONS AND ANSWERS**

(Mailbox Taste)

Question: Mrs. W. W. asks: "Will you please tell me the cause of a metallic taste in one's mouth—especially so after eating fruit?"

Answer: Sometimes the metallic taste is caused from the reaction of the acids of fruit upon fillings in the teeth. This is especially true with those having amalgam or silver fillings. Changing to gold fillings or pivot teeth will correct this. (Continued, 1929, by Dr. Frank Mc Coy.)

**Interest to Women.**

**CLUB'S DINNER WILL HONOR SHAKESPEARE**

The Los Angeles Shakespeare Club, Mrs. Grace Monk Hall, president, will hold a dinner at the Mary Louise Tea Room Saturday at 6:30 p.m. in commemoration of William Shakespeare's birth and that of Frederick Ward, veteran actor and delineator of the bard's works. Dr. Bruce Richard Baxter of University of Southern California will be toastmaster. Dr. Henry Cox Culbertson, L. E. Belymer, Ellis Reed, Judge Bush, Margaret Borne and Mrs. Ralph Waldo Trine are to speak.

**SENIOR GIRL STUDENTS TO BE GIVEN SCROLLS**

Honor scrolls are to be presented to the senior co-eds of the University of Southern California selected as the most outstanding feminine fourth-year students at the spring banquet of the Women's Self-Government Association next Wednesday evening in the Trojan Student Union. Other awards to be presented include those annually given by the Women's Athletic Association, the campus Y.W.C.A. and Pan-Hellenic (all-society group).

**FIREMEN PAY HONOR TO HOSPITAL NURSE**

An honorary fire captain's gold badge yesterday was pinned on the white coat of John Herbolzheimer, a nurse in the Georgia-street Receiving Hospital. He has charge of the firemen and policemen taken there when they are injured on duty. Fire Captain Harry Claiborne donated the badge on behalf of the firemen who have passed under Herbolzheimer's care. Dr. Charles F. Sebastian made the presentation speech. John was struck dumb, but wore his gold badge proudly.

**It Flavors**

—not with biting tartness, but richly—moderately—spicyly. H. P. is a thick, creamy relish that glorifies Meats, Fish, Salads, Sandwiches, Soups, Stews, etc. It's aged! For free H. P. Recipe Book, address Parrott & Co., Los Angeles, Cal.

# Day's News and Features as "Times" Cameramen Around World See Them

The 365th Anniversary of Shakespeare's Birth Was Observed by Ebell Club yesterday with the usual costumed readings from his works and the annual drama luncheon. Dr. Frederick Warde addressed the club. In above photo, left to right standing, Mrs. Lucille Bender Weddendorf, Mrs. Charles Chamberlain, Mrs. Bradford Trenham, Mrs. Margaret Purcell and Mrs. Dudley Frank; seated, Dr. Warde and Mrs. Raymond Tremaine; reclining, Mrs. Irwin Camp. (Times photo.)

More Than 300 Cowboys and Cowgirls Will Compete for \$8000 in Prizes Sunday afternoon at the annual Baker Ranch Rodeo at Saugus. Rodeo champions from nearly every section of the West will be seen in action during the day. Blondy Johnson, a competitor, is warming up for the event aboard one of the string of bucking horses.

Science is interested in Mysterious Powers apparently possessed by Rudie Schneider, said to be the foremost medium. Schneider (right) will submit tests by Director Harry Price of the National Laboratory of Psychical Research in London. (P. & A. photo.)

Aged Apache Scout, known only on army records as Syc, who saw active service against Geronimo, is serving with United States troops at border. (A. P. photo.)

Heavily Beaded Bodice and fluffy skirt of net lace bound in ribbon are features of the attractive evening gown displayed above by Nancy Welford.

The Secret Marriage of Henry L. Dobson, formerly one of the most illustrious bachelors in the States, to Mrs. Eames was revealed recently. (P. & A. photo.)

## HIGH LIGHTS IN HISTORY

## 1324 The Story of the World War 94—Citizens' Training Camps.

by J. CARROLL MANSFIELD

AFTER THE SINKING OF THE "LUSITANIA" (MAY 7, 1915), HAD GIVEN RISE TO A CRITICAL SITUATION BETWEEN THE UNITED STATES AND GERMANY, AMERICANS RAPIDLY AWOKE TO OUR PRESSING NEED OF AN ADEQUATE NATIONAL DEFENSE. IN AMERICA "PREPAREDNESS" BECAME THE WATCHWORD OF THE DAY.

WHILE THE GOVERNMENT WAS CONSIDERING A GREAT EXPANSION OF THE NATIONAL FORCES, STEPS WERE BEING TAKEN TO OFFER COURSES IN MILITARY INSTRUCTION TO PATRIOTIC CIVILIANS. GENERAL LEONARD WOOD WAS MOST ACTIVE IN PROMOTING THE TRAINING OF CITIZENS IN CAMPS UNDER THE DIRECTION OF THE REGULAR ARMY.

IN 1915, THE OPENING OF A CITIZENS' TRAINING CAMP AT PLATTSBURG BARRACKS, IN NEW YORK STATE, ATTRACTED CROWDS OF YOUNG AMERICANS. DURING THE SUMMER HUNDREDS OF CIVILIAN-SOLDIERS RECEIVED INSTRUCTION IN THE SCIENCE OF MODERN WARFARE.

THE "PLATTSBURG IDEA" PROVED SUCH A SUCCESS THAT THE CITIZENS' TRAINING CAMP WAS MADE A REGULAR INSTITUTION. PROVISIONS OF THE NATIONAL DEFENSE ACT, WHICH WAS PASSED BY CONGRESS THE FOLLOWING YEAR.

# GIRL IN HAWAII WINS CONTEST

Young Orator Will Compete in Coast Grand Finals

Luncheon Being Planned in Honor of Speakers

Group B Rivals Prepare for Last Test Tomorrow

HONOLULU, U. S. A., April 23.—Adeline Rios, 16 years, sophomore, McKinley high school, winner of the Pacific Coast grand finals of the Shrine Auditorium oratorical contest, yesterday afternoon, carried the result of the Hawaiian Territory finals in the Sixth National and Fourth International Oratorical Contest on the Constitution.

This is the first year Hawaii has entered the foreign tournament and the contest is sponsored in the islands by the Honolulu Star-Bulletin. Miss Rios will be one of the eight participants in the Pacific Coast grand finals at Shrine Auditorium, May 10, and will compete with representatives from Montana, Washington, Utah, Oregon, Arizona, Nevada and California. None of the States has selected its representative for this event, the winner of which will progress directly to the national finals at Washington, D. C.

**LUNCHEON PLANNED**

Miss Rios and her chaperon will be quartered at the Billmore, where headquarters for the Pacific Coast finals are to be established. Reservations indicate that representative delegations from each State will flock to Los Angeles for the finals of the Rocky Mountain-western section of the United States.

A luncheon will be given for the orators at which the judges, principals of participating high schools and secondary schools, teachers in charge of the local contests, district managers and others intimately associated with the contest will be present as the guests of The Times. Reservations have been made for 150 and the luncheon will be served in the music room, which was made available through the courtesy of the Los Angeles Lions Club, who set aside its contract for the music room and will transfer to the supper room that date.

All contests, from the local school eliminations to the national and international finals are entirely free to the public. Reservations for the Pacific Coast finals at Shrine Auditorium may be made at oratorical contest headquarters of The Times. Reservations should be made preferably in writing. The prior contest, known as The Times grand finals, to be held at Bovard Auditorium, University of Southern California, the night of May 3, will be free to the public, but no reservations will be made, except for the judges.

**GROUP B CONTEST**

The seven contestants in Group B of The Times semifinals to be held at Fresno State Teachers College tomorrow night, have been elected from the agricultural and oil districts of the hinterland of Los Angeles. Lee Symonds, the first speaker on the program, comes from Coalinga High School, which boasts a large case of silver loving cups and other trophies that have been won by that school in the field of oratory. John R. Locke, Jr., a product of Dinuba High School, is son of the editor-publisher of the Dinuba Daily Sentinel and won the \$50 posted by the Lions Club for the most outstanding student of the high school during 1928.

Kathleen Lambert of Bishop, third speaker, and Lois Schmidt of Taft, sixth speaker, will vie for the honor of having a girl capture the coveted first place. William Bopp comes from Edison Technical High School of Fresno, 75 per cent of the students of which are of foreign-born parentage. Byron Gentry, Corcoran Union High School will discuss "Does Hamilton Live Today?" and is said to handle the precepts of Hamilton's teaching in a forceful manner. William P. Broderick of Kern County High School will be the final speaker. He won second place in the district finals last year; won the championship of the San Joaquin Valley extemporaneous contest, 1928 and is a member of the National Forensic League.

# Judge as Jury Convicts Two

Serving as judge and jury Superior Judge Aggeler yesterday found David Reese and James Sanders, asserted "hot-water" bandits, guilty of attempted robbery and burglary. They are to appear Friday for sentence.

Reese and Sanders are asserted to have entered a restaurant at 901 West Second street last February and attempted to rob Jack Sumner, Lawrence Knevezich, part owner of the restaurant, three boiling water on Sanders and subdued him, according to police at the time of the arrest. Reese was asserted to have been captured when he attempted to escape.

# FEDERAL AGENTS JAIL EX-OREGON BANKER

Federal authorities yesterday were holding Victor L. Holman, former cashier of the First National Bank of Toledo, O., who is accused of embezzlement of \$3000 of bank funds on July 1, last. Holman was arrested at Santa Monica by Deputy United States Marshal Rice and was placed in the County Jail pending the posting of bail. He will be arraigned today before United States Commissioner Head.

# SCHOLARSHIP HEAD NAMED

Dr. Allison Gaw of the department of English of the University of Southern California has been named chairman of the University of Southern California Rhodes Scholarship committee. Students have until October 19 to file their applications for election as Rhodes scholars with the secretary of the State committee of Selection, according to announcement of Dr. Gaw. The 1929 election will take place on December 7.

# FISH DAY FOR FOOD SHOW

Tomorrow Will See Great Quantities Placed on Display in Booths at Ambassador

Preparations for making tomorrow a Friday on which more fish will be consumed than ever before in the history of the California deep-sea fishing industry were launched yesterday at the Food and Household Show in Ambassador auditorium. Great quantities of the exhibitors are being made for the last half of the week. New decorations, increased quantities of free samples and many new products are being put into the booths.

One of the features for the day was a talk by Frank Decater-White, food and household lecturer, who spoke under the auspices of the Broadway Department Store. In the same booth, Miss Dora Adams, San Francisco artist, used a vacuum cleaner in the trick of drawing pictures on a dust-covered parlor rug.

While the audiences watched, Miss Adams, in a few minutes, drew portraits of various food show visitors, who were asked to pose on the artist's platform.

**REMARKABLE GAIN**

Walter R. Smith of San Francisco, chief deputy of the exchange, told the remarkable story of how the marketing of several hundred striped bass and snad in California waters late in the '20s, enabled Coast fishermen to take 5,000,000 pounds of the product into custody for the appetite of the nation in the past year.

Mexican sea bass is a comparatively new fish, Smith said, rapidly assuming great popularity on the home dinner table. The State Fish Exchange booth, in view of the approach of Friday, was stocked with large quantities of abalone steaks, spiny lobsters and filets of various fish.

The fillet style of carving fish prior to putting it on the market, Smith said, frees the housewife of buying much scrap meat and bones. He said this new process obviated almost all danger of little Willie getting a fish-bone stuck in his throat, and that all members of the household will benefit from the new procedure, with the exception of the family cat.

**NEW KIND OF EXHIBIT**

J. H. Battelger of Inglewood, who followed Smith to the speaker's stand, said the popularity of fish fillet is prompting markets throughout the country to install new forms of show cases, specially designed to hold and to exhibit the boneless fish meat.

Crowds were on the increase yesterday, as the show went into its

# NEW TORSO CLEWS FOUND

Woman's Bathing Suit and Shirt-waist, Picked Up from River Bottom, Searched for Stains

Renewed efforts to solve the mystery of the torso of a girl found in the Los Angeles River near Compton three weeks ago were begun by the Sheriff's office when a woman's bathing suit and shirt-waist were turned over to deputies yesterday. The garments were found in the river bottom by deputies under Constable Roselle, who are making a systematic search of the river from Norton street, Compton, to the sea with the expectation of finding the missing limbs and head of the victim.

An examination of the garments may have been the Timm girl, who has been reported missing by Mrs. County Chemist Gompert. The deputy sheriffs and constables are working on the theory that the missing members of the girl's body were dumped into the river simultaneously with the torso.

The coroner's autopsy at the time the torso was found revealed the victim had not been dead twenty-four hours. Because of the heavy rains at that time the torso had a tendency to float and roll with the rush of the current, the authorities assert.

Comparison of a lock of hair from the head of Irma Timm, reported missing from Flanreau, N. D., with hair taken from the torso by Chemist Gompert revealed no similarities, he asserted. His report eliminated the chance that the victim

# SOCIAL SERVICE BOARD REPORTS

Activities of Three Years Told in Pamphlet

Many Fund-Raising Schemes Vetoed by Commission

Woman's Plan to Breed Race of Supermen Censored

A total of 270 organizations, societies, clubs, lodges and religious bodies with activities covering almost every phase of human endeavor failed to obtain the endorsement of the city Department of Social Service in drives for cash during the last three years, according to the thirteenth, fourteenth and fifteenth annual reports combined in one pamphlet sent yesterday to Mayor Croy by the department, which reported "too much promotion connected with so-called benefits for charity at the expense of the public."

The report outlines the work of the department, of which Mrs. Anna B. Smith is manager, and the commission, composed of Rev. E. E. Haring, president, Thomas A. J. Dockweiler, Mrs. Charles H. Richmond, M. C. Bettlinger and Miss Therese Levy. It indicates that hundreds of thousands of dollars—possibly millions—were saved to the people of Los Angeles by checking activities of irregular and more or less fraudulent drives.

On the other hand, the report shows, the department has approved activities of sixty-six agencies and enforcement of seven others is under consideration.

One woman, the report relates, desired to solicit funds with the object of bringing together the highest types of individuals for the propagation of a superior race of people. Her plan was turned down as impracticable.

Endorsement was withheld from other agencies because of difficulties in management, internal dissension, failure to prove that the character of executives was above criticism, improper personal disbursement of funds, excessive expense to the results accomplished, unsatisfactory management, too much capital tied up in clubhouses, too high cost of maintenance, use of charitable and so-called philanthropic organizations by the promoters for the purpose of gaining a livelihood and private fraternal organizations not benefiting the general public.

The report states that the raising of funds for real or purported philanthropic and charitable purposes by means of football games, raffles, publications, souvenir programs, benefits, concerts, dances and the like, referred to the department, usually are turned down.

# Stunt Cowboy Wins Judgment for Neck Risks

When an actor risks his neck in a fall from a bucking broncho it is worth \$25, according to the opinion of Superior Judge Bowron, who allowed this amount to Jack Chase, film stunt cowboy, following the trial of his lawsuit against the Charles R. Rogers Productions concern.

Case also was allowed \$10 a fall from a running horse and \$10 each for other stunts. Judge Bowron also gave him \$100 for a jump on horseback from a twenty-foot cliff into a river. The total amount given Chase was \$569.30.

The actor contended he was hired at a stipulated weekly salary with an agreement he was to be paid extra for stunts. The company asserted his charges were excessive.

# Science Trend to be Charted

The fifth annual research lecture of the University of California at Los Angeles will be given tomorrow at 1 p. m. by Dr. Earle Hedrick, head of the mathematics department of U.C.L.A. The lecture will be free to the public.

Dr. Hedrick will treat of the comparatively recent doubts that have arisen pertaining to scientific knowledge, extending even to geometric axioms that for hundreds of years have been accepted as truth. He will stress the fact that it is necessary now to accept some of our so-called mathematical truths on faith.

Dr. Hedrick studied in Germany under one of the leaders in the new mathematical movement, and was familiar with the unrest among scientists there, which later has been manifested in the form of the Einstein theory. He has published several works dealing with the modern trends of science. The lecture will be in Millsap Hall.

# UNION SQUARE-GROUP OPPOSES DUPLICATION

A protest against giving the name of Union Square to the intersection of Lucas, Beaudry, Fifth and Sixth streets was lodged with the City Council yesterday by residents of the area surrounding the intersection of Union avenue, Hoover, Twenty-third and Twenty-fourth streets, which now is known as Union Square. The protest was presented by Councilman Ingram, who at the same time asked the Council to adopt a resolution expressing disapproval of the duplication of names or titles of territory in the city. The protests and the resolutions were referred to the Council's Planning Committee, which already has before it a resolution asking that the name of Union Square be given to the first-mentioned area.

# FESTIVAL AID PLEDGED

Support of the Federation of Jewish Welfare Organizations in giving a May festival for the benefit of the Mount Sinai Home for Chronic Invalids at the Shrine ballroom Saturday, May 19, was pledged yesterday by Irving Lipshitz, executive director of the federation.
